Kendall's Spavin Cure.

The most successful Remedy ever discovered, as it is certain in its effects and does not blister. Read proof below.

FROM REV. P. N. GRANGER,

Presiding Elder of the St. Albans District.

St. Albans, Vt., Jan 20th, 1880.

DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with 'Lendall's Spavin Cure' has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming, I procured a bottle of Kendall's Spavin Cure and with less then a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

PERSEVERANCE WILL TELL.

Stoughton, Mass., March 16th, 1880.

B. J. Kendall & Co., Gents:—In justice to you and myself, I think I ought to let you know that I have removed two bone spavins with 'Kendall's Spavin Cuce,' one very large one, don't dnow how longe the spavin had been there. I have owned the horse eight months. It tood me four months to take the large one off and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicide. It is a new thing here, but if it does for all what it has done for me its sale will be very great. Respectfully yours,

CHAS. E. PARKER.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1, per bottle, or six bottles for $5 All Druggists hale it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. B. J. KENDALL & CO.

THE CHIEF.

M. L. THOMAS, - - - EDITOR.

THURSDAY, OCT. 7, 1880.

WE acknowlodge receipt of a little book entitled, "The life and public service of James A. Garfield," by Bundy, a work that should be read by all young americans.

THE Democratic State Convention at Hastings last week placed in nomination the following gentlemen: For Congressman, Gen. Levingston of Cass county; Governor, T. W. Tipton; Lieut. Gov. M. Calhoun, of Otoe; Sec. of State, Dr. Livingston, of Otoe; Auditor, T. C. Patterson; Treas. F. Folda; Att'y Gen. G. E. Pritchet; Land Com. E. H. Andrus; School Supt. A. Bear; Electors: Gen. Viffquin, of Lancaster, M. Boyd, of Douglas, B. J. Hinman, of Lincoln.

THE Judicial convention which convened at Hastings last Friday, placed in nomination Mr. Ash, of that city, for the important office of District Attorney. Our acquaintance with Mr. Ash is somewhat limited, but from what we know of the gentleman we feel justified in saying that the choice of the convention was a good one, and the nomination worthily bestowed. Mr. Ash will discharge the duties of the office with ability and with credit to himself and the District.

EDITOR CHIEF:—It is with feelings of the most profound gratitude, and with a conviction that the interests of the state of Webster county, are under the care and guidance of a power and wisdom for superior to the average mortal, that I for the second time address you. Has it ever accured to you what an irreparable misfortune it would be to Webster county, should she loose the valuable services of the Hon. H. S. Kaley. Why sir, did he not, by his own admission, draw the bridge contract for the commissioners, and neglect to draw the indemnity bond. When, as he himself says, there were grave doubts of the integrity of the commissioners. Did he not as an attorney, who had his suspisions fully aroused, and as a man whose occupation and profession should teach him the full force and necessity of a security bond in dealing with all foreign companies or corporations. Did he not as a good citizen also, with the knowledge he claims to have had of evident intend to defraud, fail in his duty when he neglected to insist on the commissioners getting ample security, or in their failure to do the same, did he not still fail in his duty when he neglected to enjoin the contract and call on the courts to protect the county. Why sir, the Hon. Gentleman did not fail in his duty when called upon in a somewhat similar case but lacking all the elements of fraud in first case mentioned. Did he not in the interests of some few dissatisfied ones over the location of the Inavale bridge, and who made no claim of fraud but simply on the ground of location, draw petition for said parties, and in drawing the same did he not completely deceive our most learned Judge Gaslin, by drawing the petition in this wise. "The said location for bridge is removed a long ways up the river, to-wit: 100 rods, and located off from a section line," thereby very naturely leading the Judge to suppose that the location had been changed from a section line, which was not true, and in his zeal for the above mentioned injured individuals did he not carry the papers to Judge Gaslin and with his usual ability and in explaining the circumstances show the Judge that the case was of such trifling import that the bond was fixed at $1,000, to enjoin proceedings in an $8,000 contract. Did he not in 1874 after the commissioners had completed their contract with Mr. Clark for the present bridge over the Republican river draw an additional contract or agreement which gave to Clark or his agent power to use any part or all of the old bridge. Resulting in a total loss to the county of all material in the first bridge, as what was not used in our new bridge was taken to Franklin and Republic counties, where Clark the contractor was building bridges at the time, so that out of our superabundance of material we helped Republic and Franklin counties construct their bridges gratis, a thing all very proper considering their poverty and our wealth. Though some are foolish enough to think that charity in this case should have comenced at home. Of course the commissioners were to blame and intended to defraud the county. No matter if they did reserve some $800 from Clark's contract price. Did they not have to refund the same or stand an expensive suit with every probability of being beaten. Of course it was not the fault of Mr. Kaley's papers, but a clear case of the commissioners bulldozing the county out of the bridge, for the sake of giving it to strangers.

Did he not when employed by Webster county in our tax suit with the B. & M. R.R., return from trying the case, as agent for the company which he had been sent to fight, and for which purpose Webster county was spending her money and paying him fees.

Judging of the future by the past what is impossible to us, with the home talent which we now possess, can we not draw our injunction and replevin bonds giving but one eighth security of the amount enjoined and as to contracts we can beat the world, or Webster county. What can we ask for more, let us not be unreasonable in our demands or ungrateful for past favors. Let us when we walk up and pay our 18 mill tax, not forget the noble patriot whose unselfish labors helped us on our way to bankruptcy. CITIZEN. *

A large force of men are at work filling in the trestle work on the east side of the Plattsmouth bridge, from the cut on the west bank of the river. A steam plow is used which unloads the car with marvelous rapidity. Steam shovels are employed on the Plattsmouth side.

THE APIARY.

In the study and practice of apiculture, there is nothing, perhaps, more wonderful and surprising than those things pertaining to the Queen work and Queen rasing.

Only one Queen is allowed to remain in the colony long, and by her the colonies existence is perpetuated, for "no Queen," is the sure omen of death. The Queen lays the egg for all the bees in the colony. After she has met and coupled with the Drone she has the power to lay impregnated eggs which develope into Workers, and also unimpregnated eggs which develope into Drones. If she fails to meet the Drone, she will lay, but her products will be only Drone, and is called a Virgin Queen. A fertile Queen seldom deposits Drone eggs except when there is approach demands for swarming.

TRANSFORMATIONS.

Wonderful transformations now take place in the egg, the same as in the hens egg, and in two or four days a tiny magot is to be seen in the bottom of the cell called Larvæ, the word means masked.

The time that insects remain as Larvæ is varied, some only two days. The apple tree borer works away for three years upon the tree while the cicada remains a Larva for sixteen years, feeding upon roots, only to come forth to a few days of Sunshine to die.

The Larvæ bee remains eating its rich pabulum for six or seven days when the Larvæ is grown so as to fill the cell about half full the bees coff it over. Then as its last toil the Larvæ spins a fine silk like cocoon around itself and then assumes its restfue state, the Pupa. In this state the Pupa bee remains from eight to twelve days while the transformations are taking place which gives it its form as a bee, called Imago, which means the image is complete.

In 21 days from the time the ting egg is placed in the cell, the bees uncap the cells and a perfectly formed Imago bee comes forth. It then remains in the hive for about two weeks before it ventures out to try the perils of the wide world and gather food for their dear ones at home. The average life of the bee is claimed to be about 40 or 45 days. I introduced a pure Italian Queen into a hive of black bees about the first of August and the 20th day of September there were but few of the blacks to be found, but the hive abounded with beautiful Itallians. The time they live depends much on the activily of the bees egg, in the heat of the season they live from 20 to 30 days, while those that go into winter quarters hive from October until April, and generally die on or soon after their first flight in the spring.

The Queen is most active in the deposition of eggs, when the bees are most active in their work. She continues to deposit a few eggs each month during the winter so there may be young bees ready for spring labor. The Drone hatches out in 24 days. The Worker in 21 days. While the Queen fell upon the royal pabulum comes forth in her beauty in about 16 days when the proper temperature is present in the hive. THEO. JOHNSON.

News Items from all over the State.

The U. P. has built a stock yard at Valparaiso.

Adams county has a watermelon weighing 129 pounds.

A flock of 3500 sheep is on the way from Colorado to Kearney.

Niobrara has ordered a survey so that the streets may be graded.

Naponee mills receive large lots of grain from Phelps county, Kansas.

A pork-packing establishment in Fremont is among the probabilities of the near future.

The railway line will be completed to Clinton, in Pierce county, by October 1st.

A Hasting's firm is arranging to build a brick block, 44 by 80 feet, and two stories high.

A large force of B. & M. engineers are now at work running preliminary lines west of Nemaha City.

The Platt river bridge at Schuyler has been declared unsafe by the commissioners, and will be closed.

Feed cattle are in greater demand this fall than ever beforn known in the history of Otoe county.

The bishop refuses to permit the Catholic church in Lincoln to be consecrated until it is entirely finished and paid for.

Kearney's new Presbyterian church is to be of brick, to cost $8,500, and will be finished this fall. The contract is let.

Over 100 men are now at work preparing for the U. P. shops at Grand Island, and more are constantly employed.

St. Paul's new elevator is completed. It has a capacity of 1800 bushels, and is receiving as fast as grain comes in.

One of the best improved and most valuable farms in Lancaster county, is about to be sold to a New York party for $12,000.

The transfer boats have left Plattsmouth. The "President" for Sioux City for work there and the "Vice-President" to St. Louis for repairs.

It is stated that the corn crop of Richardson county never looked better than it does to-day, and the farmers have plenty of cattle and hogs to eat it up.

A large force of men are at work near Arapahoe, repairing and rebuilding the B. & M. track and bridges that have been washed out by recent heavy rains.

The bottom lands north of Brownville are said to be overflowed and the standing water forms a stagnant pool that must produce a large amount of sickness.

Fremont citizens are circulating a subscription paper to raise a fund to indemnify the owner of the opera house from losses, provided he will keep it open for two years to come.

A two thousand acre tract of land three miles south of Vinton, Valey Co, belonging to a man named Clark, of Lincoln, is being improved for a farm and cattle ranch.

Grand Island is jubilant over the prospective increas of population that will follow the opening of the U. P. machine shops, now in process of construction. These shops will give steady employment to about 500 mechanics and laborers.
