QUESTION.—Why does A. S. Marsh sell more dry goods than all the merchants in Red Cloud.

LADIES will do well to look through the stock at the Golden Eagle before buying their shoes.

O. H. MARYATT makes a specialty of shoe repairing and warrants all work.

THE Red Cloud CHIEF asks us to give it something fresh. We don't know where it would find room to put it. What isn't fresh about THE CHIEF wouldn't furnish a sinch for a wasp. It's too utterly fresh.—State Journal Topics.

Correct, Mr. "Topics." Thanks for the compliment. Children and fools will tell the truth sometimes, and while our "too, too freshness" scores a home run, your stale wad never reaches first base.

THE SUNNY SOUTH

The spring time in the south is grand. The forest trees are in full leaf and every open space is filled with wild flowers, which are very different from the flowers in Nebraska. The farmers at present are planting their peanuts, or gober peas as the natives call them. They are a very profitable crop, but a little tedious to get ready for planting. They have to be cracked with a hammer, one at a time and the pea taken out of the hull. One and one-half bushels plants an acre. They are planted and cultivated them very much like beans are cultivated in Nebraska. They are a very tedious crop to gather. After they are pulled and dried they have to be picked off by hand and sacked for market. One merchant in McEwan has on hand 50,000 bushels for the fall trade. THE CHIEF reaches us very regularly and is read with interest by the citizens. It is passed around and read until it is worn out. We hope "Gad" will write often for the paper, as her letters are very interesting to us. L. A. A.

NOTES BY THE WAYSIDE

In passing from Red Cloud to Guide Rock there are some fine farms. Among the lucky owners are John Boesch, who has a fine place and is a thrifty farmer, and Mrs. M H Goar, who, with her two sons, are farming about 200 acres.

J H Smith, of Red Cloud, is doing some fine lightning rod work around Guide Rock and his patrons say he deals fair.

The members of the I. O. O. F. are about to start a lodge at Guide Rock. Mr Fisk, of Elgin, Ill., has arrived to take charge of the new cheese factory, to be located on the farm of S. Martin.

The cheese factory at Guide Rock appears to be doing a good business. We think Webster county is well supplied with the dairy business, five cheese factories and one creamery within 12 miles of Red Cloud.

TRAVELER

CAUGHT in the act. A man passing hastily down Webster st, yesterday attracted the attention of everybody, but his haste was soon explained, as he was on his way to purchase bargains at Wright & Wallace's.

New square shawls just arrived at Marsh's.
