THE CHIEF.  
M. L. THOMAS, EDITOR  
THURSDAY, MARCH 30, 1882

As explosion of gas took place in  
a coal mine in Pennsylvania last Saturday  
and five miners were killed.

THIRTEEN persons escaped from the  
jail at Detroit Michigan last Saturday.  
They came west to grow up with the  
country.

COL. A. V. FEVER of New York  
who had command of a regiment in  
the late war, committed suicide on an  
account of poverty recently.

A desperate fight took place near  
Tombstone, Arizona last Friday night  
between six men of the Earp party  
and nine cow boys headed by the  
notorious "Curly Bill" who killed  
Marshall White of Tombstone. The  
cow boys ambushed the Earps as they  
were approaching the Springs and  
pounded a deadly fire into them,  
wounding one man slightly and killing  
a horse. The Earps returned the  
fire and then charged upon the cow  
boys, who ran, leaving "Curly Bill"  
dead upon the field.

The desolation caused by the high  
water in the Mississippi still continues,  
and great suffering is daily re-  
ported. A Helena, Ark. special says  
the waters are falling slowly but hun-  
ger and distress still reign. Plants  
and country people will be as des-  
tute as in the earliest settlement of  
the state. In Louisiana, Cuba, a par-  
ticularly rich and flourishing section,  
there is great suffering existing. The  
levies which broke there were found  
at a cost of \$1,000,000 and were thought  
to be impregnable. This failure has  
caused great loss of stock, for when  
the break came it was too late to save  
any considerable amount. Horses  
are again being used for refuge, for  
both cattle and human beings. In  
one house a whole family are living in  
the back part of their house, while  
their only quarter in the front room  
and on the porch.

Frank Leslie's  
POPULAR MONTHLY.

The April number especially con-  
tains much of interest, with litera-  
ture of a more than usual varied,  
interesting and instructive character,  
and is commensurate in the art de-  
partment. There are over one hun-  
dred fine illustrations, and a handsome  
colored plate frontispiece. "Who  
Relates his adventures Before Decem-  
ber." The articles are particularly  
interesting and are replete with in-  
formation. "The Life-saving Service  
on the Great Lakes," by A. B. Bibles,  
with its thirteen illustrations, will not  
fail to command general attention. "The  
Land of the Kalydes," by Frederick Dineel,  
"The Land of the Kalydes," or Mount  
Lithia in Algeria," by Louis and  
Grasshoppers," by J. H. Hoffman,  
"White M. D.," a passing great novel,  
and are profusely illustrated. In the  
department of fiction, "Looming  
Empire of the Air," by Gerald Carle-  
ton, is continued, and there are short  
stories and sketches by P. R. Marston,  
Roy W. H. Cleveland, R. B. Kimball,  
Elizabeth Bigelow, T. B. Thorpe, etc.,  
etc. The poems are generally beauti-  
fully illustrated and there is an abun-  
dance of short articles, paragraphs,  
anecdotes, etc., etc. The 128 large  
pages are filled with pleasant read-  
ing. The price of a single number  
is 25 cents; the subscription for a  
year, \$2.50, six months, \$1.50, four  
months, \$1.00, sent postpaid. Ad-  
dress FRANK LESLIE, 55, 57 and 57 Park  
Place, New York.

Who may vote at the District Meet-  
ing.

Here is the law upon qualifications  
and votes. Every voter and  
every woman who has resided in the  
district forty days and is over twenty  
years of age and who owns real  
property in the district shall be en-  
titled to vote at any district meeting.  
Every voter and every woman who  
has resided in the district for forty  
days and is over twenty years of age  
and who owns personal property  
assessed in his or her name at the last  
assessment, shall be entitled to a vote  
at any district meeting. Every voter  
and every woman who has resided in  
the district forty days and is over  
twenty years of age and who has  
children of school age residing in the  
district, shall be entitled to vote at  
any district meeting.

Ed. CHIEF—Seeing that your cor-  
respondent from Glenwood has stop-  
ped writing, I submit the following  
items.

The CHIEF is daily growing in favor  
here.

The farmers are busy sowing wheat.  
Several farmers will sow 75 acres  
each. Mr. Bartlett will sow 150 acres  
this season.

A Huffman's new house is nearly  
ready for occupancy, it is second only  
to Jacob Ailand's new house, just  
completed.

J. D. Tridspice lost a valuable  
horse recently, it got fast in the stable  
and broke its neck.

Dan. Dwyer has embraced spiritual-  
ism, and says that hereafter his chil-  
dren will be taught that doctrine.

Farm hands are scarce here, we saw  
two women harrowing in a field the  
other day.

Considerable land will lay idle here  
this season, farmers having broken up  
more than they can tend.

Joe Graves has 60 acres of rye  
which looks fine.

Educational Department.

Communications for this column should be  
addressed to Charles W. Springer, care of  
The Chief, Red Cloud, Nebraska, or forward  
from any of our educational agents.

Read this column and take the paper to  
the District meeting with you.

Don't forget the communication at  
Blue Hill next Saturday.

The spring term of the Normal  
School at Peru begins April 1, 1882  
and continues three months.

It will be well for districts wishing to  
engage teachers and teachers de-  
siring positions to meet at the exam-  
ination April 6th and 7th, at Red  
Cloud.

Eddie Gardner of Grand Fork and  
Edwin Palmer of Lincoln, were gone  
to Peoria to attend the Nebraska  
Baptist Synod. We were their  
great success in the presentation of  
their studies.

Most of the county schools were  
closed last week because of the  
croup. Now it is a good sign  
that the epidemic is passing. It  
will give to the parents a lesson  
in hygiene. When your teacher  
is absent will be part of a strategy  
that he should use. See that a  
month's more than a month's  
Should you not show your appreciation  
of his labors, care and earnest-  
ness in teaching your children? In  
another column is published a list  
of pupils rewarded with a diploma.  
A difference of \$100 on a term is  
sufficient to put a good teacher, and  
put in his place a stranger. Once  
every three months the teacher's  
position is open to the lowest bidder,  
once every three months, at least  
once a year, the parents extract  
their children to the lowest bidder.  
In no other calling is the employment  
of labor thus measured.

Where is the learning house that  
employs the lowest bidder, where is  
the parent that is filled from the  
lowest bidder? Think of a husband  
letting the care of his wife be  
chained to the lowest bidder. You  
may say this is overdrawn. Perhaps it  
is, and if it is, let us see that  
that you do not try to get the cheapest  
instruction for your children next  
term. And remember that instruc-  
tion is something more than the im-  
parting of a little knowledge of the  
three R's.

EDUCATION  
It is the school director's plan  
to have a school week.  
This is the school week.  
The school week is the school week.  
The school week is the school week.  
But all the flowers that are  
—Bureau Report
