do us any good, few of us go that

For coughs and colds take Dr. Mar-
shall's Lung Syrup. It has cured
thousands. Recommend it to your
friend and neighbor. Price only 25
and 50 cents.

Turn out and witness "Among the
Breakers," at the court house this
(Thursday) evening. It will be a treat
well worth the price of admission.

Last Saturday was a dull day for our
merchants compared with previous
Saturdays. It is needless to say that
there was no trade from the south side
of the river.

Snow is reported to be from three to
six feet deep on the level in Wisconsin.
Numerous farm houses and railroad
trains are said to be entirely covered
up in the drifts.

"A friend in need, is a friend
indeed." Such a friend is Dr. Mar-
shall's Lung Syrup for coughs and
colds, etc. It only costs 25 and 50
cents a bottle, and may save many a
doctor bill. Sold by all druggists.

As a business manager of a theatrical
troupe Mr. G. W. Houghton would
command a princely salary. His ability
and peculiar fitness for such a position
would insure success.

If you want to sell your farm adver-
tise in the CHIEF, and if you want to
buy a farm or town property, call on
or address the CHIEF office, we know
of those who want to sell.

We understand that some of the enter-
prising farmers on the south side of
the river have rescued a portion of the
bridge from the surging waters of the
turbulent Republican and are utilizing it
in the construction of cow sheds.

Nebraska grown fruit trees are the
safest to buy, as they are more sure to
live and thrive than those shipped in
from other states. A. Kaley is the
local agent for the Crete nurseries, and
can be found at Miller & Ball's
office, Red Cloud.

According to the new postal regula-
tions all bills, statements and other
printed matter containing any writing
whatever, will be charged three cents
per half ounce instead of one cent as
formerly, and each sealed drop letter
will have to be paid with a two cent
stamp.

The River-dale diary from which
Red Cloud received its supply of milk
is unfortunately located south of the
river, and the washing out of the bridge
cut off the supply of the lacteal fluid,
which caused much grumbling until
Mr. Montgomery took pity on the
people and generously supplied their
wants.

A postcard was received at this
office last week from Eld. Theo. John-
son, which conveys the information
that he is at Greenwood, Neb., holding
a meeting. He says that he is glad to
be able to say that the faction in the
Lost Creek congregation has been ad-
justed, and that he takes pleasure in
recommending Eld. Jas. Young to the
confidence of his brethren and all
the citizens with whom he may be
called to associate.

The Inavale bridge has not gone out
but for all the good it is to the people
of the county, if we are to believe
what is said by persons living near it,
it might as well be in the Gulf of Mex-
ico. When the river rises they cannot
get near the bridge for the water and
when the river is low the ford answers
every purpose. When a tax-ridden
people vote \$7,000 to build a bridge on
a cow path where travel never goes,
they must be a "bit off."

Remember Perkins & Mitchell's
Superlative Flour.

The mail from Salem, Kan., comes
by way of Riverton now.

Perkins & Mitchell sell a Superlative
Flour made in Fairmont.
Don't forget "Among the Breakers,"
Thursday night at the court house.

It is about time the land office at
Bloomington would open for busi-
ness.

Some people look for the river to be
higher than ever when the final thaw
out comes.

Squire Hawley says that he can't
stand it any longer, and sent for his
wife last week.

Every body who has used it is brag-
ing on that Fairmont Flour sold by
Perkins & Mitchell, only.

We understand that an effort is be-
ing made to induce Rev. J. M. Pryse
to return to Red Cloud.

The Rev. Geo. O. Yeiser, will preach
next Sabbath morning and evening in
the Congregational Church.

The farmers in the vicinity of Cowles
will receive a car load of seed
wheat at that place, we are told.

Remember that Perkins & Mitchell
have a general assortment of new
garden and field seeds, both in bulk
and package. Call and see.

The net receipts of the B. & M. Com-
pany will not pay running expenses
this winter. They have had a fearful
time with the snow and water.

A great many miles of the B. & M.
track on the Republican river bottom
was under water last week, which
played the deuce with the running of
trains.

Perkins & Mitchell are just receiv-
ing a large assortment of genuine good
Boots and Shoes particularly for sum-
mer wear, which will warrant and
sell at very low figures.

Some of the farmers tell us that
corn husking and seeding time will
come at once with them this spring (if
we have any spring), the corn having
been snowed under in the fields all
winter.

The "soulless corporation" that
stretches its iron arms across this state
has had a serious time the present
winter with the drifts and the high
water, but are confident that the worst
is over.

ing—Charm—Fine-cut and Durham,

Mr. D. G. Walker, a practical boat
builder, secured the contract for build-
ing the ferry-boat. It will be operated on
the mill dam, where low water will
not interfere with crossing at any sea-
son of the year.

The most beautiful snow fall of the
winter occurred last Sunday evening
and Monday morning, there was no
wind and it remained where it fell,
covering everything with a nice even
sheet of pure white.

That great and (perhaps) good man,
Henry Ward Beecher says that "the
man who complains the most against
the newspaper wants the most to have
his name mentioned in it, and would
consent to be bombarded for a week
to gain that end.

All who are owing us are respect-
fully requested to come in and pay a
part or all of the amount; not that we
need money, we have no use for it,
but then our creditors would love
us more if our delinquents would
make it possible for us to pay up.

Commissioner Stevenson called at
this office last Tuesday in company
with Mr. Poppe of Crete, who has
come out for the purpose of erecting a
cheese factory at Inavale. Work will
be commenced with the opening of
spring. This will be quite a boom for
Inavale, and a good thing for the
county.

Mr. E. L. Grubb, of Guide Rock,
dropped into our office last Monday
to say that he had just returned from
the eastern part of the state, where he
and Mr. Allen have purchased two
or three car loads of seed wheat which
will arrive in a few days. It will be
distributed to farmers tributary to Guide
Rock.

Is it possible that the little towns of
Guide Rock and Cowles have more
"get up" than Red Cloud, the metrop-
olis of the valley. Each of those little
towns have secured, or about to secure
a car load or more of wheat for the
farmers, in their immediate vicinity.
Red Cloud has, however, done its
share of talking about the matter.

In view of the fact that the old rattle
trap bridge that has totteringly span-
ned the river at this point for a few
years has departed this life very sud-
denly though not unexpectedly, the
question naturally arises, what will
be done; when will we have another
bridge? The CHIEF has witnessed the
erection and the collapse of two
"phantom" bridges across the river at
this place, built upon poles stuck in
the sand, and it will, even with its last
breath, oppose the squandering of any
more of the people's money in like
projects to be swept away by the
floods that come along. If the coun-
ty cannot afford to build a good bridge,
one that will stand, it would be far
better to build none at all. The peo-
ple of this county, if we mistake not,
have no more money to throw
away.

The sweeping tide of prosperity is
shown by the immense increase of
business in the Patent Office, General
Land Office, Pension Office, and other
Departments of the Government.
Patent cases, Pension claims, Con-
tested Land entries, or other business
placed in the hands of Freebry &
Green, Attorneys, 529 7th st., Wash-
ington, D. C., will have immediate at-
tention.

Enclose stamp for information.

Every woman who has experience
in bread making knows some thing of
the difficulty in always getting the
best results during the winter season
when the "yeast gets chilled" and the
dough won't work just right: The best
thing you can do under such cir-
cumstances is to buy your bread of
Lauterbach who uses only Red Cloud
Patent flour. —C. E. Putnam sells it.

THE FLOOD.

The proverbial "oldest inhabitant"
never witnessed such a rise in the
Republican river as was experienced
last week. The ice gorges caused the
river to overflow its banks and the
damage to property along its course in
this state has been great. Every
bridge across the river from its head-
waters down to Riverton has been
washed away, and the Red Cloud,
Guide Rock and Superior bridges met
same fate.

It was reported that a great number
of cattle had been drowned on the
river bottoms above here, but we have
been unable to learn anything definite
in regard to the matter. No lives, we
believe, have been lost, though many
families living on the low bottoms
near the river was compelled to move
out, many families beating a hasty
retreat in the night to save themselves
from a watery grave, being forced to
leave all their effects to the mercy of
the flood.

Though many private individuals
lost considerable property by the flood
the greatest loss occasioned by the
high water is the bridges that spanned
the river. The loss to this county on
bridges alone will amount to thou-
sands of dollars.

Fears were entertained that Potter
& Frisbie's mill would wash away, but
fortunately it withstood the racket and
is now considered out of danger.

The lost to the business men of
Red Cloud by the washing away of the
bridge at this point is very great, as it
had the effect of cutting off the entire
south river trade. The business men
of this place however, have proved
themselves equal to the emergency,
and will have a ferry boat in operation
in a few days, or as soon as the con-
dition of the river will admit of crossing,
which will in a measure supply the
place of the bridge.

The loss of our bridges is a serious
calamity to this county, as, owing to
its present financial embarrassments,
they will probably not be replaced for
some time.

THE LIBRARY REVOLUTION.
Change of Base.

This very remarkable enterprise
continues to make such progress as to
astonish its friends and astound its
enemies. Its greatly increasing pro-
portions have compelled the removal
of its headquarters from the Tribune
Building to the very large and beau-
tiful building, No. 746 Broadway, which
is in the very midst of the "book dis-
trict" of New York City, and, therefore
of the publishing enterprise of the na-
tion. This building though six stories
in height 25 feet front and 100 feet
deep, is sufficient only for the offices
and retail store of the Company. The
manufacturing is carried on in several
large buildings located in other parts
of the city, though it is contemplated
concentrating them soon in one im-
mense factory to be erected.

Their list of recent and early forth-
coming publications are extremely
interesting to all who enjoy what is
choicest in literature. The Library
Magazine is in line in both form and
character and altogether delightful in
the richness of its contents. Of the
books announced, Green's larger
"History of the English People," re-
duced from \$10 to \$1; Carlyle's "His-
tory of the French Revolution," re-
duced to 40 cents; Carlyle's "Heroes
and Hero Worship," 25 cents, and the
"Revised New Testament," which is
manufactured with rapidity heretofore
unheard of, will attract special at-
tention. It is worth while for every
one who has not already seen it, to send
and get the illustrated pamphlet,
"Book making, and Type Setting by
Steam," which will be sent free upon
application. Address, the American
Book Exchange, 764 Broadway, New
York.

Be it enacted by the Legislature of the State
of Nebraska:

SECTION 1. All persons are prohibited
from treating or giving away any
liquor, beer, wine or intoxicating be-
verage whatever, purchased and to be
drank in any saloon, or other public
place where such liquors or beverages
are kept for sale.

Sec. 2. Any person treating or offer-
ing to treat any other person, or ac-
cepting, or offering to accept any treat
or gift of any intoxicating drink what-
ever in any saloon or public place
where such liquors are kept for sale,
shall be deemed guilty of a misde-
meanor, and shall upon conviction
thereof be subject to a fine of ten
dollars, or imprisonment in the com-
mon jail of the county for ten days,
or both, at the discretion of the court;
and in addition thereto shall pay into
said court the sum of fifteen dollars,
to be paid the attorney prosecuting the
case if there be one; and if no attorney
prosecutes, then to be paid in the
school fund of the county in addition
to the fine.

THE GARDNER.
WASHINGTON, March 5.—President
Garfield sent to the senate the fol-
lowing nominations: J. G. Blaine, of
Maine, to be secretary of state; Wm.
Windom, Minnesota, secretary of the
treasury; Wayne McVeagh, Pennsylva-
nia, attorney-general; Thomas L.
James, New York, postmaster general;
Samuel J. Kirkwood, Iowa, secretary
of the interior; Robert T. Lincoln,
Illinois, secretary of war; Wm. H.
Hunt, secretary of the navy. The
senate in executive session confirmed
all the cabinet nominations and ad-
journing until Monday.

SET 'EM UP.

Saloon keepers realize better than
any one else the paralyzing influence
that the abolishing of the American
custom of treating will have upon
their business.

Most men who go to a saloon to get
a drink would not wish for more than
one, and if they could do so without
violating the so-called courtesy of sa-
loons would take a drink, pay for it,
and go about their business. There
are, however, always a crowd of peo-
ple about saloons who are not "dead-
beats," but are sensible fellows, ac-
quaintances, and always ready to take
a drink. The man who goes up to the
bar very naturally asks the crowd to
drink. They accept and five or six
drinks are taken. After a few mo-
ments of conversation, another person
wishing to reciprocate the courtesy, tells
the bartender to "set 'em up again."

This continues until the treat has
gone around and instead of one drink
twenty-five or thirty have been taken.
All this is the result of the absurd idea
which is practiced nowhere else in the
world except in America, that it is
hoggish for a man to take a drink
without asking up the crowd.

To preserve this custom without
violating the law, saloon-keepers are
proposing to issue checks which they
will sell by the dozen or dollar's worth
and will expect each customer to carry
a supply in his pocket and peddle
them out to his friends who will then
each one separately, walk up to the
bar and take his whiskey, paying for it
with a check.

This style may serve to evade the
law to some extent, but it will prob-
ably be too humiliating to most people to
accept donations of fifteen cents in
money or its equivalent in the shape
of whiskey-check, and occasionally,
too, a man would over-step the mark
and find himself held up for \$25.

The enforcement of the law will de-
crease the receipts of many whiskey
counters at least one-half. And many
men who now go home every night in
a very yellow mood, simply through
the influence of good fellowship and
treating, will astonish themselves and
their friends by retiring while they are
comparatively sober.—Lincoln Globe.

PETERSON'S MAGAZINE for April, just
received, is an unusually brilliant
number, especially in its engravings.
In addition to a beautiful steel-plate,
"In the Balcony," illustrating a tale
by Frank Lee Benedict, it has a charm-
ing little love story, by Ella Rodman
church, with numerous engravings.
There is also a very able article, on
the late George Eliot, the novelist,
with illustrations. The powerful no-
vel, "The Twelve Great Diamonds,"
by Mrs. Jane G. Austin, is completed
in this number, and will be followed,
we see, in the next, by "Held for Ran-
som," by Sidney Trevor, said to be
even more thrilling. There are two
colored patterns; a colored steel fash-
ion-plate; and nearly half a hundred
other illustrations. Unquestionably
this is the best and cheapest of the lady's books,
and ought to be taken by every family
in the land. Terms are but two dol-
lars a year, with great deductions to
clubs, and handsome premiums to the
person getting up the club. It is neces-
sary to subscribe. Back numbers, to
January inclusive, can always be sup-
plied, if wished. Specimens are sent
gratis, if written for, to persons wish-
ing to get up clubs. Address, CHAS.

**NOTICE TO PARTIES HAVING BORED
WELLS.**
Notice is hereby given to all persons
having bored wells, to call on W. W.
Hove, at Judge Wilcox's old office,
first door north of the City office,
and settle for the right to use the same.
The undersigned is the patentee of the
well auger and extensible rod, and no
other person has the right to use them.
All persons using bored wells will be
required to pay \$5 in cash or give a
note for \$6 in six months from
date, to draw interest at the rate of
ten per cent.

Owners of well augers are also not-
ified to call at the same place to make
arrangements for the future use of the
same, Red Cloud Jan. 18, '81.
NATHANIEL C. CLARK, patentee.

Mr. N. C. Clark, the patentee, was
the first man to conceive the idea of
the well-boring machine with the ex-
tensible rod, the advantage of which
can be seen at a glance, as it has en-
abled persons setting in this and other
remote States to obtain an inexhaust-
ible supply of water at a small per cent
of what it cost to get the same in the
settling of Illinois and Iowa, and it is
now conceded to be the only practical
way of getting water here. The machine
that he charges, he considers to be
very reasonable as the royalty upon
the Drive wells is, and has been, from
\$10.00 to \$15.00 per well, therefore he
considers that he is justly entitled to
the amount charged. 241f

CHATTLE MORTGAGE SALE.
Whereas default has been made in the pay-
ment of the sum due in certain chattel mort-
gages, dated on the 24th day of October, A. D.
1909, and duly filed in the office of the county
clerk of Webster county, Nebraska, on the 19th
day of October, 1909, executed by Joseph W. J.
Moore and Rebecca Moore to C. H. Potter, to
secure the payment of one hundred and eighty-
eight dollars and interest upon which
there is no law in the State of Nebraska, I
will sell at public auction in front of my office
at Webster county, Red Cloud, Nebraska, county
clerk's office, on the 15th day of March, A. D. 1910,
