The other day when Col. Hoover was in this city fixing up his political fences with the "Big 8" we think he left the bars down by publishing his announcement in a democratic paper. The Change Made.

Monday A. J. Welch was installed as express agent for the Wells, Fargo Express Co. The uptown office will be removed to the depot. This part of the change will be undesirable, but the appointment of Mr. Welch will suit the people of this city perfectly well. He is a very pleasant gentleman and will be a good agent. We are pleased to note his appointment.

Happier Than a Lord.

Fred Sleeper has not been sleeping all these years for nothing, and when he came down town Fri. morning people wondered what was the matter with his face, as it was wreathed in smiles from one "year" to the other. Our reporter noticed the opening thereof, and questioned Fred as to the cause, when he replied "what's the matter with dad." We tumbled a straightway called on grand-dad and extended our congratulations. Fred is so happy that there is talk of marrying him if he doesn't subside soon.

The Hastings Forkers.

The people of Red Cloud, Minden and Kearney can go on with their "Nebraska Southern" project, but if they do they will some day awake to the fact that they have been sold.—Hastings Gazette-Journal.

Don't worry yourselves about Red Cloud Mr. Gazette-Journal. Our people will take care of themselves. The people of Kearney, Minden and Red Cloud know that you want the Santa Fe, and are using your best endeavors to beat the bonds, but that will do you but little good. Hogology don't work in this country, so please come out of the pen, or quit your squealing.

An Attempt to Bulldoze This Office.

On Saturday evening while the force in this great metropolitan outfit was preparing to close up the week's business, for the purpose of better observing the Sabbath, our sanctum was invaded by two gentlemen with all the savage warring accoutrements of frontier life, and demanded that we retract our assertion that they were the laziest men in the city. We throw up our hands, and came nearly throwing up our dinner also, we were so scared, but just then the devil appeared with the shooting stick and the cowboys were put to fight, the devil in close pursuit. It was a fearful(?) moment of suspense but we decided to break the neck off of a well, a pop bottle and shake hands over the emptiness thereof, and just let the assertion remain, as it was a high compliment to them.
