-Paul H. Hayne, the Southern poet, thinks of making his home in the North, saving that the South shows little appreciation of letters, and gives no encouragement to the professional lit. struck by this likeness, which he traced erary man. He has been for some weeks with Whittier in Ossipee, N. H., and has enjoyed the hospitality of Longfellow and others in Boston. -Here is a new thing in journalism:

The editor of the South African Star makes the following announcement: "From and after to-day the exact time of the publication of the Star will be announced by the blowing of a steam whistle, which has just been affixed to our boiler and steam engine. Subscribers will thus be able to know when the paper boys have been dilatory in delivering the paper at their residences."

the new fall book of poems entitled "Friar Anselmo and Other Poems," is a sister of Prof. Ripley, of the State University, located at Columbia, Mo. The Ripley family are very highly esteemed in Missouri. Miss Lulu Ripley, a daughter of the Professor and a niece of Mrs. Dorr, was for some years a teacher in the Mary Institute of St. Louis, a branch of Washington University. Miss Ripley is now married to a distinguished phy-

sician of St. Louis. Mr. Wm. H. Rideing was born in Liverpool, England, in February, 1853, so that he is one of the youngest of our now prominent journalists and magazinists. He is the son of a veteran officer in the Cunard service, but both his parents died when he was very young; and in 1869 he came to the United States duced to give a sitting. the difficult paths of literature, Mr. Rideing's first newspaper experience was with Mr. Bowles on the Springfield (Mass.) Republican.

Why Americans Bolt.

It is especially remarkable that in the United States the ordinary food of the people is better in quality and more respectably cooked than among the masses in any other country and the Americans are known to masticate their food very imperfectly, in short, to "bolt" it. This methods of arranging the pulls on the her in a back, determined on a foreithm habit of bolting is probably itself due to figure would be impossible.
