There will be three grades, or classes in the Institute. No one will be expected to engage in every study, only such as he or she most needs. Teachers of first grade will find opportunity to "try their metal" on the solid work of their profession. Second grade teachers will be given opportunity to study those subjects most necessary for them, to acquit themselves as scholars and teachers. Third grades and those who never taught will be instructed and assisted in going "higher up." Exercises of a general character will be interspersed in which all will

take an interest. The instructors will bring to the Institute the sum of their experience. with the vigor of young men having laudable ambition to excel in the profession, and we feel confident that the teacher who attends the Institute this year will not go away disappoint-

Do not forget day and date. Per sons who have not been examined for certificates, nor paid an Institute fee during the past year, and who become members of the Institute will pay \$1 to the fund. Visitors are cordially invited to be present at all the sessions. The Institute will be followed by an examination of teachers at which every one applying for a certificate will be charged the usual fee. Board and lodging will be furnished at about the same rates as last year.
