Persons sending letters for publication must bear in mind that the editor reserves the right to reject a part or the whole of the same. We never needlessly curtail a communication, but we are the best judge of what suits us.

The printer omitted a part of the 4th of July program last week, and the omission was not noticed until too late to be inserted. Among other things that was omitted, was the announcement that Hon. Wm. Gaslin will deliver the oration on the 4th at Red Cloud.

We have just received a large lot of paper etc., and are prepared to give satisfaction. Leave your orders with us and have your work done neatly and cheap. Letter heads, note heads, blank notes etc., put up in tablets which keeps them clean and they are always handy for use.

How about the Fair this fall? Are there any arrangements being made for holding a creditable county fair in this county. We see no reason why Webster county could not have at least one respectable exhibition of the products of the soil. Whoop her up and let's see what can be done.

Obituary. Died at his residence on Friday, June 20th of consumption, Mr. R. L. McCune aged 63 years. The deceased was highly respected by all who knew him and was followed to his last resting place by a large concourse of people.

We hear considerable complaint about the way mail is handled at Thomasville P. O. Some of our subscribers fail to get their papers regularly. Whether it is the fault of the Post-master we do not know, but propose to find out. We are inclined to believe that the trouble is caused by persons taking mail from the office for their neighbors and failing to deliver it promptly.

Mean monthly temperature 73°. Moon observation. Amount of rain fell 4 1/2 inches. Hail storm on the 24th. East and south winds prevailed.

G. W. Knight, Obs. In times past we repeatedly called attention through the columns of the CHIEF, to the necessity of planting shade trees, if property owners desired to enhance the value of their property as well as to make the town a desirable and comfortable place to live. Nothing will make a town more inviting and pleasant than to have its streets lined with shade trees, and there is nothing, perhaps, that will add more to the pleasure and comforts of home, than to have a plenty of nice and thrifty growing trees, besides if you want to sell, you can always get enough more for your property to pay you tenfold for the trouble and expense of caring for the trees. Take for example, the home of John G. Potter—six years ago he planted a row of trees around his lots, the cost of planting, and care of trees did not exceed \$6.00. What is the result—he has the most pleasant place to live, in town, and should he desire to sell his property he could get at least \$200 more for it on account of the trees which cost him \$6.00. Plant trees, and "don't you forget it."
