

STORIES ON THE ROAD.
Commercial Travelers at a Wayside Inn—
Something to put in a Gripack.

"Gentlemen, I almost envy you the positions you fill; your experience of the world; your knowledge of business the changing sights you see, and all that you know."

This warmly expressed regret fell from the lips of an elderly pleasure tourist, last August, and was addressed to a semicircle of commercial travelers seated on the porch of the Lindell Hotel, St. Louis, Mo.

"Yes," responded a New York representative of the profession, "a drummer isn't without his pleasures, but he runs his risks, too—risks outside the chances of railroad collisions and steamboat explosions."

"What risks for instance?"

"This, for instance," said Mr. D. W. Franklin, who was then traveling for an eastern firm, and is known to merchants in all parts of the country. "The risk—which indeed, amounts almost to certainty—of getting the dyspepsia from perpetual change of diet and water and from no fixed hours for eating and sleeping. I myself was an example. I say was, for I am all right now."

"No discount on your digestion?" broke in a Chicago dry goods traveler, lighting his cigar afresh.

"Not a quarter per cent. But I had to give up traveling for a while. The dyspepsia ruined my paper. Finally I came across an advertisement of Parker's Tonic. I tried it and it fixed me up to perfection. There is nothing on earth, in my opinion, equal to it as a cure for dyspepsia."

Messrs. Hiscocx & Co. of New York, the proprietors hold a letter from Mr. Franklin stating that precise fact. Parker's Tonic aids digestion, cures malarial fevers, heartburn, headache, coughs and colds, and all chronic diseases of the liver and kidneys. Put a bottle in your valise. Prices, 50c and \$1. Economy in larger size.

The Keystone of Health.

How can you expect to feel well, or even enjoy life, when you go about with a hacking cough? The fool, in his wisdom, says there is no cure for it, but the wise man hires him to A. Lindley's drug store, and gets a bottle of Dr. Bigelow's Positive Cure, and at once gets well. A trial bottle costs nothing.

Joy, Joy to the World.

If you meet a man who looks as if he had lost all his friends, had his house burned down and business destroyed, just make up your mind that he either has dyspepsia or his liver is out of order. The best thing you can do for such a woebegone individual is to advise him to go to A. Lindley's drug store and get a bottle of Dr. Jones' Red Clover Tonic, which will cure him without fail. Also an infallible remedy for pimples and blotches on the face. Only 50 cents a bottle.

A Life Saving Present

M. E. Allison, Hutchinson, Kan. saved his life by a simple trial bottle of Dr. King's New Discovery, for consumption, which caused him to procure a large bottle that completely cured him when doctors, change of climate and everything else had failed. Asthma, bronchitis, hoarseness, severe coughs, and all throat and lung diseases it is guaranteed to cure. Trial bottles free at Henry Cook's drug store. Large size, \$1.

How Watch Cases are Made.

This process of manufacture was invented by James Bos, who started in business in 1854, and the methods and tools used in making these watch cases are covered by patents. This is the only watch case made under this process. For many years the introduction of these goods was slow, owing to popular prejudice against "plated" goods, but gradually the public learned that the James Bos' Gold Watch Case was not a cheap gold-washed or electro-plated article, but was made of genuine gold plates of standard quality and thickness. Conscientious adherence to the determination to make the best watch case ever put on the market, and the adoption of every improvement suggested, has made the James Bos' Gold Watch Case the STANDARD.

In this watch case the parts most subject to wear—the bow, crown, hinges, thumb-screws, etc., are made of solid gold.

Send 5 cent stamp to Elyton Watch Case Factory, Philadelphia, Pa., for handsome illustrated pamphlet showing how James Bos' and Elyton Watch Cases are made.

(To be continued.)
