The First Symptoms

Of all Lung diseases are much the same: feverishness, loss of appetite, sore throat, pains in the chest and back, headache, etc.

In a few days you may be well, or, on the other hand, you may be down with Pneumonia or "galloping Consumption." Run no risks, but begin immediately to take Ayer's Cherry Pectoral.

Several years ago, James Birchard, of Darien, Conn., was severely ill. The doctors said he was in Consumption, and that they could do nothing for him, but advised him, as a last resort, to try Ayer's Cherry Pectoral.

After taking this medicine, two or three months, he was pronounced a well man. His health remains good to the present day.

J. S. Bradley, Malden, Mass., writes: "Three winters ago I took a severe cold, which rapidly developed into Bronchitis and Consumption. I was so weak that I could not sit up, was much emaciated, and coughed incessantly. I consulted several doctors, but they were powerless, and all agreed that I was in Consumption. At last, a friend brought me a bottle of Ayer's Cherry Pectoral. From the first dose, I found relief. Two bottles cured me, and my health has since been perfect."

Ayer's Cherry Pectoral, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass.

THE LESSON OF LIFE.

In addressing Sunday School a while ago a speaker said to the boys: "Always be kind to your little sisters."

Now I never had a little sister, and I once tried to be kind to another fellow's sister, but she had a cruel father and he hurt me, helping me off the front stoop.

A Distinguished Clergyman's Testimony.

Rev. R. M. Picketts, President of the Methodist Protestant Church of South Carolina, writes from Greenville:

"About four years ago I was attacked with what the physicians pronounced neuralgic rheumatism, accompanied with erysipelas. My appetite failed me entirely, and I had an intermitting pulse and very irregular pulsations of the heart. A terrible pain soon came into my chest and shoulders, and I became so helpless that I could attend to no business at all. The pains were movable, and would sometimes pass from one part of my body to another. Finally the erysipelas broke out on my left hand and arm, and produced much swelling. I was for eighteen months afflicted in this way, and of course used a great many kinds of medicines, but nothing gave me relief. Friends finally persuaded me to try Swift's Specific. I noticed a decided improvement while taking the first bottle. I continued its use until I had taken about one dozen bottles, when I found myself sound and well again, with no sign of disease left except a stiffness in my hand, a result of the erysipelas. While taking the medicine I gained on an average two pounds of flesh per week. I think S. S. S. a valuable medicine, and I frequently recommend it to my friends."
