CITY NEWS.

COURT next week.
For the best line of shoes for men, women, and children, go to the Golden Eagle.

Rev. J. G. AIKINSON has decided to take the pulpit of the Congregational church.

The slight shower on Tuesday evening was a God send to the small grain and fruit crops hereabouts.

Red Cloud still booms and our merchants and business men generally are all doing a prosperous business.

Last week Sheriff Warren took Mrs. Thos. Brown, an insane woman, from Blue Hill to the asylum at Lincoln.

Will Guz, formerly night operator at this station, was in town Saturday to visit his sister—or someone else's sister.

CANDIDATES are again becoming numerous for post-office portfolio. We will name the new P. M. in the dim future.

Some speculators were in town trying to buy some lots with the intention of putting up some dwelling houses for rental this week.

We respectfully call the attention of our readers to W. H. Howe's new advertisement. Mr. Howe is doing a land office business in the windmill business at Cowles.

ALEX STEWART has nearly recovered from the injuries received in the Hubble disaster and is again handling the throttle on the "cannon ball" run from Red Cloud to Atchison.

L. H. WALLACE of Wright & Wallace, starts for Chicago and New York, to purchase an elegant line of goods for their summer and fall trade. Wait for latest styles and cheapest prices.

J. B. NELL, proprietor of the Red Cloud music store, has received the appointment as general agent for the celebrated Western Cottage organ for the entire Republican Valley country.

At the last meeting of the city council three good ordinances were passed, and the same appear elsewhere in today's paper. Read them and see that you do not lay yourself liable to arrest for non-compliance.

DR PARKER, who recently left this beautiful climate, we presume for his health, is sojourning, we understand, in Pennsylvania. A goodly number of people will be very much pleased to learn of his whereabouts.

The sidewalk to the depot is rapidly approaching completion. The wide cracks between the boards have not been battened as yet, but this will probably be attended to, otherwise copper toes shoes will be in great demand, accompanied by an occasional sore word.

Mr. Brown, track foreman in the Red Cloud yard for a number of years past has been promoted to the position of track inspector on the new line from Republicans city. John Peterson takes Mr. Brown's place in the yard. Both are good reliable railroad men.

Mr. A. H. BROWN, proprietor of the Red Cloud Marble and Granite Works, is absent this week on a business trip east, his point of destination being Morris, Ill., where he goes to set up one of his fine marble monuments. It is quite a feather in Nebraska's cap when the eastern states have to send here to get tombstones.

As near as we can ascertain Red Cloud has gained 400 inhabitants in the last ten months. According to the late census she would have about 3000 inhabitants and is still booming. The Gas City of the Republican Valley is bound to be a prosperous city, and Webster county one of the most prosperous in the state, that is if enterprise and good government shall be the order of the day. It is our earnest wish that the people of this county should be as happy and contented as the people of any other county in the state.

The new sidewalks ordered by the council should be laid closer together. The boards when laid an inch apart become inconvenient to walk on. One half inch is plenty wide enough to lay boards.

The nearest approach to royal pageantry that has appeared on our streets of late is that little Dutch horse doctor with his two four-horse rigs, a diminutive pony and brass band on parade.

HENRY COOK is branching out in good shape. A few days ago he bought the lot north of Abe Kaley's store, and since then has bought Mizer's frame store building and will move it on to the same.

The council proposes to make people who have foul bog pens, etc., clean them up and keep them clean or take the consequences. It is a good law and should be rigidly enforced without fear or favor, especially during the warm weather.

WELL, have you been before the board of equalization? Is the question asked of some of our prominent citizens whose assessments did not pan high enough according to their reputed wealth. If you do not want to pay taxes don't get rich. Play rich, boys.

DR. HIGHLAND is too utterly too "Don't talk bridge to me," says Ed. It's a boy, and weighs the usual number of pounds. It came to Red Cloud on a last Monday. "All promenade" will be the principal call in the dance of life in the next few years. We extend our best wishes.

G. W. BECK, of Riverton, general agent for Nebraska for the Hayward hand grenade, was in the city this week and gave an exhibition of putting out fires by the use of a hand grenade. He built a structure of dry boards, tarred and greased them with coal oil, and set fire to them, and when the fire was leaping wildly over the boards he threw two grenades and quenched the fire without any apparent trouble. It is a big thing, and people should be supplied in town and country. More hand grenades are being ordered by Mr. Beck & Fulton have been appointed agents for Red Cloud. Read the advertisement in today's paper.

BEVIA LOCKWOOD the notorious eloquent, Washington lawyer and ex-candidate for the Presidency of the United States, will deliver a lecture in Red Cloud about July 1st or 2d. Every one should make it a point to be present. The exact date will be announced next week.

The Red Cloud Helmet made its first appearance this week. It is a neat, new six column quarto, with democratic proclivities and allows that in its bright lexicon of youth "there's no such word as fail." We extend its quill driver the right hand of fellowship and heartily wish him success.

ALONZO CURE one of the staunch democratic brethren, and Mr. Britton, of Catherton, took passage in a prairie schooner a few days since and set sail for Oberlin, Kansas, where they each took a timber claim. They inform us that movers are going in fast, and nearly all the land is being taken up.

A SEVERE hail storm passed through the western part of the state on Monday evening. Passenger coaches on the B & M had their windows knocked out by the hail near Stratton. At Grand Island and Phillips the windows of the depot were broken out, considerable damage was also done to growing crops.

W. N. RICHARDSON shipped a thousand and head of cattle this week, or about sixty car loads, making at least a total value of \$50,000, providing the animals average \$50 a head. The freightage on the sixty cars amounted to something like \$6,000, provided each car load cost \$100. How is that for a big shipment of cattle?

"A BRIDGE, a bridge! My kingdom for a bridge!" Let us all reason calmly together and devise ways and means by which we may arrive at some understanding on the bridge question. We must have at least one good bridge over the Republican south of town, and that soon. Let's throw aside all personalities and get down to business.

On Saturday a running race took place at the old fair grounds track between Ruthcock's pony and a Kansas roan for \$25 a side. The pony took a short cut for the goal but lost his bearings and skipped out over the prairie at a lively rate, losing the race. Later in the day the race was repeated for \$50 a side the roan again winning. The Jaywalkers retained home greatly elated at their success.

The sunset scene on Sunday evening last was sublimely grand beyond description, exceeding even the usually occasional evening exhibitions so often witnessed in this land of beautiful sunsets.

The following was furnished by D. Lutz: "David Lutz may be an alliteration and a somewhat fancy-fancying fellow feeling, and carefully considering characters concludes Case can cut quite a figure in another's Helmet. The assessors returns show the number of domestic animals in Webster county to be as follows:

MANY people in this city and the state will pleasantly remember "Cash" L. Mather, the founder of THE RED CLOUD CHIEF, and for a long time holding cases in this office, being at one time connected with the legislature and afterwards postmaster of the city. He is now a compositor on the Atchison Globe, and his eldest daughter is a brilliant member of the Atchison high school graduating class.—State Journal "Topics."

MARRIED, in Salem, Jewel county, Kansas at the residence of the bride's parents, June 15th, 1885, Dr. John L. Springer to Miss Inez Burtch, Rev. M. J. Bailey officiating. The doctor was formerly a resident of Red Cloud, having studied Homoeopathy under the tutelage of Dr. Tully. Let the joys of the happy couple may continue to increase as they travel life's journey. It is the earnest wish of their many friends hereabouts.

EXACTLY.—Last Saturday the "Great and Good" received a mammoth hen egg from Mr. R. D. Carrier of Cowles, which measured 8 1/2 by 7 1/2 inches. It is the largest egg we remember ever having observed. If a fellow could get a dozen good hens that would pay attention to their business and lay a dozen eggs a day of that size there would be no reason why an editor should go hungry.—O, ahead!

THE query is, how did THE CHIEF stand on the bridge question. After reading the last issue one would suppose it was in high gear over the deficit.—Herald.

To the readers of THE CHIEF for the past two months there is no "query" (whatever that may be) as to its position on the bridge question. THE CHIEF has been in favor of bridges first and all the time. However we do not believe in bawling over spilled milk nor bucking against the inevitable, hence as the matter has been settled by the ballot we accept the result as gracefully as though it had been different, believing that everyone has a right to his own opinion.

Sunday-school Entertainment.

Last Sabbath was a memorable day for the M. E. Church in general, and particularly so for the Sabbath-school scholars and patrons of the M. E. Church of Red Cloud. It being the anniversary of Children's Day they were given the freedom of the church and also an opportunity to contribute to the fund for the purpose of educating young men for the ministry. The interior of the building seemed to have been transformed into a veritable fairy bower. The bright evergreens and beautiful garlands of flowers woven by the deft hands of the ladies into almost every conceivable design; the sweet carolling of the feathered songsters perched in flowery nooks, and the bright happy smiles of innocent children combined to render the scene one of almost perfect enchantment. The program previously arranged for the occasion was carried out in the most pleasing manner possible. No small amount of praise is due the ladies and gentlemen who labored so earnestly and effectively in training the little ones to act their parts so well. Little Trimble's recitation "The Last Hymn" and "The Skeptic's Daughter" were rendered in her imminently impressive manner, giving ample evidence of hard study and ecclesiastical ability. "Beautiful Hands" by the infant class was splendidly executed. Minnie Lauterbach, in training the little ones to act their parts so well.
