The joint resolution appropriating \$2,000,000 to prevent the introduction of yellow fever or cholera into the United States was passed. The money was made up of the deficiency bill. Senator Chandler addressed the Senate on his resolution relating to the late election in Louisiana. He had not concluded his remarks when the Senate adjourned. The House considered a conference report on the Naval bill and then took up the conference bill in Committee of the Whole, which was under consideration when the House adjourned.

AFTER disposing of routine business in the Senate on the 23d Senator Chandler resumed his remarks on the Louisiana election case. At the close of his speech the resolution in regard to the Jackson municipal election was taken up and Senator Wilson, of Iowa, spoke on the question. A message was received from the President on the rejection of the Fisheries treaty, but by a party vote the Senate adjourned before the President's mission. The House passed the Senate bill granting the right of way to the Leavenworth Rapid Transit road across the military reservation. After disposing of various resolutions the House took up the Army bill and non-concurring in the conference report, went into Committee of the Whole on the Deficiency bill. Pending efforts to secure a quorum a message was received from the President on the fisheries question, and Mr. Wilson, of Iowa, offered a bill to empower the President to more effectively carry out the provisions of the law to protect and defend the rights of American fishing vessels and the House adjourned.

In the Senate on the 24th the President's message on the fisheries dispute was read and the session devoted to debate on the subject. Senator Morgan then introduced a bill identical to that introduced by Mr. Wilson in the House to give effect to the President's message. Adjourned. After disposing of routine business the House in Committee of the Whole further considered the Deficiency bill. All efforts to secure a quorum failed, and a resolution was passed to print 10,000 copies of the President's message. At the evening session forty-five private pensions bills passed.

A SPECIAL MESSAGE.

The President on the Fisheries Complications.

He Reviews the Situation in a Special Message and Asks for More Specific Powers in Protecting the Rights of American Fishermen.

WASHINGTON, Aug. 24.—The President sent the following message to Congress yesterday afternoon:

To the Congress: The rejection by the Senate of the treaty lately negotiated for the settlement and adjustment of the difficulties existing between the United States and Great Britain concerning the rights and privileges of American fishermen in the ports and waters of British North America, seems to justify a survey of the condition to which the pending question is now brought. The treaty in question, concluded in 1818, through disagreements as to the meaning of its terms, has been a fruitful source of irritation and trouble. Our citizens engaged in fishing enterprises in waters adjacent to Canada have been subjected to vexatious intemperance and annoyances; their vessels have been seized upon pretext, which appeared to be entirely inadmissible, and they have been otherwise treated by the Canadian authorities and officials in a manner unbecomingly harsh and oppressive. This conduct has been justified by Great Britain and Canada by the claim that the treaty of 1818 permitted it, and upon the ground that it was necessary to the proper protection of Canadian interests. We deny that further agreements justify these harsh and oppressive measures. The treaty of 1818, which was the only treaty incorporating such laws, terminated July 1, 1887. The article itself declares that its provisions shall be in force "for the term of years mentioned in article 35 of this treaty." Turning to article 35 we find no mention of the article, but only a provision that articles 18 to 25, inclusive, and article 31 shall take effect as soon as the laws required to carry them into operation shall be passed by the legislative bodies of the different countries concerned, and that they shall remain in force for ten years from the date at which they may come into operation and further until the expiration of two years after either of the high contracting parties shall have given notice to the other of its wish to terminate the same. I am of the opinion that the termination of the treaty mentioned in article 35, referred to in article 29 as the limit to its duration means the period during which articles 18 to 25, inclusive and article 31, commonly called the "fishery articles," shall continue in force under the language of said article, and that the joint high commissioners who negotiated the treaty so understood and intended to phrase uncertain, for in a statement containing an account of their negotiations, prepared under their supervision and approval by them, we find the following words: "The termination of the joint high commissioners who negotiated the treaty so understood and intended to phrase uncertain, for in a statement containing an account of their negotiations, prepared under their supervision
