

**THE RED CLOUD CHIEF.**

A. C. HOSMER, - Proprietor

FRIDAY, JAN. 25, 1884.

**LOCAL HAPPENINGS.**

Mrs. ED. PARKER has returned from Iowa.

We need an opera house. Who will build it?

OUR merchants all anticipate a heavy spring trade.

A FINE assortment of toilet articles and stationery at Lindley's.

SEVERAL brick blocks are being planned for the spring work.

R. D. JONES, has gone east on business, and will be absent several days.

W. H. GOODALL, has moved into his new office south of McFarland's store.

WANTED, a house to rent. Apply at this office. Want possession March 1.

On the 9th and 10th of February, will be quarterly meeting at the M E church.

M. L. Thomas is taking a ten days lay off. He is well pleased with his new business.

The law firm of Gilham and Tulleys have been appointed county attorneys at a salary of \$350.

THE protracted meetings at the Methodist church, still continue with an increased interest.

THE agricultural society met last Saturday and decided to hold a fair but did not set the date.

ESPEY'S Fragrant Cream—finest thing in the world for chapped hands—at Lindley's drug store.

ED. BOHANNAN has purchased an interest in John Garber's meat market. Ed's a rustler at the business.

A SPIRITED mule and horse race took place Sunday, in the southern suburbs of Red Cloud. The mules took the cake.

OUR real estate agents are doing a good business in the sale of lands. A great many good bargains are being picked up.

We hope our delinquent subscribers will come forward with their contributions. It takes money to run a good newspaper.

A BRAKEMAN who fell from a car at Ayr and broke an arm, was brought to Red Cloud, and will remain until his arm mends.

In another column will be found a complete list of pensioners of Webster county, and the cause, and the amount each party draws.

Mrs. DIBBLE and Mrs. Dr. Shidler, of York, Neb., sisters of Rob and John Shirey, of this city, are visiting in Red Cloud this week.

DR. MOSENA's new sign fell down on Wednesday. Two young ladies were passing under the sign and narrowly escaped being injured by it.

M. D. EDINGER has sold his interest in the store of Kaley & Edinger, to A. Kaley, who will continue the business. The new firm have our best wishes.

WE are informed that the James A. Garfield Post No 80, G. A. R., will give a grand ball and camp fire at the court-house hall, February 22d. Full particulars will be given next week.

CHARLES SEYERS, living near Inavale, while assisting Humphrey Smith in hauling logs over the river, was accidentally knocked down by a log and had his leg broken. Dr. Mosena is the attending physician.

THE Golden Eagle clothing store, to be up with the times, has received over two hundred samples of suitings from which you can select and have made to order a garment warranted to give satisfaction.

THE city meat markets have been compelled to raise the price of meat, from the fact that cattle hogs, etc, have been gradually increasing in price, while they have been selling at old prices and losing money.

GENERAL ORDER No 12, from the state G. A. R. headquarters, just received at our office, is to the effect that any city that will donate 160 acres of land to that body, they will permanently locate the state encampment there. Can't our city secure it?

WE are in receipt of the initial number of the Beatrice Daily Express. It is a handsome six column folio filled with the latest telegraphic news, etc. It should receive the unanimous support of the people in that locality. It is a credit to Beatrice.

POSTMASTER McNITT wants it understood that the postoffice department is not run on standard time, and especially on Sundays. THE CHIEF office, however will adhere to standard time and aim to keep at least 24 minutes ahead of everything.

IT is wonderful how so many people appreciate low prices, and you can see at most any time people going out of the Golden Eagle clothing store with smiling faces, for they know that they have a good bargain, and carry home full value for their money.

GUS ROACH, wants to buy the land where the fair grounds are located, and we understand has made a standing offer of \$35 per acre. It seems to be the causal observer, that if it is worth anything, and is for sale it should bring that sum. It certainly should not go for less money.

THE best nickel cigars at Lindley's. LINDLEY still has that water white coal oil.

INAVALE was well represented in Red Cloud Saturday.

PLEASE the commissioners proceedings in another column.

Mrs. SHIREY, sister of Robert and John Shirey, has returned to York.

SPANOGLE & FUNK are preparing to hold a grand closing out sale to make room for their large spring stock.

THE W. C. T. U. will meet at the residence of Mrs. Dwight Jones on Wednesday, January 30, at 2 p. m.

LOST.—A black and white pig, weighing about 55 pounds. Owner will reward the finder. Leave word at this office.

A. KALEY has bought his partner out and is now ready to see his friends and patrons. Still at the old stand. Call and see him.

Mrs. C. WIENER, wife of our new clothing merchant in the State bank block, arrived in Red Cloud last Tuesday night from Chicago.

Gov. GARBER, returned Sunday night from Denver, where he has been ruminating for the last ten days. The Governor is well pleased with Denver.

OUR county treasurer, Charles Buschow, went to Lincoln, the first of the week to make his settlement with the state treasurer. Bro. Buschow, is one of the best county officers in the state.

MARRIED, by the Rev. Geo. O. Yeiser, in Red Cloud, on the 14th of January, 1884, Mr. W. F. Black and Louisa A. Kitzing. By same on the 20th, Mr. Hugh C. Dunkin and Miss Flora A. Bayles.

REV. M. L. WILHELMS, will deliver his lecture on "Angels" next Sabbath evening, at the court-house. This lecture is very highly spoken of, and the public is cordially invited to attend. Admission, free.

THE following gentlemen and their families have located near Blue Hill, where they have purchased farms. They will make good settlers and are welcomed to the county: Daniel Trine, Wm. Bostock, Jas. Moley.

THE United States mail service on the B and M should be increased, the agents now on are unequal in force to cope with the large and constantly increasing mail that is thrown over that route. A great deal of matter is carried by every day.

Mrs. SHEPARD, who was operated on for dropsy a few weeks ago, was again operated on a few days since, and a patent pail of fluid taken away from her. Her physician, Dr. Mosena, reports the patient in as good condition as could be expected.

JOS. MARSHALL, brother-in-law of T. Taylor, living one mile and a half west of town, is lying very low, and is not expected to live. He has a complication of diseases. This young man came from Indiana last fall for his health, but did not arrive soon enough to do any good.

LAUTERBACH prepared the supper for the leap year party last Monday night. This was a streak of diplomacy on the part of the ladies, for if there is anything that pleases the sterner sex it's a square meal. This the boys will ever remember and sigh for leap year parties every week.

HARRY SWEET, on last Friday afternoon while attempting to drive over the railway crossing, was run into by an engine and the buggy badly shattered. Harry was thrown out and slightly injured. An instant later, and the accident would have been a serious one for Mr Sweet.

DR. HALL, left Monday night for New York city, where he will remain the balance of the winter. During his absence Doctor Damerell will stay at his house nights and answer all calls. The doctor wanted to keep posted on Red Cloud events, and consequently ordered THE CHIEF to his address.

THE Rev Stuart Crockett, has resigned the rectorship of Grace church, Red Cloud, and accepted a position at Quincy, Ill., and departed for his new field of labor last evening. The reverend gentleman has the best wishes of our people, in whatever position in life he may be called to.

OVER one hundred car-loads of rails have been received at this station, presumably for the proposed railway from Red Cloud to Stockton, Kansas, mention of which was made in THE CHIEF several weeks ago. It has been reported that 400 cars of material are to be deposited in the yards for that purpose.

Mrs. MARYATT, wife of O. H. Maryatt, went to the depot Monday night with some friends. She got into a hack to return to the city, when the team became fractious and ran away. Mrs. Maryatt became frightened and jumped from the vehicle, falling with great force to the ground, causing concussion of the brain. She now lies in a dangerous condition, however hopes are entertained of her immediate recovery. Dr. Damerell is the attending physician.

**FOR SALE**  
A valuable business property, in the center of the city, on the main street will be sold cheap for cash. For particulars call on  
24-w W. B. ROBY.

**PROGRAM of the Philomathian society**

was successfully carried out on Monday afternoon, January 21. The society was called to order by the president, and the election of officers followed. For president, Cordie Sherer; first vice president, Gertie Brakefield; second vice-president, Jesse Warren; secretary, Lillian Vance; treasurer, Carrie Miner; critic, Lillie Letson; usher, Susan Harris; librarian, Gardie Wilhelm; then followed the program:

- Music.....Society
- Select reading.....Sam Garber
- Declamation.....Katie Reigle
- Solo.....Geo. Newhouse
- Recitation.....Carrie Newhouse
- Select reading.....Mary McKinnie
- Declamation.....Bert Grice

Select reading.....Bert Brewer  
Recitation.....Jessie Warren  
Paper—Carrie Vance, Oscar Patmor, eds  
Music.....Society  
The question for debate, was resolved that fire is more destructive than was water. The president, Cordie Sherer, being one of the leading disputants, the first vice-president, Gertie Brakefield, took the chair during the debate. The debate was decided in favor of the affirmative.

Oscar Patmor being obliged to be absent, his part of the paper was ably read by Leroy Miller.

The critic being absent her report was read by Gertie Brakefield.

On motion the society adjourned to Monday afternoon, February 4.  
LILLIAN VANCE, Sec.

**A PLOW FACTORY**—Among the many institutions that have been suggested for the benefit of Red Cloud, none would be more beneficial than a plow factory. There would be a great demand for such articles in this and adjoining counties, and as they could be made as cheap, if not cheaper, than they could be sold by middle-men, one would naturally infer that the institution would afford a good paying and profitable investment for any man or company that would manufacture agricultural implements in our city. We have the best facilities for their manufacture, and as our town is located in such a position as to command a trade of this character for a great many miles, it would certainly pay any man of experience and capital to locate here for the purpose their of manufacture. A splendid trade could be established here without much trouble. Our city is three hundred miles from Denver, and Kansas City, and about two hundred miles from Omaha, and is located in one of the most fertile agricultural regions in the west. There is a good opening then for some enterprising man in this city to make money in this particular business.

The Webster county Teacher's Association met at Blue Hill, Saturday, January 12. The program as published was carried out. Miss Zuella Wilson conducted her class nicely and was very interesting. Mr S. K. Logan's essay on the needs of the grammar class was very good and contained many excellent thoughts. Miss Brownson's essay, Method of teaching intermediate geography, was excellent. Miss White's recitation deserves credit and was appreciated. Mr. Griffith Evans' essay on the methods of Welsh schools was very interesting and was listened to with marked attention. The next meeting will be held at Red Cloud, Feb. 9, 1884, program as follows:  
Decimal fractions, Mr. J. L. Springer.  
Orthography, Miss Gertie Sherer.  
Rhetorical exercises, Miss L. B. Albert.  
School government, Mrs. Judson.  
Relations of teachers and parents, Miss Hattie Holmes.  
ANNETTE PARSONS, Sec.

WHAT has become of our Burr Oak railway scheme? Has it died, or is sleeping?—Red Cloud CHIEF.

It has collapsed, ascended the tin-tube, gone up long before its birth. If you will talk B. and M. branch, then we'll send delegates to meet your delegation every other day.—Burr Oak Herald.

We "weally cawn't do it," brethren. We want all we've got, and are striving to get all we can. You see, Mr. Herald, that in "this great and glorious climate of Nebraska," railroads go where it will do them the most good, and therefore, it is only a question of time when the Burr Oak road will come to Red Cloud. Do you tumble, judge.

We clip the following item from the Blue Valley Blade, Seward, Neb. We appreciate the kind words the more, from the fact, that Bro. Betser and ourself "picked type" on the same paper for a number of years:

Mr. A. C. Hosmer, who recently purchased the Red Cloud CHIEF, has enlarged the paper to a six-column quarto and otherwise greatly improved the it. Mr. Hosmer graduated from the Public office, Clinton, Illinois, where we took our first lessons in the "art preservative."

**GRAND LEAP YEAR BALL.**

The ladies of Red Cloud, having determined to take advantage of the privileges allowed them by a time honored rule of etiquette in reference to leap year, inaugurated their initiatory entertainment last Monday evening, at which time and place they gave a grand ball and banquet to their gentlemen friends. The ladies invited the gentlemen, and acted escort to the scene where the Goddess Terpsichore was holding forth. It was one of the very pleasant events of the season, and extremely satisfactory to their guests. The following persons were in attendance:

- Mrs. Morris and C. W. Kaley.
- Mrs. Bloom and V. M. Platt.
- Mrs. Platt and Frank R. Gump, J. Warner.
- Mrs. W. H. Strohm and J. G. Dodd.
- Mrs. Kaley and Ed. Becker, Mr. Bloom.
- Mrs. E. M. Perkins and Mr. Mitchell.
- Mrs. Mitchell and W. H. Goodall.
- Mrs. Dodd and G. S. Albright, Mr. Cromwell.
- Mrs. Garber and J. J. Garber.
- Mrs. Young and Mr. Highland.
- Mrs. Highland and Mr. Young.
- Mrs. Holland and Mr. Holland.
- Miss Clara and Will Houghton.
- Miss Camp Becker and Mr. Beechie, L. H. Wallace.
- Miss Morris and Chas Platt.
- Miss Yeiser and Wm. Dickinson.
- Miss Mamie Platt and R. D. Yeiser.
- E. M. Perkins.
- Miss Sadie Becker and John R. Shirey.
- Miss Gertie Sherer and D. Kaley.

At a proper hour the ladies invited their guests to a sumptuous banquet served a la American, at Lauterbach's restaurant, after which the ladies and guests returned to the hall and made merry until the small hours. The ball was a decided success.

**WALNUT CREEK.**

A week or so ago you published a communication from "S. W. Corner," giving amount of sorghum syrup manufactured in this precinct. The amount manufactured was considerable, notwithstanding the fact that there is no market for it except for home consumption. Now we all know that sorghum does well in the Republican valley, and if there was a cash market for the product sorghum would soon be our leading crop. The question arises, why can't we have a sugar refinery? and why can't the business men's exchange, of Red Cloud, take hold of the matter and push it through? The farmer's prosperity is the merchant's, and they should start the ball rolling. Let them get the refinery and we will "raise Cain."

**ELM CREEK.**

Everett, infant son of Mr. and Mrs. Patrick, died last week of diphtheria and lung fever. There are several other cases in this neighborhood.

The Sabath school at Elm Creek was reorganized last Sunday. W. H. Thomas was elected superintendent, Joseph Chambers assistant, Samuel Chambers secretary and trustee, E. Ferguson and E. Beal choristers.

Farmers are complaining about their hogs not doing well during the cold weather. Tommy Chambers has lost about thirty head of hogs in the last two weeks with cholera.

The youngsters are preparing for a large exhibition at the close of Miss Arnold's school.

A race came off the other day. A man about seventy years old gave a hog such a race that it took cholera a short time afterward. The man is not any the worse for the race. Taw.

**INAVALE.**

The corn is at last gathered, and every crib is filled. Great piles of golden ears are heaped up on the ground on nearly every man's farm.

A spelling match was held at the East Inavale school house recently. Mr Burris had the honor of being the champion speller.

A protracted meeting is now being held at Mt Hope, Rev Jacob Martin, assisted by Rev John Harvey, officiating. The Rev Ball is also trying to start a protracted meeting in the Inavale school house. In this he will probably not succeed, as the people of Inavale are not easily "Balldosed"

Mr Charles Severn had the misfortune to break his leg last week. He was to haul a log across the river, and as the log reached the bank he tried to throw a hand spike under it. He was caught between the log and the bank and his leg was broken between the knee and ankle. Dr Mosena is attending him with very good success so far.

Mr Finley Hale is intending to start north this week on a prospecting tour.

Mr Charles Hunter, who is buying large quantities of corn, is paying from 2 to 5 cents per bushels more than the market in Red Cloud. This speaks well for our citizens. X X APOLLO.

**U. S. LAND OFFICE.**

Patents for land in Webster county, have this day, January 21, 1884, been filed in this office for delivery, as follows:

- John Babbey, Sylvester H. Brooks
- Edward Engler, Alice Sellers.
- John L. Lancaster, James Shaw.
- Sam'l L. Downs, Elver W. Tuttle.
- Christian Neilson, Wm Shoop.
- W. P. Hawthorne, Felix Harwart.
- Wm. Cather, Leonard Watson.
- Edward Messier, Charles Hunter.
- Geo. Emerton, Wm. Davis.
- S. F. Bartlett, John C. Colby.
- John McCallum, Geo. Greig.
- G. Wegmann, S. Gregorenson.
- Chester H. Potter, Daniel G. Norris.
- John P. Johnson, Otto Skyveler.
- Bernhard Kuhn, Joshua Harris.
- Franz Buschow, John Lukas.
- Thadus Arnold, W. M. O. Banion.
- Oscar Arnold, F. W. Moody.
- Joseph Burr, W. A. Howard.
- P. C. Hubbell, Charles A. Teel.
- Harvey A. Bailey, James S. Jewell.
- Dudrick Valleria.
- S. W. SWITZER, Register.

WANTED.—A good girl or woman to do housework in a private family. Good wages paid. Enquire at THE CHIEF office.

**GUIDE ROCK.**

The weather is very fine.

Cattle are beginning to straighten their backs.

A. P. Hagan's little boy has been quite ill. He is getting better.

W. Hull, of Kansas, preached to the people of Willow Creek last Sunday. Call again Quaker friends.

Sabath school is being carried on at Willow Creek school house. C. P. Norris is superintendent and Mr. Greenhale assistant. They are making a success of it. We say keep up the good work.

We noticed the other day that Father Norris brought home a \$125 buggy, bought of Spanogle & Funk. We also saw Mr. and Mrs. Norriq trying their new buggy.

We understand, from good authority, that Willow Creek is to turn out two weddings soon. We hope to be able, with our editor, to help eat the cake. Jackson, give us an invitation.

The farmers in this precinct are generally done gathering corn. The yield is splendid.

Mr. S. Burner's corn yielded about 70 bushels per acre of a large and fine quality.

The query in this country at present is whether tame grass will prove a success or not. It is settled in my mind. If you please, go and examine S. Bruner's grass of three years growth. Blue grass, timothy, clover and orchard grass. Examine W. H. Barcus' clover and timothy that was sown last April.

James C. Barcus, of Indianola, was down this week visiting his brotner and family.

If you wish to see the squarest Holenstein calf west of the Missouri examine Mr. Barcus's herd.

We believe that F. Shular has the finest grove in Webster county. He has 40 acres of trees that have been planted for six or seven years. They are from 25 to sixty feet high, and the walnut trees bore last year.

Mr. Jones says this county beats the world on corn and oats. Iowa for cold weather and Nebraska for big corn.

We were up and examined Thadus Ornal's new residence. It would be an ornament to any farm in any country. Father Ornal is rather feeble this winter.

Daniel Hull was back to Old Missouri on a visit this fall. He says give him Nebraska and they may have their muddy roads.

Guide Rock is having a big boom this winter. Cowles is to have here in the spring.

G. W. Frammer is finishing up one of the finest farm dwellings in that section of the country.

Mr. Greenhalch has eight blooded pigs. Webster county will not be behind in good stock.

Mrs. Margaret Guy cleared about \$400 from ten cows during the past season, besides raising 12 calves. Farmers, that is better than having to much old machinery setting out in the weather. LOGGOTEE.

**AMBOY.**

Amboy is liable to become the largest city in the State. Its population doubled in one day.

The millers of Amboy have been compelled to put in an extra run of burs to meet the demand.

Mrs. Good, of Red Cloud, who has been visiting in Amboy, has gone to Nuckolls county.

Mr. Baker is busy building on his new farm. His folks are well pleased with this country.

The report that Mrs. Polly was lecturing was a mistake.

Sunday school and preaching was well attended last Sunday.

Mr. Samuel Geiger will play at the hop on Wednesday night.

On Sunday there was an unknown party of young ruffians passed through Amboy, and tried to make themselves known as gentlemen by running their team and shooting and howling like wild men.

The teacher has given entire satisfaction so far, and we think we have a good school.

There were a couple of ladies from Red Cloud visiting the school last week. We could not learn their names.

The weather is fine. WIND.

**COWLES.**

And still they come and yet there is room for more. A gent from the east has purchased the Fisher farm, east of Cowles. We did not learn his name.

They are fixing up the grain elevator at this place. They are taking out the old and putting in a new steam engine.

Grants Teal's latest improvement is a new hog pen, in which to keep his porkers. We like to live by such enterprising neighbors. ENAMI.

**RED CLOUD MARKETS.**
