In the spring of 1862 I stipped on the ice and sprained my right limb at the knee joint I was very lame and of times suffered the most exeructating pain. I wore a bandadge on it for over a year, and tried mest everything in my reach, but could fail nothing that would give the permanent relief. When I overworked, it would pain me very much. In April 1878 I began to think I should be a cripple for life, but having some of "K endall's Spavin Cure" thought I would try it. I used once third of a bottle, and experim-red relief at once. The pain left me and has not troubled me since. I feel very grateful to you and would recommend 'K endall's Spavin Cure' to all who suffer with eprains or romme' tism.
