GRAND AND THRILLING.

Beautiful Meteoric Display Seen at Portland, Ore. PORTLAND, Orea April 3.—Sunday night about nine o'clock the heavens were illuminated by one of the most brilliant meteors ever seen in this city. The meteor was seen at a point about 2) degrees from zenith, in the northeastern part of the beavens. It traveled in a northwesterly direction, passed through the handle of the dipper and lost itself at a point within 10 degrees from the horizon. The head of the meteor was elongated in the shape of a spike. It reached its greatest brilliancy at a point 26 degrees below the North star, where it seemed to break near the center. one portion following the other with some 4 or 5 degrees intervening. While the meteor was at its brightest, myriads of little stars in red, yellow, blue, green and all colors were whirled off on both sides with great rapidity, making the most beautiful display of celestial fireworks. The main body of the meteor appeared to be about 20 degrees in length, while the | Complete returns from the twenty-eight tail, which grew more fil my with distance from the head, extended across the whole ky. There is some difference in on regarding the length of time the meteor was visible. It estimates a range all the way from five to twenty seconds. The

THE SPRING ELECTIONS.

Result of the Spring Elections in Various Cities of the Country.

LEAVENWORTH April 2-The city election passed off quietly yesterday, and the largest vote ever known here was recorded. Unusual interest and excitement prevailed, and voters, both men and women, stood in long lines at the various polling places, awaiting their turn to cast their ballots. The women worked with greater zeal than the men, but goodnatured rivalry predominated and there was no disturbance or quarreling of any sind. A bitter fight was made on Colone Anthony, Republican candidate for mayor, and he was scratched to a great extent in every ward of the city and ran considerably behind the ticket. In the middle part of the afternoon the Democrats became alarmed, and E. Jameson the independent candidate for mayor, withdrew from the field and threw his support to Hacker, the Democratic candidate. Hacker is elected by about 600 majority, and the entire Democratic ticket is elected with the possible exception of Carroll for Council in the Third ward, and Caldern, councilman for the Fifth ward.

OHIO CITIES. CINCINNATI, April 3 - Monday's municipal election in Ohio had many mixed results. The Democrats elected a mayor in Akron, Springfield and Zanesville, and carried the principal offices in Middletown, Akron, Norwalk, Bucyrus, Fremont, Circleville, Chillicothe, Portsmouth, Lancaster, Wapakoneta, St. Mary's, Hamilton, Tiffin, Zanesville, Newark. Kent Canton and Sidney. The Republicans were entirely or nearly successful in Logan, Lebanon (where local option was defeated). Troy. Mount Gilead, bridge, Ripley, Van Wert, Sandusky, Wooster and Fostoria. In Kent the i-suof prohibition was prominent and carried by one vote. In the election at Cincinnati Republicans and Democrats divided the offices, a Reput lican being elected mayor. Columbus went solidly Democratic. Cleveland elected Republicans to all the city offices but two, which the Democrats gob-

A CHICAGO AVALANCHE. CHICAGO, April 3.—Returns from nearly all the precincts in the city are in and show the election of the entire Democratic ticket for city officers and a majority of the aldermen, giving the Democrats full control of the city government in Loth executive and legislative branches. Dewitt C. Cregier, the Democratic candidate for mayor, has an estimated majority of 12 000 over John A. Roche, Republican, the present incumbent. The weather was perfect and a large vote was polled. Universal interest was manifested in the day's contest, but no disturbance of any kind occurred. Nearly every office in sight was captured by the Democrats, all their candidates on the city ticket being elected by pluralities averaging about 12,000. The North and West town tickets of the Democrats go in and they secure the circuit judge. The only Republican success was in hanging onto the South town offices by a very narrow majority.

BRIDE BROOK'S ROMANCE.

A Ceremony That Gave to a Connecticu Stream Its Pleasant Name.

It is not generally known that the settlement of New London was commenced under the authority of Massachusetts. John Winthrop, its founder. bore a commission from the Government of that colony. It was first called "The Plantation of Nameaug." d its bounds extended on the west to a small stream two miles west of Niantick, now Niantic Bay, which was called by the Indians Sunkipaug. It issues from a pond of the same name and falls into the Sound between Black Point and Giant's Neck.

During the first winter after the settlement, the winter of 1646, at a time when the whole country was covered with a deep snow, the incident that caused the naming this stream and lake Bride Brook and Lake occurred. Application was made to Mr. Winthrop to go to Saybrook and unite a young couple in marriage, there being in that place no person duly authorized to officiate on such an occasion; but he had been commissioned in Massachusetts, and could not legally fasten the nuptial knot in Savbrook, which was under the jurisdiction of Connecticut. He proposed, therefore, to meet them half way on the brink of the little stream that was his western boundary. The proposition was accepted, and there Winthrop, accompaniedeby a party from his plantation. met the bridal train from Saybrook, and the rite was performed. In conclusion Winthrop gave the name of Bride Brook to the stream, by which it has ever since been known. The pond is also called Bride Lake.

The annals of history can furnish but few incidents more striking than the Bride Brook marriage. All the accessories of the scene are picturesque and impressive. The little company stood in the midst of a dreary waste of snow, far from any human habitation at this time excepting the huts of savages. Ancient forests and immense solitudes were around them, beyond which in shadowy magnificence, vast and indefinite, lay the unexplored world, on whose brink they stood. We might perchance add to these features the stalwart forms of natives, a tribe of whom dwelt not far from the place, darting among the trees or looking on at a distance.-Sound
