# A Queer Bug.

A curious bug was brought to the Chronicle office this morning by Henry Hunt, a resident of North B Street. Mr Hunt found the bug in his back yard. It is about the size of a quarter of a dol lar, and its pecultarity is that, while it is shaped much like a turtle, it walks on After walking this way about a minute it flops over and walks on the other three legs. Sometimes it walks on its two fore legs, like a man in a circus two fore legs, like a man in a circus walking on his hands.
