

The Red Cloud Chief.

FRIDAY, DEC. 28, 1883.

GARFIELD.

Michael Saltzman moved to the Potter farm, north of the river.

Charles Throckmorton has sold his mule team for two hundred and twenty-five dollars.

Westley Throckmorton has a new horse.

John Beauchamp is able to walk out again.

Joel T. Martin's steam mills will be running the first of January.

The new school at Martin mills is progressing finely. The building looks nice.

The school taught in district No. 13 is a success.

ELM CREEK.

Thinking a few items from this precinct might interest the many readers of your valuable sheet, I send you a few.

The farmers have filled all of their cribs with good round ears, and some of them have large piles of corn laying on the ground. Corn yields from forty to sixty bushels per acre. The farmers should be careful and select good seed. A great deal of the corn was injured by the early frosts.

M. Andersen will soon start east to spend a few days with his many friends.

Isaac Thomas has rented L. D. Thorne's farm for the coming year.

C. Beal thinks of renting his farm and moving to town.

COWLES.

A happy New Year to THE CHIEF and its many readers, and a hearty thank you for the holiday supplement.

Some of the farmers have suspended operations in the corn field on account of the snow and bad weather. To-day is foggy and disagreeable as one could wish to see.

The Sunday-school at Cowles is flourishing finely under the management of Mr. C. Putnam.

Mr. Ed. Gifford, postmaster, and Mr. Fuller have been busy the last few weeks building corn cribs and weighing corn.

Mrs. Paul of Penny Creek, was in town last Sunday visiting friends.

Miss Ella Beal is teaching in district near Mr. Wm. H. Thomas's.

WALNUT CREEK.

Married, at the residence of the bride's parents on Buffalo Creek, on Christmas eve, by Rev. G. W. Hummel, Mr. John W. Mitchell and Miss Clara Warnock, both of Webster county. A few of the many friends of the contracting parties met early in the evening and had a good social time. The only turkey we have heard of having come to an untimely end for some time, was sacrificed on this occasion. An excellent supper was served, and candy and cigars were liberally supplied. The amusements were kept up until Christmas was ushered in, when the guests quietly dispersed for their respective homes. May Mr. and Mrs. Mitchell live long lives of happiness and usefulness and finally reap the reward of well-doing.

S. W. CORNER.

FARMER'S CREEK.

Corn husking all the go now. Corn turns out far better than was expected.

Mr. Walker is suffering from sore eyes. It is feared he will go blind.

Mr. James Campbell has just returned from Iowa, where he went to bring his mother out here. They drove in twenty head of cattle and six or eight horses. His father came here last September.

Mr. Geo. Riese has come back from Iowa and is content to stay in Webster county.

Mount Hope has a debating society. It is quite interesting.

Our winter school begins December 26, Mr. Jesse Brooks teacher.

Bill Walden is the happiest and noisiest man on the creek. He is our jack rabbit hunter. He thinks he can run a rabbit down. It is a boy, and the new roamer and mother are doing well.

Mr. Geo. Hulston is on the sick list. He surely suffers, for the disease has so much territory to pass over.

Old Man Harvey is making broom steady at his old trade.

Bill Smith's steam threshing machine is laid up, waiting for another crop. It is said that he is going to run a corn grinder this winter. We hope he will, for it is wanted in this neighborhood.

Mr. Davidson lost his mother somewhere east. It is said he has found her and brought her home.

Mr. Myers is building a frame house. I guess I have troubled you enough this time, but if these words are not consigned to the waste basket you will hear from me again.

OZART.

Please Take Notice.

There will be a special examination of candidates for teachers in the public schools of Webster county, at my office on Friday, January 4, 1884. CHAS. W. SPRINGER, County Supt. Red Cloud, December 27, 1883.

No Grease for Him.

"When Greace her knees—Greace her knees—Greace her knees," stammered an embarrassed schoolboy, forgetting the next line of his recitation. "There is no occasion to greace anybody's knees," shouted his teacher. "Go and study your piece." Neither is there any use to greace your hair.—Parker's Hair Balsam is all the greacing you want. Restores the original gloss and color to gray or faded hair. Does not soil the linen; not a dye; good for the scalp; prevents falling out.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. How Watch Cases are Made.

This process of manufacture was invented by James Ross, who started in business in 1854, and the methods and tools used in making these watch cases are covered by patents. This is the only watch case made under this process. For many years the introduction of these goods was slow, owing to popular prejudice against "plated" goods, but gradually the public learned that the James Ross' Gold Watch Case was not a cheap gold-washed or electro-plated article, but was made of genuine gold plates of standard quality and thickness. Conscientious adherence to the determination to make the best watch case ever put on the market, and the adoption of every improvement suggested, has made the James Ross' Gold Watch Case the STANDARD. In this watch case the parts most subject to wear—the bow, crown, hinges, thumb-screws, etc., are made of SOLID GOLD.

Send 2 cent stamp to Keystone Watch Case Factory, Philadelphia, Pa., for handsome illustrated Pamphlet showing how James Ross' and Keystone Watch Cases are made. (To be continued.)
