Every effort should be made to observe Decoration Day ceremonies in proper shape. The people of the entire county should be invited to participate in the ceremony.

Mr. Miller, the carriage manufacturer of New York is in the city again having traveled over considerable western territory. He says there is no place that suits him better than R. C.

"Don't kill the birds, the little birds, that sing about your door." This injunction we hope will be instilled into the "Young Americas" that are now coming up to manhood. It is a shame to wantonly destroy the lives of the little birds for the fun of the thing.

The Missouri Pacific is among the leading railway systems of the country and is stretching its lines all over the continent. In a few months more it will be running into Red Cloud; a consummation that our people devoutly look for. The M. P. has about 7,000 miles of road under its management.

The western river like all others gets on a tear sometimes. The other day the Republican "got full" and began to paint the bottom land a moonstone hue and spread itself accordingly. At the mill it felt so overjoyed that it had to cut a new channel to run in causing the proprietors of the mill to reflect seriously when the "dam" (thing) went out.

Rev. J. S. Dew, of Johnson county, is a candidate for commissioner of Public Lands and Buildings. Mr. Dew was a member of the lower house of the state legislature in '81, served more than four years in the war and has been a life long republican. His chances seem to be good for the nomination.

We hereby acknowledge the sincere kindness of the friends who contributed to the success of the gathering at the parsonage last evening. The genuine friendship evinced, is by us heartily reciprocated. Thirty-five dollars was tendered as a donation, in fact, with a fifteen dollar favor contributed earlier in the day, we are richer, besides having much true friendship, by fifty dollars.

"Coal oil Joseph" is the way they call Joe Warner now-a-days since he became temporary manager of the Red Cloud Tank Line.

The street car track is about all ballasted now and ready for the cars as soon as they arrive. Thus our fame is shed abroad over the land as the rising city of western Nebraska.

The street lights failed to materialize last evening. Owing to the washout in the river the dynamo could not be run sufficiently to make the lights shine. The company should put in an engine.

Are we going to have the eagle scream on the 4th. Let's have a big time on Independence Day if we can't have anything else. We ought to glorify at least. If commenced now a royal time could be indulged in. Get up, stir up, jump up, any way to get up a big 4th of July celebration.

The Ladies Aid Society of this city, formed for the purpose of aiding the poor and destitute of Red Cloud, made their report this week as follows. They have helped 30 families. Paid out over \$100 for coal and provisions, besides clothing and bedding furnished. The aid society is to be congratulated on their generosity and promptness in relieving the needy and distressed of our city. The ladies cannot be given too much credit for their philanthropic work in the city.

REV. AND MRS. GEO. S. DAVIS.

The camp starts out in splendid shape and if the neighbors hew to the line there is no reason why the young sapling should not grow to be a great tree.

JAMES GETS THERE.

Hon James Laird Nominated by Acclamation.

At the congressional convention at Hastings on the 14th, the republican delegates of the "Big Second" nominated the Hon. James Laird as his own successor to congress by acclamation. He will receive the hearty support of the republicans of the district. The convention was very harmonious.

Hon. James McNeny, of this city, was selected as a presidential elector by the convention.

The Western and Southern Mercantile Association of Kansas City, has succeeded the well-known dry goods and grocery house of M. B. Mason & Co. of this city, and our old friend Chas. Schaffnit, has been appointed resident manager. The selection of Mr. Schaffnit as manager by the company was a stroke of good policy as he is a No. 1 dry goods man and will do the firm credit in this city. We predict that the business of the firm will be largely increased under his efficient management.

We chronicle the incoming of a new firm in this city. Deyo & Dorr who have been doing a lucrative drug business have dissolved partnership, and henceforth L. H. Deyo will run the business individually. THE CHIEF is sorry to lose Mr. Dorr from among our business circles, but wishes him success wherever he may locate. Mr. Deyo, the new proprietor is a gentleman of mature knowledge as a pharmacist, and we bespeak for him a wide range of business. This metropolitan sheet gives Mr. Deyo a friendly shake and bespeaks for him success.
