There will be a public teachers' meeting held in the High School room next Friday evening at 7:30 o'clock, to which the public generally are most cordially invited.

A class drill in arithmetic will be conducted by Miss A. L. Hurlburt, after which there will be professional criticism by the teachers' and such visitors as may wish to make remarks on what may develop during the class drill or on any subject pertaining directly to school work.

As teachers' and pupils will be pleased to see a large number of visitors present next Friday evening, it is to be carnestly hoped that the citizens of Red Cloud will be with us in a large number, and by their presence and counsel aid an undertaking that very materially contributes to the success of our public schools.

The Principal of your schools being, comparatively speaking, a stranger among you respectfully desires the presence of parents of pupils that mutual understanding may exist in regard to certain features pertaining to school discipline, hence wish to speak briefly on these matters at the teacher's
