For Representative, R. S. PROUDFIT.
For Commissioner 2d District, FRANK BUSHAW.
For State Senator 2d District, O. C. CASE.
For State Senator 2d District, FRED LOEFF.

THE PLATFORM.

Resolved, that the republicans of Nebraska in convention assembled, stand by the fundamental principles of the republican party as enunciated in an unbroken line of national and state platforms, the chief of which are free labor; free speech; the right of every qualified citizen to vote once at every election and have that vote counted under the restrictions of just and equitable election laws; free, non-sectarian schools; sound currency on a specie basis, under national control; the raising of national revenues by taxation of luxuries and articles of consumption not essential to the comfort and well-being of the people and from a tariff on imports so adjusted as to protect home labor and the investment of capital in home industries; and legislative control of corporations.

Resolved, that we uphold and maintain the enforcement by well considered legislation of the classes in our state organic law that prohibits its unjust discriminations and extortions by railroad corporations, while recognizing the importance of fostering and protecting them as necessary factors in our progress and prosperity; and that we trust to the honesty and courage of the people, in their political capacity, to resist encroachments of corporate power upon the rights and privileges of citizens on the one hand, and on the other, to deal justly and fairly with all property interests under whatever name or form, without unjust discrimination or extortion in the matter of levying taxes, or regulating prices of commodities or charges for services.

Resolved, that the policy of the state board of lands and buildings, favoring the leasing, for terms of years, of our school, university and agricultural college lands, at a fair rental, in preference to selling the same, under the option given by law, meets with our approval, as the best possible means of preserving the heritage of our children and providing regular and ever increasing revenues for educational purposes.

The Republican Central Committee have arranged the following appointments for congress, will address the citizens of Hastings, on Saturday, October 14th, at 2 p. m. and 7:30 p. m.
At Seward October 9th, at 7:30 p. m.

Local committees will please secure suitable halls for the speakers, and see that the meetings are thoroughly advertised in their respective localities. Appointments for other speakers will be announced in the future.

Papers in district please copy.
Geo. W. E. Dorsey,
Chairman State Central Committee.
J. B. McDowell,
Chairman Second Cong. Central Committee.

A VERY OLD SETTLER
WHO WAS BORN IN NEBRASKA IN 1844.
We believe Judge Kinney, of Nebraska City, lays claim to being the father of the first white child born in Nebraska. The Judge's son, if our memory serves us right, was born in Omaha Bellevue, in 1854. But here comes another boy (?) who lays it over Mr. Kinney's son just ten years, having first seen the light of day on the Pawnee reservation in Nebraska, November 12, 1844; The old settler is now a resident of St. Joseph, Mo., and is very homesome, and desires to know if there are any soldiers who fought for the union, and who were born in Nebraska. We herewith publish this letter in full, but we hardly think he will find the man he is looking for.

St. Joseph, Mo., Oct. 2, 1882.
Hon. Secretary of State, Lincoln, Nebraska—Dear Sir: Have you known of any person born in Nebraska, that was a soldier in the army of the union, during the war of 1861 to 1865? I would be very glad to know of any soldier besides myself. I was born in Nebraska November 12, 1844, my father at the time being a government blacksmith for the Pawnee Indians. My father was born at Lavaltrie, Canada, and my mother in Talia county, Ohio. I emigrated August 27, 1863, as a private, in Co. G, Fifteenth Kansas Cavalry, and was discharged therefrom as first sergeant, October 19, 1865. I have lived in St. Joseph since 1867.

Very respectfully yours,
JNO. AARONS.

We have already alluded to the encomiums passed on the management of the Chief since our ownership of it, and would not have added this but for the facts that additional compliments of a high order, have found voluntary expression, especially in relation to our local department, and we deem it would be unjust to all concerned, to take to ourselves all the credit for this success. Providence has been kind in sending to us in the very beginning of our guidance of the paper, so able and faithful a foreman as our Andrew J. Clute, Jr., to whose inventive genius, and skill in his chosen art, the Chief's readers are indebted for much of the attraction and interest they find in our columns of our combined old and young efforts.

As heretofore intimated, discerning readers will notice a difference in the spirit and vein of articles, and judge of their source accordingly. While ourselves are given to much of spiritual, or religious thought and sentiment, and ideas most common to more advanced age, Mr. C. is full of those vivacious, and mirth-provoking quotations, and originalities, which so aptly amuse and interest our rising and rapidly increasing "Young America."

Improvement for Mind and Body.
There is a more strength-restoring power in a bottle of Parker's Ginger Tonic than in a bushel of malt or a gal. of milk. As an appetizer, blood purifier and kidney corrector, there is nothing like it, and invalids consequently find it a wonderful invigorant, for mind and body.—Commercial.

THE COMET.
NASHVILLE, TEN., Oct. 5.—This morning at 4:30 Mr. Barnard discovered that the nucleus in the Crute comet had separated into three fragments, the largest estimated at 14,000 miles in length. The space between the fragments of the nucleus is estimated at 2,000 miles. Yesterday morning Mr. Barnard observed that the nucleus had assumed the form of a long strip, not less than 24,000 miles in length and 3,000 in breadth.

CINCINNATI, Oct. 5.—Professor Wilson, of the Cincinnati observatory, corroborates the statement coming from Nashville of the separation of the nucleus of the comet into three fragments. His statement of their size, in part, agrees with that made at Nashville. The disturbance makes no difference in the appearance of the comet to the naked eye.

DEMOCRATIC SENATORIAL CONVENTION.
The democrats of the 23d senatorial district, held their convention at the court house, on Saturday, Oct. 7, 1882. Judge R. N. Simonton of Nuckolls county as chairman, and Jacob Rosenthal of Webster, as secretary. After the usual proceedings, O. C. Case, of Red Cloud, was unanimously nominated for senator.

From an article dated Kansas City, Oct. 5, we gather what follows. At 5 o'clock, p. m., Oct. 5, at Jefferson City, Mo., the last of the world-renowned, out-lauded James Brothers, Frank surrendered his arms and person to Gov. Crittenden, with a doubtless confidence, that in consequence of this movement, and his sworn allegiance to the government, and loyalty to the laws of the land, he was to be restored to full citizenship again. Let all watch closely the result of this movement, and see what lessons of wisdom may be gleaned therefrom.

Mr. McBride has removed her stock of millinery goods, and will be found one door south of Rosenthal's clothing store.

Trunks Notice.—All are forbidden removing any timber or fuel on the farms known as the widow's Ross farms.
UMPHREY SMITH.
