procured a pistel by some means as yet unknown, and shot himself in the left the sheriff had been arranging for. He died tast Saturday, and the gallows was cheated of its victim.

An important decision has just been rendered by the Secretary of the Interior is the rejection of the application made by General Jeff. C. Davis, of the regular army, for a homestead pre-emption. Gen. Davis claimed that under sections 2,293 and 2,308 of the Revised Statutes he was entitled to make a homestead entry and to have a patent issued thereon, without actual residence on the land, basing his claim upon the ground that his service in the regular army was equivalent to residence upon the land. The Secretary decided that sections of the revised statutes refered to apply only to persons who served in the military and naval sirvice of the United States during the war of the rebellion, and who before or after entering the service had made entries which had been canceled, or upon which the claimant Watch's Clocks could not make final homestead proof on account of his absence in the army or pavy, and that an officer, soldier or sailor who enlisted in the regular army or navy since the close of the rebelion is not en titled to homestead privileges while in such service.

In fact there is no bayonet at the polls, more than one half the Southern States being without a soldier, and the largest number in any one State being 300, and they confined in forts and barracks. Mr. Blaines exposure of this grand political humbug and pretence to cover a studied purpose to promote the State above the federal power has had a wonderful effect in stiffening the backs of weak republicans as well as in weakening the back of heretofore stiff northern democrats, who dore not face their people with the real facts.
