Kendall's Spavin Cure.

The most successful Remedy ever discovered, as it is certain in its effects and does not blister. Read proof below.

FROM REV. P. N. GRANGER,

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with 'Kendall's Spavin Cure' has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it cured a horse of lameness by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 16th, 1880.

B. J. Kendall & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with 'Kendall's Spavin Cure,' one very large one, don't know how longe the spavin had been there, I have owned the horse eight months. It took me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me its sale will be very great. Respectfully yours,

CHAS. E PARKER.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success in our knowledge, for beast as well as man.

Price $1. per bottle, or six bottles for $5. All Druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. B. J. KENDALL & CO.

M. L. THOMAS, - - - EDITOR.

THURSDAY, SEPT. 30, 1880.

OUR colums are so crowded with advertising patronage that we are compelled to appropriate the space formerly occupied by the ticket, to reading matter, for a few weeks. The ticket will appear again, however, before election,

IT has been decided by the commission appointed to look into the matter, that "the people have an undoubted right to settle in the Indian Territory," and recomended that those lands be thrown open for settlement. It has long since been decided and tacitly understood that the Indians have no rights, that a white man is bound to respect. Of all the numberless treaties, contracts &c. that the United States Government has from time to time made with the Indians since the Mayflower landed the Filgrim Fathers on Plymouth Rock, not one remains unbroken by the whites. We are no lover of the Indians, but when we see the great moguls of the nation fondly hug the "nigger" to their breasts and call him brother, and extend to him all the rights of citizenship, and at the same time relentlessly driving the Indians who are infinitely superior to the negros in point of intellect and other attributes of manhood, from one reservation to another—violating every treaty and promise as soon as it is made, and even going so far as to decide in the courts that an Indian is not a "person", and consequently not entitled to recognition as a human being, we feel that there is something radically wrong. Let the government try the experiment of acknowledging that the Indian is a "person" make him amenable to all the laws of the land—give him all the rights that has been extended to the negro, and then give him to understand that the government will keep its pledges with him and that he will have to obey the laws of the land or suffer the consequences, and the vexed Indian question is forever settled. But, says one, the Indian agencies, the post-tradeships and the thousand and one lucrative positions connected with the Indian Bureau would be abolished; and the powerful lever of appointments to these fat positions which congressmen know so well how to use to boost themselves and their friends into office, would be no more! "Aye there's the rub."

FROM INAVALE.

INAVALE, NEBRASKA, Sept. 24th, 1880.

Perhaps your readers would like to hear something about the soldiers reunion which was held at Central City last week, and Hat and myself and the girls attended. When we arrived on Tuesday, about two thirds of the 300 tents provided by the government had been put up and were occupied, we succeeded in procuring a tent but could not pitch it till nearly dark because the wind blew so fiercly, but when we did get it up we made ourselves comfortable in it, and as the weather was fine all the time we enjoyed our camp life. The camp fire on Tuesday night was held in the pavillion erected for that purpose, capable of holding two or three thousand people. It was nearly full that night. We were entertained first by the Lincoln brass band which discoursed enchanting music to us, then by short speeches and stories interspersed with singing patriatic songs. We enjoyed it till a late hour, but were glad to get to our beds of hay and comforters in the tent. Wednesday morning we were wakened very early by all sorts of noises, promment in which was the drum. Beautiful weather, and the fun commenced in earnest that day. People kept comming, the tents were all put up and inhabited, from 8 to 15 in each. The contest of the brass bands came off that day. Three bands competed for the prize, one from Omaha, one from Lincoln, and one from Grand Island. The Omaha band was victorious, and the people were dissatisfied, they liked the music of the Lincoln boys the best. The pavillion was so crowded on Wednesday night that they could have no camp fire in the center with the soldiers sitting around it as they did on Tuesday night, but they entertained us again with songs, short speeches and stories of the war. Thursday was just as beautiful a day and the people still kept coming, the foremoon was taken up by the veterans parading. It is a peculiarity of this state that there are soldiers from so many different states, some sent a great number and others only a few, I saw only one Nebraska veteran and that was General Thayer. In the afternoon, the new military companies drilled. Friday forenoon those who had been prisoners in rebeldom met at the pavillion and related their several experiences, it was very affecting. A greater part of the people were shedding tears, especially the old soldiers. The sham fight in the afternoon, fac smile of the real thing. I cannot possibly tell you of all the delightful things that we saw and heard, but we enjoyed it all exceedingly and intend to go to the next years reunion, and I advise all who are interested in it to do the same and see and hear for themselves. BETSEY.

A portion of the false work used in the construction of the new bridge at Plattsmouth was blown up on the 7th. When the explosion occurred the water was thrown into the air 75 or 100 feet, and with it a large number of fish of all sizes and species. Several boats, engaged at that point, made quite a haul in the fish.

Items From Batin Precinct.

BATIN, SEPT. 27th, 1880.

Farmers are doing their thrashing in this vicinity. Average yield of wheat from 1 to 3 bushels per acre.

Mrs. Granger has been very sick with fever,—is slowly recovering.

George Martin rejoices because it is a boy, Ezra Conrad because it is a girl.

Tommy Chambers thinks it much nicer being a benedict than a bachelor, he says the children call him pa already.

We hear that I. Erwin, of Batin, is nominated for assessor. Hope he will be successful at the coming election, as he is well qualified for the office.

Rev. Mr. Dixon preached his farewell sermon a week ago last Sabbath, at the Batin school house. He delivered us a very feeling sermon from these words, "Jesus Wept."

As Mr. Granger was returning from Blue Hill with the mail last Monday, he stoped to arrange the harness, the horses became frightened, and ran away, they run some 3 miles and was stoped at Cloverton. Mr. Granger hurt his hand quite badly in trying to stop them, otherwise no damage done.

If this is not consigned to the waste basket, I will call again. RUTH.

News Items from all over the State.

Work on the new wing of the Capitol is progressing rapidly, yet the stone work is delayed by the scarcity of stone cutters.

Work on the Nebraska City distillery is progressing finely, and the proprietors hope to be able to start up by October 15th.

The track of the R. V. R. R. is now laid nearly to Hubbell. Track laying is being pushed forward at the rate of a mile a day.

A Fremont man has invented an ingenious machine for burning a fire guard, and the prairie can be burned by its use in all weather.

Two men on Oak creek, Howard county, came near losing their lives, a few days since, from the gas in a well which they were digging.

The Merrick county agricultural board have erected their floral hall, and also built a race track of a half mile in length, at Central City.

G. W. Small, 18 years old, son of a prominent stock farmer on Yankee Hill, near Lincoln, was dangerously gored by a bull while going out to milk.

A large acreage of cane was planted in Thayer county, and the crop is a good one. A Hebron man will manufacture a large quantity of syrup and sugar.

It is said that if the frost holds off three weeks longer there will be several fields of wheat in Franklin county to harvest that will go from 15 to 20 bushels per acre.

A new feature of discipline at the penitentiary is to cause each new arrival to be photographed both before and after donning prison garb. The photographs will all be preserved.

A proposition is now before the North Platte city council for the encouragement of tree planting by permitting lot owners to fence in such trees as thay may set out.

Juniata is very prosperous this season. Thus far this year twenty new dwelling houses have been erected, and as many more will be completed before January.

The Bookwalter ranche, in Mission precinct, Pawnee county, promises soon to be the largest sheep randhe in the state. An addition of nearly 3000 sheep are now on the way from the east.

The grass crop this fall in the Republican valley will be fully as big as ever before. The recent rains have given it another start, and it is coming along nicely. The late corn is also doing well.

After two locations a third has been hit upon for the large flouring mill that is to be erected in St. Paul. Fortunately the last site selected is nearer to town than either of the others.

U. S. engineers have been at Brownville for some time investigating the banks and bars of the Missouri river so as to best apply the $10,000 appropriated for the improvement of the river at that place.

The bridge over the Elkhorn fell the other day with fourteen head of cattle. Strange to say none of the cattle were injured. The citizens demand an iron truss bridge, as now they are obliged to pay $300 or $400 every six months for repairs on the present style of bridge.

Twenty new buildings are in process of erection at the little town of Lyons, and the place is having a genuine boom. The old settlers gathered around the railway engine with as much curiosity as though it were a whole circus.

Hay, instead of coal, will be used at the Fremont mills in running the machinery. This will utilize the large quantities damaged by the rains in the vicinity, which would otherwise be a total loss, $1.50 per ton being paid for its delivery. Two tons per day is the amount estimated that will be used.

Arapahoe's new flouring mill has just started up. It is the most complete one in the southwestern part of the state. The building is a handsome three-story brick, fitted up with the most improved machinery and five run of stones.

This herd numbers 30 head of the Young Marys, Easterdays, Moss, Roses, Geoynues &c. Dr. H. M. Carver and L. Miller will join in the sale with 42 head of very fine cattle. Catalogues will be sent on application to either the above parties or to

W. M. WRIGHT, Administrator.

NOTICE.

Having become tired of doing the work of two or three men, and believing that our business has suffered more or less because we could not attend properly to all the different branches of the same; and believing further that close collections are essential to success in any business, we have concluded to take into our employ a man whose duty will be to attend to the collection of outstanding accounts due the office. Many of these accounts have been running for years and it is time they were settled. Mr. Wm. Reilly will, until further notice, collect for us, and we hope that you all, who can do so, will respond to his call, as we intend, if such a thing be possible, to square up our books by the 1st of January next.
