The citizens should not forget that the city ordinance prohibits the lariat- ing of cattle or horses out in the streets or so that the ropes reach across the street. Take warning, friends, and prepare for the inevitable if ye fail in any particular.

ROY HUTCHISON, our new city marshal, calabossed his first man as marshal on Monday. The fellow had been imbibing too much spirits, fermented and had to be sheltered in the city bastille, beside the rippling waters of the murky Crooked Creek.

At the next session of the legislature the salary of the representatives and senators should be increased to five dollars per day. It is simply an injustice to ask a man to leave his business and spend his time in the interest of state affairs for the paltry sum of \$120.

The salary of the governor of Nebraska should be raised to \$5,000 per annum. As it is now the governor has to spend more money than his office allows him. The salary should be put at a decent and living figure so that a man could come out whole at the end of his term.

The ladies' aid society met at Mrs. Wallace's and the following officers were elected:

President—Mrs. Wallace.

First Vice—Mrs. Smith.

Second Vice—Mrs. Pope.

Third Vice—Mrs. Strohm.

Secretary—Mrs. M. W. Dickerson.

The name of C. G. Wilson has been suggested as a possible candidate for representative in our next legislature, from Webster county. The CHIEF could endorse Mr. Wilson freely if he succeeded in getting the nomination for that office, as he is a man that would be an honor to the county and one who would fill the place with ability and to the agrandizement of his constituency. We also understand that Mr. Newcomer will be a candidate to succeed himself.

THE Webster county congress held its regular session this week. We noticed Senator Wilson from Blue Hill in attendance. The senators have gotten down to business, and public matters right through.

THE city council should by hook or crook extend the corporation line east and west and take in a little more territory. The line should be a mile and a half each way, giving us more territory and more tax payers.

THE ONLY PRACTICAL PREVENTATIVE OF THE SO CALLED SWINE PLAGUE.

It has never been surpassed as an increaser of vitality and general system tonic. Acting directly on the urinary organs, it purifies the blood and engorges the liver, and regulates the bowels, it moves and prevents the formation of disease germs, and preserves the system from their natural constitution. Where it has been used to such animals in the prescribed doses, and other directions faithfully observed, it has proved to be a thorough preventive against swine disease.

IS AN EVIDENCE OF FAITH.

Whoever remedies I make the following offer: I will insure herds of some of not less than 25 head of cattle against disease at a year.

THE Ancient Order of United Workmen of this city are prospering finely. They have a large membership and on last Saturday night they received the applications of 29 candidates. The A. O. U. W. is a worthy society. Besides giving to its members a beneficiary certificate of \$200 payable at death to their family or legal heirs, the lodges hold fraternal intercourse, watches with the sick, and cares for distressed brothers and their families. It is certainly flourishing like the green bay tree.

THE Farmers and Merchants Banking Company will open their doors on Monday next for the transacting of a general banking business. The Company has been delayed for about sixty days from opening in consequence of the safe company failing to get their safe here as contracted. THE CHIEF wishes the new firm success and hopes they will be able to more than fulfill their most sanguine anticipations. The gentlemen connected with the bank are a guarantee of the soundness of the company. The incorporators are known to the people of this section as straight forward, upright, business men in every way capable of running a first class banking institution.

GENERALITIES.

The board of education met this week and organized.

The ladies' aid society meets at Mrs. A. A. Pope's this Friday afternoon.

JUDGE MCKEIGHAN has one of the finest three year old teams in the county.

JAKE SELLERS, city marshal of Orleans, and wife, have been visiting in Red Cloud this week.

Special sale of ladies' shoes for next 30 days at the Golden Eagle. Read large advertisement.

AN extra good man and wife wanted at the Amboy Mills to keep boarders. Good house and accommodations.

J. Q. POTTER and wife have returned from the state of Missouri to Webster county, where they will live in the future.

FRANK JONES, of Scott, has moved his family to Republican City. He will remain in Red Cloud for a few weeks.

At the meeting of the board of education on Monday D. B. Spanogle was elected president and A. J. Kenney clerk. Both are good selections.

THE Rev. G. S. Davis, of the Methodist church has been roaming around in the western country looking after his claim and playing cowboy. He returned this week.

JUDGE MCKEIGHAN now wears his left hand in a sling from the fact that he has his second finger broken in two places. The accident occurred while the Judge was hitting one of his horses.

MR. MOON, who lately bought the Elliott and Tomlinson farms west of the city, has about 200,000 feet of lumber on the farms which he proposes to make sheds of, and other improvements. THE CHIEF is pleased to note the enterprise of the Michigan brother.

WHAT has become of the street sprinkler? It seems to a fellow up the street (when the wind blows from Kansas) that a sprinkler is just what is needed to lay the dust. The enterprise is a laudable one, and one that is much needed provided the work is well done.

Now would be a good time to talk about water works. A good artesian well, or something like that, that would afford a source of water supply these warm dusty days so that a fellow could lay the dust in front of his business house, would be exceedingly joyful and decidedly refreshing.

Considerable complaint has been entered at these headquarters on account of the fact that the city duds have not ordered the crossings put in on the sidewalks on Seward street. This chain of walk should be completed soon, and the gap filled in between J. C. Myers' and the Methodist church.

IN the New Republic published at Lincoln, we find the names of several of our prominent business men who signed the petitions for saloons in this city recently. THE CHIEF fails to see where this movement will help the great cause of temperance one iota. Judicious treatment of all important questions does more for the cause than impudic attacks.

THE CHIEF'S "devil" is out on a ke for eight hours' work and fifteen dollars' pay. So far all is serene about the headquarters, though the chief gul threatens to strike unless a few R. R. delinquents pony up a few dollars for duds.—Argus.

Yes, our "ump" has gone to jine the g, still THE CHIEF will continue to published at the old stand' as usual in 1886 a year. Subscribe at once.

FRICKE COFFEE Friday night put out a fire that might have caused a con- tention had it been allowed to run its course. He noticed quite a light in the street, and wondering what it might be, hastened to the scene. Once there he seemed that a hammock on a liboring porch had caught fire. The ashes that had been thrown out a fence and were tanned into a by the wind. The officer put the out in its incipency, and thus saved the destruction of property. People should be careful.

To tell whether a town is alive or dead: The first thing you do after you step off the train is to hunt up the town newspaper office and invest a nickel for a number of that journal. Then seek some shady, quiet and secluded spot, where you may read without fear of interruption. If you find no home advertisements in the paper, you may know that the town is dead without going to further trouble; but if you only find four columns for each- ing matter in a forty-eight column paper, you may know the town is alive and too proud to keep the fact to her- self. Such a town is where the far seeing business man will locate every time.—Exchange.

THE Faith doctress, Miss Behahn, has certainly created quite a sensation in this city by her wonderful mode of treating the sick, and causing them to be healed through faith alone, several of whom in our city can bear testimony to our assertion. Our religious editor does not understand the exact nature of the treatment but suffice it to say that she has many followers, and many who call daily for her to cure the ills which flesh is heir to. Many marvellous cases have been treated, and many are they who claim to have been made whole through her faith. The lady uses no medicine whatever, but depends upon and cures by religious science alone.
