THE Wolts comedy company will commence a series of entertainments at the court-house hall, commencing on Monday evening, Nov. 26. The play on that evening will be "Dora, or driven from home," Miss Jennie Wolts being the star. This company has received the most flattering notices from the press every where they have exhibited. This will be a rich treat for our people, and we hope to see the hall crowded. Admission, 50c, nothing extra for reserved seats, now on sale at Cook's drug store.

WHAT is the reason that Red Cloud can not get up some kind of a manufacturing establishment? We have a first-class water power and all the railroad facilities that could be wished. Why not start a pork packing establishment? Something of the kind would be a big thing for our growing city. Our wealthier citizens could increase their fortunes in a speculation of this sort. We hope that an effort will be put forth to secure a manufacturing establishment or a pork packing house.

W. F. HUGHES of Texas township, brought the Public office the other day a turnip that weighed three pounds and thirteen ounces. This year seems to have been a good one for root crops.—(The Public)

Yes, we should say so, Bro. Butler, but Nebraska takes the cake in raising vegetables. Only a few days ago THE CHIEF was presented with three field turnips by Mr. Olmstead, of Inavale precinct, which weighed from seven to eight pounds each. How is that for turnips? Mr. Robert Hicks also presented our office with a common red beet that tipped the beam at nearly eighteen pounds.

It has been said, and wisely too, by some of our citizens that Red Cloud should be better protected from the ravages of fire. The means at hand are inadequate to cope with a conflagration of any magnitude should one occur. The subject is worthy the careful consideration of the trustees and the citizens. Self protection is one of the safeguards that every person should feel interested in. THE CHIEF would suggest the formation of a fire brigade, and also, that city fathers take action in reference to the purchase of a fire engine at once. \$2000 invested in something of the kind now may be the means of saving several times that much in the future. We believe the people demand it.

A HOLIDAY PRESENT.

The above prize is an exhibition at Mrs. Kellogg's store, where each person will receive a ticket with every purchase, which is to be held until the 25th day of December, when this beautiful present will be delivered to the purchaser of the most goods during this time. Mrs. Kellogg's stock consists of millinery, dressmaking and fancy goods of all kinds, and is well known to all our readers.

COUPLINGS.

BY THE RAILWAY REPORTER.

Wm. H. McCoy, of Red Cloud, is now the general agent, in covering his recent illness.

There is a large travel east over the B. and N. W. R. R. There is also a heavy influx of passengers in the travel west.

C. W. Davis is having his hands full during Mr. Durrie's illness, but Charley Hall qualified to fill the position.

Mr. M. M. Mearns, foreman of the round house in this city, has gone east on a visit. Mr. Mearns is officiating in Mr. Mearns's absence.

On last Friday evening, Mr. Hugh Brown, employe of the B. and N. W. R. R. at this place met with a most serious accident by which he lost a portion of one foot. Mr. Brown it seems had been at work cleaning up a coach, and had started home with a mop that had come apart, under his arm. This he was trying to fix while in the act of crossing the track, and did not observe an approaching engine which ran him down before he was aware of its presence, crushing his foot as above stated. Dr. Hall, the company's surgeon, was called, and assisted by Dr. Damerell, the injured portion of the foot was amputated. He will consequently be compelled to lay off for several weeks. Mr. Brown is indeed fortunate in escaping a crushed foot, as one step further in that track would no doubt have cost him his life. It was a very narrow escape from instant death.

SUCCESSFUL HOUSE.

One week ago the 16th of November, 1882, the First National Bank of Red Cloud, was organized, and licensed to do a general banking business in Nebraska, having become the successor of Smith's banking establishment, which has been doing business up to that time. The business of the First National Bank has been steadily growing in interest until now it has become a permanent and flourishing business industry of our city. The more prominent names interested in its organization were: Messrs. E. E. Moore, G. W. Moore, John Moore and W. N. Richards, and has the distinction of being the first and only national bank, in the republican valley. The success of the bank has been far greater than was anticipated by its most sanguine supporters, and to-day numbers its depositors among all classes of business and private citizens. The deposit account shows a healthy state of affairs, footing up some over \$102,000 which is a very gratifying result to the stockholders, and naturally makes them feel good over the result of their efforts to build up a good business, so much so that they have determined to erect in the spring a large and elegant banking house, which will be an adornment to growing city. The location of the building has not yet been selected, but will in all probability, occupy a sight in the immediate vicinity of the present building, and with the zeal and general go-ahead that characterize the managers, we shall look forward to the erection of a nice building, fully equal in design and architecture of any in this part of the state. The officers of the bank are: E. E. Moore, president, John Moore, vice president, E. H. Ambler, cashier. THE CHIEF is pleased to learn that the first year of the bank's existence has been a great success and a financial benefit to its numerous stockholders.

The Presbytery of Hastings in session at Bloomington, in April, 1883, recommended the building of a church edifice, and the establishment of a female college at Red Cloud, to the liberality of the friends of presbyterianism. The church edifice is now about enclosed and floor laid, and it is expected to go on steadily to completion. When finished the town has reason to expect a substantial and comfortable house, and the hope is to establish a hard working church.

A FRIEND of the business men of Red Cloud, met at Cass & McKinstry's office last Wednesday week to take action in reference to a breach of faith, to be held from this place to the town of Stockham, Webster county, Kansas. No definite plan of action was decided on, only as far as writing to the superintendent of the K. and N. W. R. R. in reference to the matter. Other matters were discussed which will be important to the people of Red Cloud in the future. A discussion also followed on the part of the Red Cloud men, on the part of the Stockham men, and the meeting closed, the meeting adjourned.

HE GOT REBUTED.

A few days ago one of our young bloods who had been laughing over the

Consequently he made up his mind that the one he was enamored of and who the matter with her as to the date that the proposed marriage should be celebrated.
