A VERY heavy rain fell on Tuesday night. It flooded the streets and during the night filled the cellar just completed for C Wiener's new brick, with fix or eight inches of water. THE Guide Rock folks are solid for the county bonds. THE CHIEF believes

that a vote for the bonds is a vote for economy in county finances, and should by all means be carried. THE Rev. H. McMeekin will deliver lecture next Sunday evening, at the Presbyterian Church on "The Spirit of

Philanthropy as illustrated by Chinese

# COUNTY BONDS. A Fow Selient Points in Belation

to the Same. There seems to be considerable mis

unperstanding throughout the county in regard to the bond question. N two persons, in some of the precincts. seem to understand the matter exactly alike. We have taken no little amount of pains to inquire into the true in wardness of the matter, and from what we have been able to learn, can see no good reason for opposition to the plan of ussuing bonds as proposed by the board of county commissioners. The citizens of Red Cloud precinct are disposed to act fairly in the matter and do not covet the lion's share of the milk in the bond "cocoanut." That improvements for which the bonds are askedare the sadly needed is 's fact which none can deny. The annual outlay for bridge repairs since the organization of the county to the present time has been far in excess of what the interest on the bonds will be if issued, and still during that time the people of the south part of the county have been

obliged to swim the river on an average of two or three months during each consecutive year in order to reach the markets. Meanwhile the people of the northern part have been subjected to many similar annovances Forbearance will cease to be a virtue by reason of poor bridges and in many places no bridges at all over the smaller streams. This state of things has had a tendency to cripple business and proved detrimental to the best interests of the county at large. The board of commissioners offer a remedy for

the evil and it now remains for the people to accept or reject it. Their proposition to issue bonds to the amount of \$60,000, due in twenty years and bearing six per cent interest will not impose any appreciable burden upon the tax payers. In the year 1883 the total valuation of taxable property in the county was \$1,333,009.36; in 1884 \$2.199,423, being an increase of \$866.413.64; but allowing an increase of \$500,000 annually, which is \$366,413.64 less than the increase of 1884 at the end of 20 years the county would have over twelve million dollars of taxable

property, and less than a five mill tax conducted. It has been said, and, we ould pay the entire amount of the **RUFUS MIKSCH** house caught on fire bonds in one year, if that were neceslast Friday morning, and had it not been sary. It is estimated by competent for the timely aid the dwelling would engineers who have made the necessary have been consumed. Rufus returns surveys that \$16 000 will be needed to build a substantial iron bridge at Guide Rock: \$10.000 at Inavale, and \$20,000 at Red Cloud, leaving \$14,000 to be used in bridging the other streams THE following legal lights of Haztings. Attorney General Dillworth, H throughout the other portions of the county where needed. By using the W Cole, R A Batty, JD Hayes, J M Ragan and Mr Cessna, were in Red old bridges now at Guide Rock and In-Cloud and expaunded Blackstone. etc., avale for the smaller streams a considerable amount will be saved. In regard to the hue and cry that has been CORSETS and hoops at Mrs McBride's raised about two bridges near Red To RELIEVE the anxiety of his friends Cloud we have only to say that the es-Wiener informs THE CHIEF that the timates are these: A bridge at the water in the cellar north of the First mill, 204 feet span will cost \$8000. One National Bank will be taken out just as soon as it leaks through to China. Dr Denney will notify the \$12,000, or \$20,000 for the two bridges. One near where the present bridge is 400 feet span, would cost \$20,000 or just the same as both of the other A DISTINGUISHED citizen of Nebraska bringes, so it amounts to pay your will visit Red Cloud Monday. We money and take your choice, as the refer to Rev Dr Worthington, Episcoprice is the same either way. To

county. The advantages accruing to the poor man as well as the man in well-to-do circumstances is well set forth in the following lines:

Taking people exactly as they are, and probably ever will be, nine out of ten never did or never will save money except by the week or month. Systematic efforts accomplishes substantial results in any undertaking. save a certain sum every month or week, is certain to result in twelve or fifty-two times that sum every year. The young man or married man who expends his entire income from month to month, and year to year, on living expenses, invariably regrets, as he grows older, his failure to save and acquire some property in his old age. It is poor management to pay rent

for the use of a house, when the rent paid in weekly installments on the value of the house, would in a few years, pay nearly or quite the cost of the property, and the owner be reaping the accuring increase in value consequent upon the improvement he could make compiratavely no outlay but that would, each year, make his property more homelike and valuable. hey have proven in every instance so far as our information goes where honestly and economically conducted of great pecuniary benefit to both borrowers and stockholders, who place their money as an investment. Those who do not care to borrow, invest their savings every week at good interest, which they would otherwise fail to save. If it were not for these weekly savings every dollar of the money thus invested would. in all probability be expended, and instead of having at the end of five or six years \$500 to \$1,000 as the result of \$1.25 to \$2.50 put by each week, they would bave little or nothing to show as savings. It is an admitted fact that loan

#### THEBOND QUESTION

EDITOR CHIEF: Having talked with quite a good many people in regard to the bridge bonds. I find that the general belief is that our county commissioners are intending to put in one bridge east of Red Cloud, and one at the mill, and just repair the old bridger at other points. The bonds can not be carried unless that idea is changed. What the people demand in that one, good, substantial bridge be built at each of the three trading points in the county, then if extra bridges are desir-ed across the river let the precincts build them that are directly inter of three good bridges are put across the river at points above named. The S S Weils started to his timber claim in Kearney county, to improve the place and cultivate timber. Coas Fish has returned from his trip money is to be expended before they

last | cast their ballots, and I would su Saturday between Wells boys and that our county commissioners anuounce through the papers, where they propose to build the bridges across Kearney county "Blues."
