The state board of transportation created by the last legislature, is not idle by any means. It is working hard in the interests of the people to secure still further reduction in freight rates in this state. **What Ten Men Will Do.**  
 An observant citizen makes the following calculation, which is given for what it is worth: Out of every ten average American men, one will take the wrong side of the walk, two will stand in the door of a car if there is no seat, three will sport a toothpick in their mouths in public places, four will expectorate in public places, five will carry an umbrella horizontally under their arm in the street, six will cross their legs in a car, seven will fail to remove their hat in a down town elevator when a lady enters, eight will forget to shut a car door when they go in or out, nine will risk their lives to catch a train when they could just as well wait for the next one, and the whole ten will growl all their lives at public nuisances without doing anything to abate them.

**Is Not a Candidate.**  
 EDITOR CHIEF.—In your issue of Saturday last my name was mentioned as a candidate for State Senator in this District. Will you kindly state that such is not the case. I have said to my friends that under no circumstances would I permit my name to be used as a candidate for that or any other office and I meant what I said. The fear that they might be misled by your notice induced me to ask the publication of this statement.  
 G. K. McKEEY.

There seems to be a chance that a compromise may be effected now by the strikers with the "Q" system. It is high time that an end come to the business. The public has suffered for several months and we believe that the "Q" managers should try to compromise with the strikers and thus end a disagreeable fight between labor and capital.

It seems to be a very strong impression both in Superior and Red Cloud among those who ought to be able to form a correct opinion in the matter, that work on the Nebraska Southern will soon be commenced. The survey on this route is now being pushed on northwest from Red Cloud to Kearney.—Guide Rock Signal.

Notice is hereby given that I will examine all persons who may desire to offer themselves as candidates for teachers of the public schools of this county, at Red Cloud, on the third Saturday of each month.
