Among them was a member of a Cabinet officer's family; two more were wives of Senators, while others were the wives and daughters of Representatives to Congress, department officials and wealthy residents.

The ladies were all craning their dear necks towards a show window that opened out on the sidewalk in a new restaurant and confectionery. In the window stood a large gas-stove and oven, and a white male cook at work -all open to the fullest view. Words and facial expressions of delight were heard from the lady spectators and seen on every hand. The cook was baking biscuits. His oven consisted of a steel plate, perfectly smooth and level, and about one and a half by three feet in size. Under it, at distances of two or three inches, were small flames of gaslight.

"See the biscuits raise!" exclaimed a dozen feminine voices. "And they don't burn!"
