The he knew when he pleased he could whishe they should be dressed in decent home-

"But oh, the whistling gi I "re met. As blithe is she as any bird; And from her lips morn, a ses and eve, The Lerriest of trills are beard.

From task to ask with lightsome step And her dett han is charm win they fore And order from d sord rg.ows."

There is something pathetic in whistled tune: the business-man sitting up at night trying to make his ledgers balance, hear- some late pedestrian, boy or man, wh stle the "Last Ecse of Summer" or "Bonn'e foot," and straightway the pen drops from his tire I hand and the bewildering figures disappear, and in their place he sees home and the mother who live I there, and he catches the song of the robins in the old orchard and the scent of the sweet briar that grew by the door.

"Away, away, termenting cares, Of earth and folly born."

He is at home again, and as the unknown whistler passes on and the tender, wandering air dies away, the eyes to all, and perhaps lose all his fun in of the listener a e dim with tears, "And his beautis filled with a longing pain To be a whisting boy again. -Detroit Post and Tribune.

The Gila Monster.

What is commonly known as the Gila lizard, found chiedy in Sonora and Arizona, has for some years been regarded as a uriosity by naturalists, owing to the fact that it is the only one of the lizard family reputed to have a poisonous bite. It grows to a length of three feet, and among the Mexicans is commonly regarded as more pois nous than any serpent. On the other hand, it is of a siuggish nature, and so many instances have occurred in which children have made p ts of small specimens without coming to any harm that much

and everybody had expressed a cr. ticism incredulity has been expressed as to its on the play, there came one of those dangerous nature. A paper recently dead lulls during which five minutes presented before the Philadelphia Coflege of Physicians stated in response to some one in the second gallery began in uiries two letters had been received to whi te "Home, Sweet Home." The from Arizona, one of which described low, clear notes were as musical as the the lizard as "more peaceful and harmstrains of a finte, and they pierced the less than a young missionary," while air with their homes ck melody and the other declared it to be "worse than touched ever heart. All heads turned a whole apothecary shop." Re ent exto look up, but it was im osible to dis- periments nade with ca tive specimens tinguish the whistler of the sweet of the Gila monster, however, seem to strains among the very ordinary look- demonstrate satisfactorily its poisonous ing people there, until a policeman ap- nature. Small animals and birds were peared and churlishly si enced him, killed by its tite. It has numerous and then it was seen to be a sickly-small teeth, and when it bites a quantity looking, poorly-dressed man who had of saliva is discharged. This saliva or entranced every ear with his plaintive, fluid is found to be an active poison of tender melody and left a memory in very peculiar nature. It causes no every heart. Nowadays whistling is local in ury, but seems to act dialmost one of the lost arts. 'For good- rectly upon the heart, arresting its acness sake stop that dreadful whistling." tion in diastole. Temperance Reading.

Joseph Cook on Temperature,

In the probability a recent lecture Jaseph Cook presented one latera trafactors report to Temperature. He als served that for searly half a century life samesane emisting a England have manred moderate de niere and total alstainers in organate auctions, and that a become has been by distillar and man shale up of total abstactors of seven, thereas, secontorn and some or or or treatthree per cent over that paid to the action of menderate frinkers, Sa d Mr. Cont. " Here are a few elementrial facts of the largest ph lenthropic significance

I have in my possession an original

better of one of the forement received

for it's assurance in Passion, and the

teen years the mointy has been across

tomed in payerery fire years between Let worn by two boards! Can you good how to lie two sections—that is, by the term plutainer on the one hand, and to the pacificrate drinkers, on the other and that the result has been during the part sixteen years there have been been! \$345 policies on the lives of medicate You've bed convert my robbin, not amount drinkers that is, of those who are not atrictly abeliant in the new of a mobile Bipacra and 4, 156 on the lives or total abstainers. Of the torquer life have died, but 91 early of the latter, or lose than half the concertionate som of which, of course, would be 110. Louis than one half the abstainers has a doct compared with the number that deed among non abota news, who were street ly temperate, and this in an experience of a street years. I hold to my hand the eigenfare of a very pelebrated life neursace sec etc. which I shall not manufor fear you will cay I wish to ad or tise it, although it is not an American society, and I read in this official document that in 1877, 1875 and 1878 the bonus on the Temperature section. was fearteen per cent, higher than in the general department, while the beauty for 1881 in the Temperance section is twenty-three per cent. higher I will name a single one of the great it case surance companies in Fagland because to ver maximum is well established and I can not be suspected of having any inproper motive for giving its carver putbeity. I refer to the I aim! King-hom Temperance and General Provident instation. In Eng and its experience is often cited to show the super or came of tectotal lives; as compared with those of moderate drinkers. The institution igences members of two sections, one if which all the mem era are total allsta nors; in the other, moderate fronk ers; all intemperate persons being of course, excluded. The sections are exactly al ke in every other respect, about 20,000 lives being in ared in the Gencal section, and 10,000 in the Temper and actual c'alms 'n both se tions for filtern years, from 1861 till 1875, show that in the tieneral section 3,4 stelevable were expected, and that 3.44 took place; whereas in the Temperance secion the e perted deaths were 2,002 and the actual deaths only 1,453. During the year 187% the expected cla ma is the Temperance section were 1 5 for £40. equipped, one to observe the colipse at sis; the actual claims were lit for £28,690. In the General section 30 : were expected for £57,347, the actual having been 323 for £74,920. The goinquennial bonuses in the Temperance section have been seventeen and one half per cent, greater than these in the General section." Farther on in his preliminary dis-

course Mr. Cook raid: "I do not know how it is that on this sea-heard we sometimes do not now out, and a dry twig on a branch tore a are debating the question of joining the seem to feel the throb of the mighty hole on one side of one of my trouser expelition, and the prespect is that future of the Republic as our fathers legs, and I did not want to go back when the sixth of May dawns a colony did, and as people do cet on the Mississippi. Provide breadth of the West able to look scross it and see that our ting Constitutional Prohibition on a from bas a, it will ultimately become a National policy."

*** Law and Order League, Twenty-five I aw and Order Leagues

in eight States, were represented by

nearly two bundred delegates at a con-

vention recently held in Boston under the suspices of the Massachusetta League, and the convention developed an earpestness in Temperance reform on the pin e of lav which says a place to add something to what has all special dispatch from Be ton, is very I know another story It is about a ready been learned during previous gratifying to he friends of Temperance. "Now we are straight in our accounts, pair of trousers and a poor boy. Once celip es con arming the corona, especifica. C. C.
