The report that two or three of the
village trustees and the road super-
visor were drowned in the pond
in front of this office is, we regret to
say, untrue. We dislike very much to
contradict a particularly pleasant re-
port, but and/or compels us, in this
case, to do so.

How to tell a married woman from
a single lady: Buy her a banana. If
she grabs it as though she was not
married, you can bet she is married;
but if she takes the delicious fruit be-
tween her thumb and finger as though
she were fearful of mashing it, the
chances are she is still enjoying the
calm but wearisome pleasures of sin-
gle blessedness.

They are having quite a hydropho-
bia scare at Mankato. A horse that
had been bit by a mad dog took a fit
in Sam'l Bowles' livery barn Wednes-
day night and bit several other horses.
The horse that had the fit was taken
out and killed and the stray dogs lap-
ped up the blood of the dead horse,
and now they are looking for a large
crop of mad dogs. The city council
have ordered all dogs in the city muzzled.
The Express Office.
In consequence of an article which
appeared in the CHIEF a couple of
weeks ago having brought trouble
upon an innocent party, it becomes
necessary to refer to the matter again,
and that the general reader may fully
understand the matter as it is we re-
produce the article referred to:
"We have on several occasions called
attention to the inconvenience to
our citizens arising from the location
of the express and telegraph offices so
far from town. We can see no good
reason why the express office, at least,
should not be located in the town.
The long distance from town to the ex-
press office, coupled with the extremely
unaccommodating disposition of
those having it in charge, is a hard-
ship to the people of Red Cloud that
should be remedied as soon as possi-
ble.
The circumstances which called
forth the above were, briefly, as fol-
lows: A citizen of Red Cloud had oc-
casion to visit the express office and
found the door locked and was refused
admittance or attention by the party
in charge at the time, and after wait-
ing what seemed an unreasonable
length of time was forced to return to
town without having transacted the
business in hand. On receipt of a
copy of the CHIEF containing the ar-
ticle above, Mr. Hancock, of Council
Bluffs, general superintendent of Wells,
Fargo & Co's Express, sent Mr. Potter,
a special agent, to Red Cloud to in-
vestigate the matter, and it was discov-
ered that Mr. Durrie, the company's ag't
at this place was not in the office at
the time the citizen was snubbed, but
that the office was temporarily in the
charge of another party who claims
that he was taking a bath and could
not open up the office. In justice
to Mr. F. A. Durrie, the agent, we
take pleasure in stating that he is a
courteous and accommodating official,
and that we have found upon in-
vestigation that he was not to blame
in the matter, and any reflection that
the article in question may have cast
upon him as an officer of the public
company and servant of the public are
entirely unjust. We are thus explicit
in order that he may appear in a prop-
er light before his employers and the
people of this community.
Now, a few words to the Express Co.
We presume that the object of having
an office at this point is to make money
for the company, and in order to
accomplish that end it is necessary to
accommodate the public as well as
possible, that the business may be se-
cured. The company has an un-
doubted right to allow their employees
to close the office a certain number of
hours each day, or to use the office as
a bath room a certain number of hours
each day, but in either event it is cer-
tainly due the public that the company
cause notices to be posted in town
or in some other way let the people
know at what hours they may repair
to the express office with a reasonable
expectation of being permitted to trans-
act the business for which they are
especially while the office is so far
from town.

FROM INVALE.
FOR THE CHIEF.—
It is about time for your readers to
hear something about Invale.
This place is increasing and the
cheese factory is a source of pride and
profit to its patrons. The proprietor
receives now over 3000 pounds of milk
a day, and turns out about 350 pounds
of cheese daily. If the milk continues
to increase, it will be necessary for him
to have more machinery and more
help.
The business men of the place, met
some of the R. R. dignitaries in coun-
cil, Friday morning, and that vexed
question, the location of the railroad
station, is considered settled. There
was nothing said about moving the
side track from its present position,
but we are to have what we petitioned
for, that is, a building near the cheese
factory, that will do to shelter, receive
and deliver freight in. The most of
the people about here are quite jubi-
lant about it, thinking it will help to
build up a small trading post here.
And perhaps it will induce some
who are traveling westward seeking a
new town, to stop in our country. It has
had that effect on a man already, who
has stopped here with a herd of cows,
and is taking his milk to the factory.
A house is being fitted up for him to
live in.
Some of the farmers are beginning
to think a fenced pasture a necessity,
but we can scarcely dispense with the
services of the herd boy yet. It seems
a sort of fraud on the cows, to confine
them to a forty, or eighty, or even a
hundred acre lot, when they have been
accustomed to the range of six or eight
hundred acres. We may all have to
come to it yet, but we will put as
far off the evil day as we can.
A terrible hail storm visited the
north part of this precinct cutting the
growing crops, and utterly destroying
the gardens but it did not come here,
for which we are thankful.
We have had plenty of rain and veg-
etation is luxuriant. The country is
robed in its new summer dress, of vary-
ing shades of green, embroidered with
flowers, and fringed with trees, and
never was more beautiful.

The Committee of Arrangements
having in charge the 4th of July Cele-
bration at this place are indefatigable
in their efforts to make the celebra-
tion the grandest affair ever gotten up
in this part of the State. As a new
and novel feature the Committee has
planned for a grand military drill and
dress parade in the afternoon, and has
placed this part of the program in the
hands of the following committeemen:
Red Cloud—M. B. McNitt, W. B.
Roby, A. Kaley.
Guide Rock—H. F. King.
Blue Hill—Col. Hoover.
Wells—Joseph Graves.
Salcm—H. Browning.
Riverton—C. C. Chapin.
Corn—Commander of Corn Post.
Members of the G. A. R. Posts in
this part of the State, so far as they
have been heard from, have expressed
a willingness to aid in making this
part of the program a complete suc-
cess.
In view of the grand encampment
at Denver and the reunion at Hast-
ings we should think all ex-soldiers
will avail themselves of this opportu-
nity to practice drill and dress parade.
The Committee of Arrangements has
also decided to offer a cash prize of
\$25 for the best brass band present,
and it is expected four or five bands
will compete for the prize.
Other new and novel features will be
introduced by the committee.
A general invitation is extended to
everybody to be present and bring
with them well filled baskets.

TORRADO INSURANCE.
All who wish to insure their prop-
erty against the ravages of torradors
should call on Strick & McKecky, as
they are prepared to give the very
best terms obtainable.
"Why they Call him 'Old Man.'"
"Yes, that's really so," said Jimmie,
'my hair is turning gray and falling
out before its time. Use something?
I would, but most hair restorers are
dangerous.' "True," answered his
friend, "but Parker's Hair Balsam is
as harmless as it is effective. I've tried
it, you know. Give the Balsam a show
and the boys will soon stop calling you
'Old Man Jimmie.' It never fails to
restore the original color to gray or
faded hair. Richly perfumed, an elec-
trifying dressing."
