CHICAGO'S LATEST HORROR |

The Body of Dr. Cronin, Who Recently fo r-A Foul Murder That Calls For a Rigid Inves

CHICAGO, May 23.-The dead body of Dr. P. H. Cronin, the Irish-American who strangely disappeared from his home in Chicago two weeks age, was found last evening some distance north of the city in a sower on Evanston avonue. A bloody towel was wrapped about the bead. The U rest of the body was stark maked. A Catholic emblem which the doctor always were next his skin suspended about his neck was untouched. On the dead man's wered the scalp and indented the skull. It is the opinion of the police that Gronin was foully murdered and by some man who could not bring himself to distarb a Ostholic trinket.

Much excitement was shown at detective headquarters when doubt as to the identity of the body was finally removed by definite messages from Lakeview. It was evident from the expressions of the officials that one of the first objects of the police would be to have a number of suspicious amertions explained-assertions made by supposed friends of Cronin. Lieutenant Elliott will have these people at the inquest and demand an explanation full and complete. The detectives claim that they have been handicapped from the start by a lack of assistance from those who claimed to know all concerning the doctor's disappearance.

Wholly accidental circumstances brought the corpse to light. A gang of laborers in the employ of the Lakeview suburban government had been cleaning the ditches along Evanston avenue during the week. Yesterday Foreman Henry Roesche and two men were working north of the east side of Evanston avenue toward Patty-ninth street, when, as they neared the catch basin at the corner, they noticed a strong smell of putrefying flesh, and Roesche pulled off the top of the catch basin with his spade and uncovered the body of Dr. Cronin. It had apparently been hastily pitched into the basin, for the head was underneath and the feet and legs were up in the opening.

The place where the corpse was discovered is about 360 yards from the Argyie Park station of the Chicago and Evanston branch of the Chicago, Milwaukee & St. Paul railroad, but two or three blocks from the lake and nearly a mile north from the corner of Sulzer street and Evalston avenue, where the mysterious bloodstained trunk was found on the day after Cronin's disappearance.

Immediately upon taking the body out of the catch basin Foreman Roesche notified the Lakeview police station and summoned a patrol wagon and the body was placed in the Lakeview morgue, which occupied the front room in the basement under the station.

Telephone messages were sent to the city police and an hour after the finding of the body a dozen of Cronin's friends were at the station. The three Scanlan brothers, who have been intimate with Dr. Cronin, were among the first who arrived. They all but positively identified the body as that of Cronin upon first sight. Later it was unqualifiedly identified by T. T. Conklin, the saloonkeeper with whom awarded by the board of arbitration to a Cronin lived, and by James Boland and man named Driscoil, of Chicago. at Bank Offer Large Sum.

NEW HAVER, Conn., May 25-John G. Bradley, cashier of the Hershants' National Bank, is said to have been under the surveillance of officers of the law at his residence in Fairhaven. He is charged with embersionent, the shortage being discovered by Bank Examiner Cooley in his examination Friday. The bank officers declined to give any information. Prosecuting Attorney Dailey is now in consultation with the officers of the back, and it is rumored that Bradley will be arrested. The loss to the bank may reach 100,000. It is said that Bradley and Charles W. Palmer discounted notes with-out the knowledge of the directors, and it has covered a space of several years.

Palmer has been arrested also. The card was issued yesterday after noon by ex-Governor Bigelow, president of the Merchants' National Bank: To the Public:

Certain irregularities have been found in the bank involving the cashier and assistant teller. There will probably be a considerable loss to the bank, which will not, however, impair its capital. It is not yet ascertained whether those officials have been the beneficiaries of these irregularities, but notes have been discounted which were not presented to the board of directors for their approval, and the loss on this kind of paper can not at this moment be stated

Mr. Bigelow subsequently said: "I do not think that the entire surplus (\$100,000) will be lost, and hope that it will not exceed half that amount."

Teller Palmer has made a full confession of all the transactions. Palmer is interested in the manufacture of patent be expended this year \$80,400,000 for the medicine, and one story current is to the next year will be wholly inadequate. interested in the manufacture of patent effect that he borrowed considerable money to extend his business, and, being unable to meet his payments, tided over by discount notes for the parties of whom he had borrowed money. This practice, it is stated, was discovered by Cashier Bradley, but Palmer induced him to keep it quiet, promising to take up the notes as fast as they became due. Failing to do this other notes were discounted until the cashier and teller became deeply involved and were compelled to keep quiet for their own safety. The general opinion last night was that the affair was much worse than the bank officials care to admit. Cashier Bradley spent last night in the sheriff's office and Palmer was at his own home. in charge of a deputy. Bradley is about fifty years of age and is very popular. He was prominent in church circles and was also prominent in military circles. Palmer is about forty years old and has been with the bank nearly twenty years.

THE PENSION LIST.

Appropriations For the Current Tenr-

P WASHINGTON, May 24-The Pension Appropriation act for the current fiscal year appropriated \$80,400,000 regularly and \$8,000,000 extra to meet a threatened deficiency, making the total appropria-tions \$88,400,000. This whole amount will seary to meet the demands of penioners, and it may be that there will be a deficiency, but it is said at the Pension Office that there is no trath in the state-ment that \$105,000,000 will be expended for pensions during the fiscal year.

H. C. Bell, chief of the agents' division of the Pension Office, who is entrusted with the duty of seeing to the expenditure of pension appropriations, says that it is true that the \$88 400,000 appropriated for pensions has all been draws from the treasury, but that more than \$16,000,000 of the amount drawn out is in the hands of the eighteen United States pension agents with which to meet the payments which will fall due June 4. It is thought this amount will nearly suffice until July 1, when the appropriation for the next fiscal year will become available, though it is said that some of the agents may run out before that

Bell says that the appropriation for the next fiscal year-180,400,000-is too small and that there will be a deficiency of about \$15,000,000. Commissioner Black, he says, did not ask for enough money to prevent a deticiency even on the basis of expenditures then existing. The pension roll at the time the appropriation was made was, and is still, constantly increasing, so that it is evident that if \$88,400,000

GREAT GUNS.

Two Heavy Guns Completed For the Savy -The Largest Yet Made.

WASHINGTON, May 24 .- The ordnance bureau of the Navy Department has completed two of the ten-inch steel preech-loading rifles for the Monitor Mianontomwah. They are the largest and most powerful guns yet turned out for the navy. One of them is at Annapolis awaiting trial and the other has been fully tested with most gratifying results, as it compared favorbly with the best products of renowned European ordnance works. The muzzle velocity attained was 2,000 feet per second. The range could not be determined owing to the lack of a sufficiently large proving ground, but it is estimated at ten miles.

Soon after the contracts are awarded for the construction of the new 2.500 ton gunboats preparations will begin at the Washington ordnance yard for the manufacture of their peculiar ordnanos, which is to be made up entirely of rapid fire guns of extraordinary calibers as compared with guns of this type now in use on the naval vessels. The largest guns of this kind will be six inches in caliber, but owing to the simplicity and compactness of their mechanism and construction they will not materially exceed in weight the inch rifles of the kind now in use, although they are fully equal to them in range and accuracy and are vastly superior in offensive power by rea-

That Offer of \$5,000;

Our readers will doubtless call to mind the effer so widely advertised for the past ten years by H. H. Warner & Co., the proprio-tors of Warner's Bafe Cure and Warner's Log Cabin Remedies, that they would pay \$5,000 to any person who would prove to an impartial referee that they had ever published a testimonial that was not genuine so far as they knew.

This offer had the ring of honesty about it, and as the matter has an especial interest just now we give a copy of the offer as it appears in the Messra. H. H. Warner & Co.'s pamphlet:

Shortly after the body had been removed to the police station the street was attempted to tear the house to pieces, but jammed with vehicles and scores of people were crowding for admission to the besement, where lay the doctor's remains. Officers were stationed on the stairway at the basement door, and were once or twice obliged to use their clubs in forcing the crowds back. The tamult continued far into the night.

Long before midnight at least forty men who had known Cronin had identified the body. The suburban police will keep the body and the towel at Lakeview until the coroner orders otherwise.

The man Woodruff, or Black, who, after his arrest a fortnight ago confessed to having helped carry off a trunk containing a corpse of a woman from a barn in the city the night of Cronin's disappearance, was interviewed last night in jail He manifested no surprise or discomposure when told that the body of Dr. Cronin had been found north of where the trunk was discovered but while he apparently talked freely about the matter he seemed careful not to go outside the story he had originally told. He repeatedly said that if he had not been lock-d up in jail he could and would have cleared up the trunk mystery before this time.

Alexander Sullivan, ex-president of the Irish National League, was horrorstricken when told of the discovery of Dr. Cronin's body. He said he was at a loss to know what to say, further than that he was dumbfounded, as he has believed all along that Dr. Cronin would turn up all right in course of time. The World on Dr. Cronin.

NEW YORK, May 25.-From the World: "The excitement in this city over the murder of Dr. Cronin still remains at its highest pitch and may possibly develop into something serious. It may be remembered that in this fight in the Clan-na-Gael Society last fall Dr. Cronin was supported by several well known men of this city. Dr. Cronin was openly threatened with death and he has now met his fate. It was well understood at the time that some men had evil designs against Cronin's backers in the East, one of the strongest of whom lives in this city, and for whose safety his friends are daily warring. His Clan-na-Gael fight was a long and complicated fight by the American Federation of Laone, and Dr. Cronin succeeded in making the bitterest enemies of his life during it."
