It was recently rumored that the Atchison, Topeka & Santa Fe was meditating the purchase of the South Pacific Coast Railroad, and that the Southern Pacific Company had made a proposition to the Atchison, whereby that road, if it chooses, can have joint control of the Southern Pacific on advantageous terms. This offer is said to be under consideration by the Atchison owners.

A RECENT dispatch from Pittsburgh, Pa., says: Steel rails continue to meet with a steady demand, at thirty-five dollars to thirty-five dollars and fifty cents for heavy sections, cash at mill. It is expected that the demand this year will be sufficient to absorb the entire production of all the mills. The mills are sold several months ahead, but is believed by those who are well informed that prices will not go much higher.

There has been a great deal of trouble at the mines of Binney & Co., and Carrollton & Shaffer at Sharon, Pa. One night recently some person turned a stream of water into the Shaffer bank, flooding it so that work had to be suspended. A number of miners were put on guard at the mouth of the shaft and they were attacked by a party from the other bank. A battle ensued, in which fourteen shots were fired. No one was seriously hurt, but several received slight injuries. The law will be invoked to settle the trouble.

A BILL was introduced in the Cherokee Council at Vinita, recently, to make it a penal offense to skin dead cattle belonging to others. The purpose sought in the passage of the law was for the protection of stockmen. There was a universal belief among stockmen of the Indian country that in no small number of cases the range was burned by worthless parties for the express purpose of starving to death the cattle owned by their neighbors. Thus the "cow-skinner," as he is termed, profits by the cattleman's misfortune.

The dam across the Washakie Creek at Reedsdale, near Tamaqua, Pa., burst the other morning. A passenger train from Pottsville was just opposite the dam when it broke. The back-water struck the cars and ran into the heaters under them, causing a vast volume of steam to arise and envelope the entire train. The passengers were much frightened. The engine, however, escaped the flood and pulled the train safely through the water. The tracks of the Philadelphia & Reading Railroad were much washed and completely inundated, delaying all trains.

The burst was caused by the breaking of an old tunnel in the abandoned Reedsdale colliery.

SENSATIONAL SUICIDE.

Rev. H. D. Jardine, late Rector of St. Mary's Church at Kansas City, Mo., killed himself in the Vestry of a Church at St. Louis.

St. Louis, January 11.—Quite a sensation was produced when late last night the coroner announced that the Rev. H. D. Jardine, who was some weeks ago convicted before an ecclesiastical court at Kansas City, had committed suicide here. It appeared that he had consulted with his attorney regarding his case, had been looking in the vestry room of Trinity Church, of which Father Betts is the rector, Saturday evening Mr. Jardine and his attorney, Mr. Harrison, and Father Betts had a prolonged conference in the vestry room, during which Mr. Harrison very decidedly expressed the opinion that Bishop Robertson would not grant Mr. Jardine a rehearing of his case. This had some effect upon Mr. Jardine, and he manifested considerable feeling, repeatedly declaring his innocence of the charges for which he had been tried and the justice of his demand for a new trial, but when Father Betts and Mr. Harrison left, about one o'clock yesterday morning, it was thought that Mr. Jardine was seriously disturbed. When Father Betts arrived at the church early yesterday morning he observed Mr. Jardine still in bed, but did not disturb him, and went on with his daily services. Later, the sexton of the church went to the vestry room to wake Mr. Jardine and found him in a deep sleep and breathing heavily. He immediately called the sexton, and the sexton, who was on duty, on entering the room, detected chloroform and sent for physicians. On the arrival of the doctors they discovered that Mr. Jardine had taken chloroform and immediately vigorous measures were resorted to, but after three hours' continuous effort, they were obliged to announce that the reverend gentleman was dead. The coroner was notified, and after hearing the medical testimony, a verdict of suicide by chloroform was rendered. The body was prepared for burial and now lies in the vestry room. It will be taken to Kansas City for interment. The fact of the suicide was not made public until the day and received no public announcement until the coroner reported the case late last night. The case is likely to create a great sensation in church circles.
