The Helmet says it is impossible to throw a stone without hitting a republican candidate.

We should like to ask our democratic friend "how about the democratic throng that are clamoring for official honors even in Webster county?"

R. K. Stowe has been appointed agent for the North German Lloyd Steamship Co., which sails from New York City via Southampton to Bremen, Germany. The company have presented him with a fine picture of the "Fulda" one of her fastest ships, and Mr. Stowe invites old sailors and foreigners and the people to call and see them.

McKeighan got left at Hastings the other day for Congress and a man from Crete named W. G. Hastings, was nominated. In November there shall be erected over his remains in some quiet graveyard something like this:

DIED. From Too Much Laird. November 6th, '88.

Hon. A. J. Kenney, of Webster county, made us a faithful and intelligent float representative in the last Legislature, always at his post and acting for the best interests of his constituents. A few ambitious sore-heads in his own county are endeavoring to compass his defeat and to secure this end are trying to lie him out of the nomination. It is to be hoped his friends will stand by this faithful servant of the people and give him his deserved promotion.—Bloomington Guard.

The anti-Kenney clique have at last found sewerage for their vituperation through the columns of the Omaha Bee, and in the issue of the 9th attacks Mr. Kenney in a half column article which contains but a tissue of malicious lies from beginning to end. Two mail sacks of the issue have been received for distribution on the eve of the primaries. The effort is quite on a par with the plan adopted by the "Big 8" in their fight on M. B. McNitt last fall when they issued the famous "red headed circular" vilifying every one outside of their unholy alliance. The Bee's compound dose of physic and law will prove an abortive effort. Such guerrilla warfare will have no influence of honest voters. It will prove a boomerang. Every voter should procure a copy of the paper in question and see for themselves to what desperate straits the gang has been reduced.

Do the farmers of Webster county want to elect a man to the state senate who belonged to the shippers' pool which was broken up by the passage of a law at the last session of the Legislature. This pool robbed the farmers of Nebraska of thousands of dollars and much credit is due the legislature for having prohibited it by law, but since that action was taken a grain trust has been organized. Mr. Kenney supported the law breaking up the pool and we think he would be a good man to do likewise with the trust.

Mrs. G. E. McKeely and daughter, Lucelle, are visiting relatives at Jamestown, Kansas.

The tide have arrived for tapping the creek. In a day or two more we will have plenty of city water.

Jacob Nustein, the cigar maker is here and has opened his cigar factory, No. 192, just north of A. Cook's boot and shoe store. The City hopes he will make a success of the business.

No 75, the fast freight train on the B. & M., and No. 4 passenger tried to pass on the same track last night at Crete. Both engines were badly demolished. No one hurt.

Judge Wilcox, of Red Cloud, was in town Wednesday evening. He is probably our next county attorney, and will make a faithful and efficient officer, he has our hearty good will.—Cowles Herald.

Hon. A. J. Kenney, of Red Cloud, was detained in the city over Wednesday night, and favored this office with a pleasant call. Next to a prohibitionist, it would please us to see Mr. K. in the Senate this winter.—Cowles Herald.

Geo. W. Lindsey, our worthy packing house man, has finally come out and joined the republican party, donned a Harrison and Morton uniform and marched in the republican flambeau club last night. We are glad to see George come out on the right side.

Some men can stoop to very low, mean acts. Witness the article in the Omaha Bee of last night in reference to A. J. Kenney. A man who will write or indite such an infamous, untruthful article is to contemptible to have the confidence of the people. But, then the "Big 8" have about 8 of that kind of fellows.

Mary lost her little lamb, Its fleece hung on the fence, For Grover's free trade message sent it down to fourteen cents. But when she found her fleece gone, With all her might and main, She went to booming Harrison And raise the price again.

Doc McKeely and his gang, in order to defeat Mr. Kenney, have employed the notorious guerilla sheet, the Omaha Bee, to pound Mr. Kenney, in order, if possible to down that gentleman. They have ordered three or four sacks of the Bee for "handing out purposes" and propose by billings-gate and numerous lies to form public opinion against him. The rottenness of the clique and their known reputation will have but little influence in that direction.

Notice to Water Consumers. Consumers of city water will take notice that on and after this date, that any or all persons discovered violating the water ordinance will be shut off promptly. Act accordingly, and don't forget it. L. H. FORR, Water Commissioner.

There will be a festival at the German Lutheran church on Saturday, August 11th, for the benefit of the church.

The "Big 8" and Their "Organ." What an array of brilliancy there will be on the new paper, whom the bank combine, and a few other sore-head individuals propose to bring into life and foster with their little 4 per cent a month profits. The whole scheme has been brought about virtually by Lew Albringht, Dr. McKeely and W. S. Garber. The facts are that these gentlemen having failed to rake in the political chestnuts in the past are still trying to open a way to keep factionalism at a par value in Webster county and now presume to start a paper whereby they will be better prepared to have their venom scattered abroad over the county by which they hope to keep up a factional fight which in the last few years has nearly become extinct, and would be new if it were not for this ring of eight who desire to dictate what the people shall do politically, always looking to self interest rather than the people. People who go outside of their own legitimate business to engage in some other which they are novices in, have certainly an emptiness in the cranium that is sad to behold. Dr. McKeely, who wears the euphonious title of "doctor, lawyer, politician and editor," will no doubt be the political adviser, while L. P. Albright, his right hand man, will be the financial luminary, and Seward Garber will follow closely at his heels holding the sack strings, while the rest of the outfit will dance to the tune of "Get your money ready." It is the same old clique that has tried to run the county for years with their political chicanery but the people are on to the outfit and should sit down on the venerable "S" who presume to dictate how the people shall vote.

The Helmet man still evades our assertions in regard to Harrison and the Chinese by getting off on something else. He wants to know how the "Chicago-made Joss," referring to Gen. Harrison expects to be elected president. We think we can answer that assertion, simply by saying (1) that he was a patriotic freeman, having borne arms in defense of his country, and by valiant service won the rank of Brigadier-General. (2) He is in favor of the laborer of the country. (3) He doesn't believe in free trade by which America would be putting shekels into the rich men's pockets over in England. (4) Because he is a wise and pure statesman and a sound republican, and believes that America is for Americans, and there are thousands of other reasons why he should succeed the "St. Louis white washed, whisky lined, what-do-you-call-it-candidate."

We are authorized to announce the name of Col. John S. Hoover as a candidate for the office of state senator, subject to the decision of the Republican convention.

Our bread wagon makes the rounds of the city every day. Leave your orders and they will be promptly filled. KALEY & CALMES, Proprietors St. Charles Bakery.

We have heard it intimated that some of the laboring men of this city will oppose Mr. Kenney for state senator. That intimation has led us to examine his record in the last House on the labor question and we find it to be favorable to those who "earn their bread by the sweat of their brows." Several bills were introduced in the House in the interests of labor and the printed records show that they received his support. On page 698 of the House Journal Mr. Kenney is recorded as having voted in favor of a bill "to create and continue a bureau of labor and industrial statistics." This bill provides for a commissioner whose duty shall be to collect statistics relative to industrial classes and especially to examine into the relations between labor and capital, the means of escape from fire and protection of life and health in factories and workshops, the employment of illegal child labor, the exaction of unlawful hours of labor from women and children, the educational, sanitary and financial condition of laborers and contains many other important provisions. By the aid of Mr. Kenney this bill was passed by the last Legislature and is now a law upon our statute books. Also on page 667 he is recorded as voting in favor of a bill prohibiting the employment of children under 14 years of age in workshops, factories, mines, etc. This bill received a favorable consideration and is now a law of Nebraska. Other bills of a similar character received his support and his whole record on the labor question as we said at the outset ought to be satisfactory to every man who "earns his bread by the sweat of his brow." It is much in his favor also to say that this record was made nearly two years ago, some time before the labor question received serious consideration in Nebraska, and those who favored the passage of these laws must have followed their inclination, uninfluenced by popular clamor or efforts from any quarter. It could not well be otherwise, for any man who has performed the drudgery of a printing office for thirty years is not apt to make a bad record on the labor question and our advice to laboring men is to hold fast to that which is good and not exchange it for what, to say the least in this particular case, is a very uncertain quantity.

A Denial. Mr. Editor:—I am informed that certain parties are circulating the rumor throughout the county that during the war of the rebellion I was engaged in publishing in Iowa what was then known as a "copperhead" newspaper. I desire through your columns to brand the rumor as false in every particular. I had nothing to do with publishing or editing a newspaper of any kind from the fall of 1860 to the spring of 1872, a period of twelve years. Truly Yours, A. J. KENNEY.

A Through Sleeper to Chicago. Every afternoon at 3:55 o'clock, upon arrival of trains from the west, a magnificent Pullman Sleeping Car leaves Topeka for Chicago via the Great Rock Island Route, making close connection with the famous "limited flyer" running through without change, arriving at Chicago the following morning. This is certainly the quickest and most convenient means of transportation between points in Kansas and the city of Chicago. For accommodations in this car, please notify your local agent, and he will be glad to make such reservations as you may require by telegraph.

Low Rates of Interest. By a late arrangement, I can make you a Farm Loan on the shortest notice, lowest interest, and best terms of payment that can be had in the west. All kinds of well secured notes bought. Call and compare rates. C. F. CATHER.
