BOLD BANK ROBBERY.

A Thief Boldly Robs a New York Bank in Broad Daylight, but is Run Down and Captured.

NEW YORK, Sept. 21.-Henry F. Harding, alias R. F. Seymour, who recently came here from Chicago, jumped on the wire screen of the Fifth National Bank about noon yesterday and snatching three packages of money, each containing \$1,000, while the paying teller's back was turned, started to run away. The cashier had noticed the thief and gave the alarm, and Harding was pursued but escaped. India . flight he dropped one of the packages. A couple of hours later Harding walked into the Commercial National Bank on Wall street and pursuing the same tactics while the teller's attention was called elsewhere abstracted two packages containing \$8,700. The theft was noticed by the cashier, who gave the alarm and started in pursuit. The bag caught in a railing outside and was wrenched from Harding's hands. Without waiting to recover it he started on a run down Pearl street followed by a large crowd. Finally Harding drew a revolver and fired two shots at his pursuers without injuring any one. He ran as far as Maiden lane before being caught and fired two more shots at policemen before he was arrested. He was identified at the police station later by the clerk and porter of the Fifth National Bank as the same person who had robbed that institution earlier in

Bold Thefts of a Commission Man in Minneapolis.

MINNEAPOLIS, Minn., Sept. 21.-W. G. Hanley, a well known commission dealer and a member of the firm of Peterson & Hanley, was arrested about midnight on a warrant charging him with stealing 15,000 bushels of wheat from the Minneapolis Union elevator in Southeast Minneapolis. The elevator company is said to have discovered that about 50,000 bushels of wheat have been stolen by overloading cars. The cars leaving the elevators were to have contained 500 bushels each. It is now positively known that they were overloaded and that to the extent of 50, 100 and sometimes 150 bushels. Hanley had been D. C. Moakes & Co.'s cashier and bookkeeper. A rather singular coincidence in connection with this affair is the unexpected suspension of D. C. Moakes & Co., grain dealers, which firm made an assignment yesterday when a large amount of its paper went to protest. Others suspected of complicity are well known wheat men and the announcement of their names would cause a profound sensation. By advice of his attorney Hanley refused to talk.

IMPENDING STRIKE.

A Reduction of Wages on the C., B. & Q. to Be Followed By a Tie-Up.

DES MOINES, Iowa, Sept. 20 .- The maddest men that have been seen in this city for a long time are the engineers, firemen, brakemen and conductors of the Chicago, Burlington & Quincy railway to-day. A few months ago the employes asked for an advance and they expected that their demands would be granted, but to-day they were amazed when they received the new schedule to find that instead of an advance they are reduced in their wages, ranging from \$5 to \$15 a month. A brakeman told a reporter that they were upon the eve of one of the worst strikes in the history of the road; that it would be an equal to the strike of 1877. He said that not a man on the entire line would accept a reduction in wages and that when the first of the month comes all hands are expected to quit work and tie the road up. The reason for the reduction in wages is not known to the men, but a number of them attribute it to the fact that the company has lost so much over their last strike that they are not able to pay present wages.

ST. LOUIS, Sept. 21 .- It is now believed that the wreck on the Wabash Western Wednesday night was the work of parties who had some grudge against the road, and that it was intended for a Burlington train. The special train of Superintendent Magee, of the Wabash Western, returning from the wreck yesterday came near sharing a like fate. It was being backed in, running about fifteen miles an hour, when, at Huntley's crossing, near this city, it struck an obstruction and the occupants of the car received a severe shaking up. The train was stopped and run back and an investigation showed that a heavy beam 12 inches square and 10 feet long had been pried into a cattle guard and braced against the ground, pointing west. The timber had struck the brake beam between the forward truck and caboose and then the axle of the trucks, and would have derailed and wrecked the train but for the fact that the trestle work of the cattle guard gave way. A searching investigation will be made.

An Emeute.

LONDON, Sept. 21.-An emeute occurred mong the men in the transport commissariat, located at the Portobello barracks. on Sunday last. The men had become irritated at the harshness shown them by their officers and after drill they made a rush upon the quarters occupied by Major Whiteley and smashed the furniture and made a bonfire of a portrait of the Major. They then marched in a body to the guard house and yielded to arrest without resistance. The leaders will be court-martialed.
