urday to learn something of the mys-  
teries of the printer's art.

The revised edition of the New Testa-  
ment is a sensible book, as witness  
the following quotation: "Suffer the  
little newspaper editors to come unto  
me, and forbid them not, for of such is  
the Kingdom of Heaven." We are a  
believer in the (revised) Scriptures.

Hon. H. S. Kaley has been nomi-  
nated for constable at Chemnitz, Germany,  
and the nomination was confirmed by  
the senate last Friday. Mr. Kaley  
will depart for the "Father-land"  
sometime next month, and enter upon  
the duties of his new position. We  
congratulate him upon the honor that  
has been conferred upon him by the  
U. S. Government.

Dr. Oviatt, of the Lincoln Surgical  
Institute, who came to Red Cloud last  
week and only expected to remain a  
few days finds that the number of his  
patients is constantly increasing, and  
that he is compelled to remain much  
longer than he intended. The Dr. was  
glad to note, is very successful in  
his operations and deserves the liberal  
patronage that has been extended to  
him at this place.

Thos. Ryan, living over in the edge  
of Kansas, was arrested last week for  
an attempted rape on the person of  
Mrs. Rozencranz. O. C. Case was  
employed on the prosecution and suc-  
ceeded in having the prisoner bound  
over in the sum of \$500 to appear at  
the next term of court. Failing to  
procure bail, Ryan was incarcerated  
in the "cooler" at Smith Center. Ryan is  
a married man about 35 or 40 years old.  
Mrs. Rozencranz is an estimable mar-  
ried lady and has been in poor health  
for some time which adds to the  
heinousness of the crime attempted to  
be perpetrated on her by the brute  
who now languishes in "durance vile"  
to await the just meed of punishment  
that will surely be meted out to him  
when the court convenes.

A petition is being circulated asking  
the school trustees of this district to  
call an election for the purpose of  
voting bonds to the extent of \$5,000 to  
purchase grounds and to build and  
furnish a school house. We do not,  
at the present time, propose to enter  
into a discussion as to the advisability  
of voting those bonds, but will leave  
that for those who are more directly in-  
terested than we are, but we certainly  
think it would be bad policy on the  
part of the district to give up its pres-  
ent grounds which are worth at least  
\$1,200, and which will revert to Mr.  
Samuel Garber, the original owner,  
as soon as the district ceases to occupy  
them for school purposes. Five  
thousand dollars, we think, would  
hardly be half enough to buy grounds  
and build and furnish a school house  
with sufficient capacity to accommo-  
date the school children of this town  
when we take into consideration the  
fact that the number will in all proba-  
bility be trebled in two or three years  
by immigration and "natural causes".  
However, if those most interested—  
the heavy tax-payers of this district, wish  
to vote the \$5,000 bonds, and think  
that it would be advisable to build a  
small school house in preference to  
occupying the old ones a few years  
longer, we will not offer any objec-  
tions, but we are inclined to think  
that the people will consider the mat-  
ter well before voting any more bonds.

#### Cloverton News.

The showers and the warm sun  
have started all kinds of  
vegetation wonderfully, grass seems  
fully as hearty upon the ground as at  
any time last year.

Wheat and corn are stretching up  
to reach the sunlight and make the  
farmers laugh. And we hope it may,  
for upon this crop depends in a great  
measure the prosperity of this commu-  
nity, as well as other portions of the  
county.

The farmers have gone to work with  
a will that shows a trust in the future  
prosperity of northern Webster county.  
Large fields of grain are growing,  
and corn planting is being rapidly  
pushed forward.

For instance Mr. J. H. Dixon has  
130 acres of wheat, Morrow Bros., 100  
acres, Mr. Reed over 60 acres, William  
Milner 36 acres, Moses Wilson has 40  
acres in one piece, and we do not  
know how much more. Corn fields  
are plenty that contain over fifty  
acres. Mr. Krcimer will plant as long  
as it will pay and probably put in over  
150 acres.

News other than this that would in-  
terest the public is not very extensive.  
The Sabbath Schools are all becoming  
more interesting as the summer ad-  
vances, and our schoolhouses are  
crowded.

Elder Milner baptized three persons  
recently and they united with the  
Baptist church.

Rev. Mr. Munger has recently com-  
menced preaching to the United  
Brethren society here every two  
weeks.

The Colorado fever among the boys  
has turned and they may all be consid-  
ered convalescent just now. They  
will help finish seedling on the old  
homesteads.

A gentleman told us the other day  
that he had planted out nine crops in  
Webster county and there had been  
only two failures, and one of them oc-  
casioned by grasshoppers, and wants  
to know where is the county that  
treats the farmer better on an average  
than that.

Cloverton has bright hopes for the  
future, and we see no reason why,  
with a good crop this year, it may not  
become one of the most prosperous  
sections of Webster county. It has  
this advantage, that it is situated on  
the divide where most of the level  
land in the county is found. The  
people have to go pretty deep for  
water, (from 80 to 200 feet) but ar-  
tesian wells are looked upon as some-  
thing to be enjoyed in the near future,  
so this does not discourage the people.

CLOVERTONIAN.

#### MARRIED—

At the residence of the  
bride's father on May 18th, 1881, by  
A. Kaley, J. P., Mr. Frank L.  
Knight of Kansas, to Miss Ella J.  
Norris of Red Cloud.

The CHIEF acknowledges receipt of  
a share of the wedding cake and  
wishes the happy couple a pleasant  
and prosperous life with no matri-  
monial storms to ruffle the sea of  
their enjoyment until the Knight of  
death shall close the scene.

#### Woman's Column.

This column is set apart for the use of the  
women of the county, and they all have an  
equal right to use the same in the discussion  
of any question of interest to the sex. The editor  
of this paper will not hold himself responsible  
for anything that may appear in this column,  
but for the views and opinions of correspond-  
ents.

The women of this country hold  
twenty-one per cent of all the govern-  
ment bonds, and fifty per cent of the  
bonds of matrimony.

The Larnie (Wyo.) Sentinel, says:  
"Women in Wyoming have enjoyed  
all the political rights, privileges and  
responsibilities of men for the last  
eleven years. Not a single, solitary  
instance has ever occurred in which  
the exercise of their rights has been  
the least productive of any evil result  
that we ever heard of. The women  
have not been degraded or demoral-  
ized by it, nor has it resulted in any  
neglect of domestic affairs, or created  
any domestic discord." The Sentinel  
also states that the women of Wyo.  
using as regularly vote as the men,  
and they do not stay away from the  
polls as much as the men do. But  
few women, as yet, have become office  
seekers, notwithstanding that they all,  
especially the better class of ladies,  
take deep interest in politics. The  
women generally vote for whom they  
believe to be the best men, and bolt  
bad nominations."

The Woman Suffrage Reform has  
not been undertaken one day too soon.  
Already in the Eastern and Middle  
States, where women exceed men in  
numbers and where manufactures and  
commerce have largely taken the  
place of agriculture, the condition of  
working women is deplorable. It  
grows more so. Manners and morals  
deteriorate, because so many unpro-  
tected women are driven to the wall.  
They are thrown upon their own re-  
sources, yet are deprived of the exer-  
cise of equal legal and political rights,  
and so are unable to combine, like  
other classes of laborers, for mutual  
protection. The police too often  
abuse their power over a class that is  
powerless to redress its grievances at  
the polls. The chivalrous respect for  
Woman, which should inspire every  
true American heart, is visibly dimini-  
shing in the centers of wealth and  
population. We turn for help to the  
broad prairies and rich valleys where  
men and women call no landlord mas-  
ters. Let the Great West, still agricul-  
tural and independent, come to our  
rescue against the corrupt combi-  
nations of trading politicians. By estab-  
lishing impartial Suffrage, let us check  
the despotism of monopolies, restore  
the supremacy of morals in public and  
private life, and redeem the future of  
the Great American Republic.

# CHAMPION Improved for 1881. Besley & Perkins. Reapers and Mowers.

#### FRANK LESLIE'S POPULAR MONTHLY.

FOR JUNE.

Abounds as usual in attractive fea-  
tures. The leading article, "Russia's  
New Emperor, Alexander III," by  
Alfred H. Guernsey, is highly inter-  
esting, and its ten illustrations are  
admirable. Among the other note-  
worthy contributions are: "Among the  
Pennsylvania Dutch" (7 illustrations);  
"Freaks of Nature in Landscape" (12  
illustrations); "The Empress of Aus-  
tria" (7 illustrations); "Tyrol and the  
Tyrolese," by W. Seton, (4 illustra-  
tions); "A Week in Hamburg," by  
Alfred Harvey, (12 illustrations);  
etc., etc. The sketches include "J.  
Fennimore Cooper," "The Loss of the  
Kent," "East Indianism," "Sport in  
India," "Benedict's Powerful serial  
novel," "Late Remorse," is continued.  
And there are some exceedingly inter-  
esting short stories by popular writers.  
Bret Harte contributes a poem, finely  
illustrated, entitled, "What the Chin-  
ney Sang," and the other poems are  
of rare merit. The miscellany is  
large, and embraces a great variety of  
subjects replete with entertainment  
and embodying much useful infor-  
mation. The number contains 128  
quarto pages and more than a hun-  
dred engravings. It is also embell-  
ished with a beautiful colored frontis-  
piece, "Baby's Awake," from a  
painting by Meyer Von Bremen. The  
price of a single copy is only 25 cents;  
yearly subscription, \$3. Address  
Frank Leslie's Publishing House, 53,  
55 and 57 Park Place, New York.

Holcomb Bros. will shortly erect  
one of the Hazen Wind-mills, and  
attach one of Raymond Bros' patent  
grinding mills, which is claimed  
will grind twenty-five bushels of  
corn per hour. It is claimed for this  
wind-mill that it will furnish motive power  
for a grinder, corn sheller and pump  
water at on and the same time.  
Stockmen are specially invited to  
examine and see this mill work. Notice  
of the time will be given through the  
CHIEF.

Prof. Ties' Weather Prediction: For  
June 1881.

1st, and probably 2d, rain and se-  
vere storms in places; 2d, and 3d,  
clear or fair; 4th, to 7th, clouding,  
threatening weather, with heavy rains  
in places; 8th, and 9th, clear; 10th,  
14th, clouding threatening weather  
with very heavy rains and storms in  
places; 14th, and 15th, clear; 16th,  
19th, clouding threatening weather,  
with local rains; 19th, to 20th, clear;  
21st, to 25th, clouding threatening  
weather, with heavy rains and storms  
in places; 26th, and 27th, clear; 27th,  
to 30th, clear threatening weather,  
with heavy rains in places, and per-  
haps storms.

The comparatively warmer days  
will be about the 6th, 12th, 14th, 24th,  
and 29th. The comparatively cooler  
days will be about the 2d, 3d, 15th,  
20th and 25th. But really cool days  
only occur when it clears up from the  
northwest.

Earthquake conditions exist in full  
force on the 6th, 11th, 22d and 29th.  
Aurora will probably be visible on  
the 3d, 9th, 16th, 21st and 26th.

## Nasby in Europe

May 14th Mr. D. R. Locke, (Rev. Professor  
of Theology) will sail for Europe, for the  
purpose of contributing a series of lectures to the  
Boston Herald. These lectures will cover a  
period of six months, commencing on the 1st  
of June. They will be written in Mr. Nasby's  
popular style and will be as likely as he can  
make them.
