All local advertisements ordered in for
 an indefinite time, will be regularly charged
 up each week until ordered out.

The county dads were in session last
 Saturday.

WANTED—To trade for a good pony.
 Call at the Chief's office.

The Republican river is said to be on
 a boom, it is nearly bank full.

Hon. A. S. Paddock has our thanks for
 valuable public documents.

N. Haney, of Elm Creek lost a val-
 uable cow last week, by founder.

Ducks are said to be as plenty on the
 river, now, as dogs on our streets.

Mr. D. S. Coombs is building a resi-
 dence in the northwest part of town.

House your farm machinery and
 keep it from rotting in the rain, sun
 and dew.

We would like a load of dry wood
 "immediately if not sooner," on sub-
 scription.

We will receive wood and country
 produce of all kinds on subscription to
 the CHIEF.

Mr. Coombs' new house will be for-
 rent—or is the Prof. going to commit
 matrimony.

It is said that Jake Miller has found
 out the difference between a watermelon
 and a pie melon.

While the ground is wet is a good time
 to plow and prepare your fire
 guards. Do not neglect it.

Call at the Chief's office and examine
 samples of job printing and get prices
 before you place your orders.

We understand that Mr. R. B. Fulton
 will soon commence the erection of a
 residence in the northwest part of
 town.

Those of our friends who have come
 in and assisted us financially on sub-
 scription have our kindest regards for
 the christian art.

Mr. Geo. Knight, a prosperous young
 attorney from Hebron, illuminated our
 sanctum with his general snite on
 Wednesday last week.

The W. C. T. U. of Red Cloud, will
 meet at Mrs. West's, Friday afternoon
 at four o'clock. A general attendance
 is most earnestly requested.

Mr. Hugh C. Minnix, of Wells P. O.,
 who has been trying to get along with-
 out the Chief for the last few months,
 called last Friday and subscribed again.

The supervisor of the road district is
 doing a good turn for the town by
 causing the filling up of the low places
 in the street in the vicinity of the ille-
 rity pole.

Mr. C. C. Coon brought to our office
 last Thursday a stalk of yellow dent
 corn that measured twelve feet in
 length, lacking one inch. Pretty good
 for a droughty year.

We are glad to note that the city
 council have arisen from their lethar-
 gic and are having street crossings
 and sidewalks put down where they
 have long been very much needed.

W. H. Strohm delivered a lengthy
 discourse to a good audience at the
 court house last Thursday evening, fol-
 lowed by H. S. Kaley, who made some
 good hits, and created considerable
 merriment.

The "unfettered" held a meeting at
 their rooms over Sherwoods store last
 Saturday, and resolved to hold their
 convention for the purpose of placing
 in nomination candidates for the vari-
 ous county offices, three weeks from
 that date.

We took a "spin" around the race
 track with Mr. Shmonds the other day,
 behind his fast bay. We understand
 that it is the intention of the sporting
 community to raise a purse
 to be given to the owner of the horse
 making the best time, the contest to
 come off some time in the near future.

W. H. Strohm, in his speech last
 Thursday night said that the demo-
 cratic party was entitled to much credit
 for its patriotism during the late un-
 pleasantness, inasmuch as it furnished
 all the soldiers on the contraband side
 and a share of the soldiers in the federal
 army.

We have been shown by Mr. C. C.
 Coon, a sample of Egyptian rice corn,
 of his raising that is exceedingly well
 developed, for a dry season. Mr. Coon
 says that this corn will yield sixty
 bushels to the acre, and that dry
 weather does not retard its growth to
 any great extent.

As will be seen by the proceedings of
 the county commissioners which we
 publish elsewhere, Mr. R. B. Fulton
 has secured the contract for building
 the court house vault. Mr. Fulton has
 already done a good deal of work for
 the county, and so far as we have been
 able to learn, has done it well, and we
 feel safe in saying that the worth of his
 money in this case, and not only that,
 but the money will be paid to one of
 our own citizens and will not be car-
 ried out of the county.

H. S. Kaley made a good point in his
 speech last Thursday night when he
 said that the body of the democratic
 party lies in the south and the tail in
 the north, and asked his hearers which
 in the event of Gen. Hancock's election
 to the presidency, was it the most re-
 sponsible to expect, that the tail (the
 democratic party of the north) would
 wag the dog (the democratic party of
 the south) or that the dog would wag
 the tail. To all who are familiar with
 the wagging business, it is plain that
 under ordinary circumstances the dog
 may safely be counted on to wag the
 tail.

Pattens at Miss Hale's.
 New and elegant style hats, at Mrs.
 Lutz's.

Live hogs are worth from \$3.85 to
 \$4.00.
 Miner Bros. have just received a car-
 load of new sail.

Mrs. Lutz is selling millinery goods at
 very lowest prices.
 Mrs. Gore has returned from the east,
 after a somewhat protracted visit.

Sheriff Warren returned from a visit
 to friends in Iowa last Tuesday evening.
 Miss Lyde Hale has returned to Red
 Cloud and is again prepared to do
 dressmaking. 7-3*

Ladies will find it to their interest to
 go to Miner Bros. for cloaks and all
 wool shawls.

The "Big Medicine Man" of Red
 Cloud, R. R. Sherer, keeps the best
 cigars in town.

The Rev. Geo. O. Yeiser preaches at
 Guide Rock next sabbath, at 11 a. m.
 Church and covenant meeting, Satur-
 day at 2 o'clock p. m.

Josh Billings has at last found one
 thing that money can't buy, and that
 is the wag of a dog's tail. He says "it
 is an honest expression of opinion on the
 part of the dog."

Miner Bros. have just received from
 the east the largest stock of water-
 proof, canvas, &c., ever
 brought to Red Cloud. Call on them
 when you want anything in that line.

Garfield and Arthur Meeting.
 There will be a meeting of the
 Garfield and Arthur Club at Fearn's
 Hall this (Thursday) night at 7 o'clock.
 All members are urgently requested
 to be present.

RED CLOUD, NEB. SEPT. 27, 1880.
 WHEREAS, my wife Hulda J. Norris
 has died, and I being her sole and just
 cause of procreation, notice is hereby
 given to all persons that I will not pay
 any debts of her contracting whatever.
 WILLIAM J. NORRIS.

**NOTICE—The Republican Valley
 Baptist Association will hold its next
 annual meeting with the Baptist
 church at Guide Rock, Webster county,
 Nebraska, on Oct. 23 and 24, '80,
 instead of Napoleon, as was last year
 agreed upon.
 J. F. ZEDIKER,
 C. W. of the Ass'n. Moderator.**

There are now confined in the Ne-
 braska penitentiary 261 convicts, of
 whom are from this state, and the
 remainder from Wyoming, New Mexico
 and a few from United States prisons.
 Mr. Stout, the contractor, has a large
 number of these men at work making
 brick. An extensive tailoring estab-
 lishment and harness shop are carried
 on there. There are only four women
 convicts in the building.

Inquisitive people have been asking
 us what we would do if a few other
 merchants would follow the example
 of Besley & Perkins, and appropriate
 a half page of the Chief for a standing
 advertisement. Just let 'em try it once
 and see what we will do. The "patent"
 inside would be discarded, more
 help would be employed, a power
 press would be brought into requisition
 and a steam engine would drive the
 machinery of the CHIEF before the
 roses bloom again. A newspaper grows
 according to the patronage it receives,
 and we will not be slow to increase the
 size of our paper and put in the neces-
 sary machinery when the patronage
 will warrant it.

Our yearly meeting was a season of
 great interest. The attendance was
 the largest ever convened in Amboy. Eld.
 R. C. Barrow held his hearers almost
 spellbound for over two hours, on the
 subject of Christian Union. Bro. Olds
 of Kearney, did his best to the interest
 of the meeting. Two noble souls re-
 sponded to the Masters call and were
 solemnly buried with their Lord in Chap-
 in. We propose to organize a church
 the first Lord's day in October at
 Amboy. All who are willing to stand
 with us on the Bible alone, as members
 only of the church of Christ, are cordi-
 ally invited.
 THEO. JOHNSON.

EDITOR CHIEF—I wish to call the at-
 tention of the business men of Red
 Cloud, to the condition of our public
 road west of town, and the necessity
 of something being done to change the
 same or locating a new road to it.
 From the "Narrow" west of Row,
 along the bank of the river south, to
 intersect the section line between sec-
 tion 6 and 7, town 1, range 11, then
 east along said line to Red Cloud. The
 importance of said change of road to
 the business men of Red Cloud is such
 that I should think they would take
 hold of the matter and see that a bet-
 ter road is made than the one we now
 have to travel to get to Red Cloud
 from the west. Yours truly,
 THOS. VAUGHN.

The work that is being done on the
 streets by the road district is better
 than no work at all, but it is not what
 is needed by any means. Webster
 street, running north and south, has
 been washed out and bowed out by the
 Nebraska zephyrs until it has become
 little better than a trench. In order
 to preserve the street in proper shape
 it would be necessary to dig a ditch on
 each side of the street the entire length,
 and by filling up the street along the
 water to drain off through these ditches
 instead of rushing down through cen-
 ter of the street, and to prevent the
 wind from guttering out the street
 again, a layer of six inches of gravel
 would prove very efficacious. We
 hope that the city council or those in
 charge of the matter will put in their
 work in the way that it will do the
 most good.

A Boom For Red Cloud.
 We are informed by tolerably good
 authority that the R. & M. Co. will, the
 1st of next month make some very im-
 portant changes in the running time
 of the trains on the R. V. division of their
 road. It is intended that the passenger
 trains from the east will stop at the
 Red Cloud depot and remain until the
 following morning, when they will re-
 turn east, and at the same time a pas-
 senger train will leave for the west, and
 also one will leave in the morning for
 the east via Superior, one or two
 freight trains will also leave this point
 every morning. This arrangement
 will necessitate the building of a round
 house at once for the protection of the
 engines that will necessarily lie over
 here every night, and it is understood
 that machine shops will also be erected
 in the near future, which, all together,
 will make Red Cloud one of the most
 important points on the road.
 In connection with the above we
 will say that it is now pretty generally
 understood among those who are
 posted that it is the intention of the
 Central Branch to push the construc-
 tion of their road from Burr Oak, Kan.
 to this point without delay, which will
 give the people of Webster county the
 benefits of competition in freights and
 add materially to the importance of Red
 Cloud as a commercial center.

THE APARY.

THREE KINDS OF BEES IN EACH FAMILY.
 A very remarkable feature in the
 economy of the honey bee, is the
 presence of three distinct kinds of bees
 in each colony when needed. The
 Queen, Drone and the Neuter, or Work-
 er, which differ much in size, form
 and functions.

The Worker is called a Neuter, but
 in fact, has been proven by observation
 and analysis to be an undeveloped
 female. It is the smallest bee in the
 colony and becomes very numerous.
 Their office is to construct, the comb
 which is done with great precision, and
 always built hexagonal, or "six sided",
 the shape that will utilize all of the
 room with the best profits. They also
 gather the honey and pollen, which is
 deposited for bee bread, upon which
 the young bees feed.

They remain in the hive until about
 twelve or fourteen days old before they
 go out to face the winds and mishaps
 of nature, while young they feed the
 larvae and attend to the general indoor
 work forming comb &c.

When in the act of comb producing
 the bee cuts a great deal but does no
 manual labor, the comb grows in scales
 on the under surface of the abdomen,
 nicely arranged in two rows, four scales
 in each row.

The workers are very zealous of
 home, and seem to care and care for an
 affection worthy of intellectual beings.
 They are easily excited, and with
 drawn swords will rally forth to protect
 their own, their sting is very poison-
 ous which they generally loose when
 it is used, which loss causes the bee
 soon to die. The average life of the
 Worker is about fifty days, thus mak-
 ing the demand for rapid increase also-
 lute.

The Drone is the male bee and is
 found at certain times in large num-
 bers but when the demand for them
 ceases or the scarcity of pasturage is
 obvious they are soon driven from the
 hive by the workers, to die. Their
 office is to impregnate the Queen, eat,
 and die.

The Queen is a fully developed
 female bee, she is much longer and has
 shorter wings than the Workers. She
 deposits all the eggs in the hive. Her
 capacity for the deposition of eggs is
 wonderful.

Messrs. Langstroth & Berlepech each
 claim to have seen a Queen lay at the
 rate of six eggs per minute.

Berlepech says that a Queen which
 laid 3,021 eggs by actual count in 24
 hours, and continued prolific for five
 years. The Queen is capable of de-
 positng 2,000 eggs per day on an aver-
 age, thus rapidly repopulating the
 Queen to see that the bees have
 stored nothing therein, when she finds
 all clear she carefully inserts her long
 abdomen into the cell, and in a few
 seconds the egg is placed in the oblique
 position in the bottom of the cell.

THEO. JOHNSON.

Miner Bros. have cornered the dry
 goods market, "and don't you forget
 it."

Final Proof Notices.

LEGAL NOTICE.
 Robert R. Sherer, Plaintiff,
 William Hilton, Defendant.
 The above named
 William Hilton will take notice that on the
 10th day of September, 1880, Abram Kaley, a
 Justice of the Peace of Red Cloud, in and for
 Webster county Nebraska, issued an order of attach-
 ment for the sum of \$125.00, in favor of Robert
 R. Sherer, against William Hilton, which order
 before him wherein Robert R. Sherer is plain-
 tiff and William Hilton is defendant, that prop-
 erty consisting of two one acre lots, being lots
 attached under said order. Said case
 was extended to the 10th day of October, A. D.
 1880, at 10 o'clock a. m.
 By O. C. Cass, h. Atty.
 714
 Red Cloud, Neb., Sept. 22d 1880.
