

# AT STANDING ROCK.

**Roll For Signatures Opened—General Crook Warns the Obdurate.**  
**STANDING ROCK AGENCY, Dak., Aug. 2.**  
 At the council Wednesday the Indians were informed that no more meetings for the explanation of the treaty would be held. John Grass repeated his objections to the treaty, chief among which is the price offered for the lands.  
 Major Warner replied to Grass. He met every objection and explained the provisions of the treaty of 1868 which the Government is charged with violating.  
 But the speech of the conference and one that will never be forgotten by the Indians was made by General Crook, who said, among other things: "I have already intimated that, unless you accept the treaty, this land may be taken from you anyway. My reasons for thinking so are as follows: Dakota, Montana and Washington Territory have only one representative in Congress, and do not have a vote. This in the past, the crisis of Dakota, and the opening of this reservation have had little weight, but after October next they will be States with an appropriate representation, and then when they ask that these reservations be opened, the red man's voice will be small and he will be crowded to one side. I assure you that you are getting the best terms that will ever be offered you, and unless you accept you will not get more than you were offered a year ago. The Great Father does not want to deal with the chiefs alone; he wants every Indian on the reservation to express his desires that equals of the whites mentally and physically, and there is no reason why you should not be placed on an equal footing if you continue to progress. You must do more in the future. You love your families and you want to know what will become of them when you are dead. If you accept this treaty and take your land like the whites it can never be taken from you and will be your children's when you die. You will see that the Government is your friend."  
 The roll for signatures was opened yesterday.

# JOHNSTOWN RELIEF.

**A Huge Balance of Money Left in the Hands of the Committee.**  
**JOHNSTOWN, Pa., Aug. 2.**—The relief commission at the close of yesterday's session made public a report on the financial part of its work. It is in substance as follows: Received by the Governor, \$99,414.46; received from Mayor Grant, \$100,000; received from the New York committee, \$400,000; received from the Philadelphia committee, \$300,000; received from the Pittsburgh committee, \$400,000; grand total received, \$2,391,414.46. The committee expended to date, \$1,700,000, including the \$500,000 distributed, \$87,170.23, and in other parts of the State \$157,236.27. This amount, taken from the total receipts, leaves \$1,544,077.96. There was appropriated in other parts of the State and yet unpaid, \$60,726.82. The contracts and bills in hand for Johnstown amount to \$60,189.22. The commission's estimate for 20 houses built is \$52,000, making a total of \$11,210,644 necessary for outstanding items. This would leave a balance on hand of \$1,342,801.82, but the commission figures on getting \$100,000 from the Philadelphia committee, and \$100,000 from the Pittsburgh committee, making in all \$1,542,801.82.

# DIRTY TEA.

**The Treasury Department Notified of the Exportation to This Country of Interior Tea.**  
**WASHINGTON, Aug. 2.**—The Secretary of the Treasury has received a letter from the Secretary of State including a copy of a despatch received from the United States Consul at Amoy calling attention to the inferior quality of much of the Amoy Oolong tea exported to the United States, and Assistant Secretary Tichenor has issued a circular letter to customs officers on the subject in which he says: "The statement of the Consul and the documents included in his communication indicate that it is a well recognized fact among dealers in China that Amoy Oolong are generally dirty, adulterated, carelessly picked or poorly cured, and that their reputation is so vile that all markets save those of the United States are now closed to them. A circular letter issued by Messrs. Russell & Co., of Amoy, speaks of these teas as the 'decayed vegetable matter of China,' and states that it is difficult to understand how, under the existing inspection regulations, they can be dealt in." The Consul strongly recommends that no invoices of Amoy Oolong should be admitted to entry in the United States without first being rigidly inspected.

# ROOSEVELT'S WRATH.

**The Civil-Service Commissioner Sharply Replies to Adverse Criticism.**  
**WASHINGTON, Aug. 2.**—Mr. Roosevelt in reply to an editorial in the Post said: "Any statement that I used any不正当 and honorable means in the majority contest in New York or that I was a party to any deal of the kind or that any such deal was made with my knowledge or connivance is a falsehood. Any statement that the Civil-Service law has been repeatedly violated with the knowledge and consent of the Commissioners is a falsehood. Any statement that I have received any money from the Government, except from my salary and for my legitimate traveling expenses while engaged on Government business, is a falsehood. To be exact I should use a still stronger and shorter word than falsehood. I will engage in no controversy with any writer who falsifies the truth. Hereafter I shall make no response whatever to any statement or accusation in the Post. Taking into account the relative quality of harm done by spoliators and by prize fighters and their associates, I am by no means certain that the editor of the Washington Post should have his feelings so lacerated by my coupling his journal with the Police Gazette."

# Hronok Attempts Suicide.

**JOLIET, Ill., Aug. 2.**—John Hronok, one of the Chicago Anarchists confined here, severed the arteries in his arm with a sledge hammer. He is making a twelve years' sentence for using dynamite bombs for Anarchists.

# Records Broken.

**CLEVELAND, O., Aug. 2.**—At the Grand circuit races yesterday two records were broken.  
 A well known three-year-old, wable to a mile for \$2,500 to beat his own record of 2:15 1/4 made at Minneapolis. He trotted the mile with a running mate without a skip in 2:14, the time by quarters being: 33 1/2, 1:41, 2:14.  
 Guy went an exhibition mile for a cup to beat his own record of 2:12. There was great difficulty in getting him started, but once he was off he moved like clockwork, covering the last quarter within one-quarter of a second as fast as the first. The time by quarters was: 33 1/4, 1:40 1/4, 2:10 1/4.

# THE TRUST CRAZE.

**An American Consul Thinks Germany is Seriously Troubled With the Incorporation Fever.**  
**WASHINGTON, Aug. 3.**—Jacob Muller, Consul-General of the United States at Frankfurt on the Main, under date of May 27 sends to the State Department a report on the formation of stock companies or trusts in Germany which he calls the "incorporation fever." He says that he has lately looked distrustfully at existing affairs there. The present events, the gigantic strikes by which Germany is visited, seem to him to prove that the social conditions are fraught with danger. The strikes are not revolutionary but are the outgrowth of unbearable conditions. In Rhenish Westphalia on a territory of not more than twenty square miles, 90,000 people revolted at starvation prices. When the mining companies were realizing better prices for coals than for many years past the miners were receiving \$25 to \$35 per year. Just now Mr. Muller says Germany is showing symptoms of a business fever similar in many respects to that which terminated in the crash of 1873. It is the form of the creation of industrial enterprises or the changing of private undertakings into stock companies. In 1884 a law was enacted for the regulation of stock companies. It required a more definite statement of affairs in the organization of the stock company, but it made the stockholders much less responsible than the members of a private firm. The "winnings," as he calls the earnings of these companies, will, he says, be larger and spread out among a greater number of persons, but the people of limited means can not participate as the law has fixed the minimum price of a share at 1,000 marks. Mr. Muller believes that the separation of employer and employee which must result from these changes in business conditions will result in the union of workmen and a permanent war between them and their employers.

# AN OPEN SWITCH.

**Wreck With Serious Consequences Near Albany, N. Y.**  
**ALBANY, N. Y., Aug. 3.**—A south-bound Delaware & Hudson through train in charge of Conductor Ackler, ran through an open switch at the Kenwood Junction near here, about 4:20 yesterday afternoon, and into the north-bound West Shore train, due here at 4:33. The drawing room car "Argyle," and two passenger coaches of the Delaware & Hudson train were thrown from the track. Thomas Coniff, a passenger on the West Shore train residing in Albany, was killed, and several others were more or less seriously injured. There were about thirty passengers on the Delaware & Hudson train and their escape from death was marvelous, as two cars turned completely over on their sides and the inmates had to be taken out through the windows. The names of the seriously injured are: James E. Pittman, of Troy, injured about the back and head; Mrs. Henderson, of West Troy, cut on the head and injured internally not serious; Joseph Perkins, of Binghamton, engineer of the Delaware & Hudson train, leg injured by jumping; Mrs. Bart, of Coeymans county, badly lacerated; William Mond, Saugerties, neck hurt; H. T. Finch and wife, Brooklyn, internal injuries; Mrs. Kate Powers Catskill, arm injured; R. J. Wright, Pea-kill, arm lacerated; W. T. Burnside, New York, arm lacerated; G. C. Morris, 136 South Fourth street, Philadelphia, badly shaken up; J. P. Foster, badly hurt; Engineer Perkins' arm was broken; Matthew Turner, fireman of the Delaware & Hudson train, slightly injured about the arms by jumping; he resides on Quaker street. The tracks were blocked until a late hour.

# How a Convict Was Pardoned.

**SAN FRANCISCO, Aug. 3.**—A convict in San Quentin prison serving seven years was pardoned this week by Governor Waterman. He had been convicted of forgery committed while intoxicated. Soon after President Harrison's nomination he wrote a poem entitled "The Old Soldiers," which was published in an evening paper. The poem, which described General Harrison's bravery at the battle of Resaca, was copied widely on this coast, and soon after Harrison's election one of the prisoner's friends sent it to Mrs. Harrison, with a brief account of the convict-author's good life in prison. She took an interest in him and he has been pardoned. The released convict expressed great gratitude to Mrs. Harrison and declares that her sympathy has made a man of him. His name is withheld as he has the promise of a good place.

# Crawford's Big Fee.

**LITTLE ROCK, Ark., Aug. 2.**—The Gazette's Muskogee, I. T. correspondent wires as follows: "The evidence taken in the investigation of the misappropriation of money by the Creek delegates was filed yesterday by Agent Gardner. The taking of testimony abruptly closed Thursday after the delegates testified that they paid ex-Governor Crawford the \$25,000 alleged to be unaccounted for. Agent Gardner expresses the opinion that ex-Governor Crawford will be indicted by the grand jury. The delegates are only responsible to their constituency, many of whom boldly assert that the enormous fee claimed to have been paid at the aroney is a rise to shift the burden on Governor Crawford, who in some way will exonerate himself."

# The Pilgrim Memorial.

**PLYMOUTH, Mass., Aug. 2.**—This old town yesterday was gay with decorations and filled with visitors to the dedication of the national memorial to commemorate the landing of the Pilgrims. All historic spots are marked by inscriptions and decorations. The celebration has included the ringing of bells, the firing of salutes and the dedication of the monument with imposing ceremonies, after which there was a parade to the dinner tent, where an oration was delivered by William C. P. Breckinridge, of Kentucky, and a poem was read by John Boyle O'Reilly followed by speeches from other distinguished guests. Concerts were given in the afternoon and the celebration closed at night with fire-works and a ball.

# Collisions Caused By Fog.

**NEW YORK, Aug. 3.**—There were several collisions in the bay and river during the fog yesterday. The Clyde line steamer Yosemite from Charleston had in tow the fishing schooner Melinda Wood. The schooner's foremast was cast away, the mast was broken and a large hole cut in her starboard bow. When the collision occurred the steamer was running at half speed on account of the fog. The schooner J. P. Pharo of Providence, was towed up the bay by the tug Robert Robinson and beached on the Jersey flats. It was run into by the brig Calusa during the fog last night. The schooner was almost a total wreck. Three persons were rescued by the pilot boat.

# MARRIAGE CEREMONIES.

**The Forms Observed in England, Scotland and the United States.**  
 The early marriage ceremony among the Anglo-Saxons was of a very primitive character. It consisted merely of hand fastening, or taking each other by the hand, and pledging each other love and affection in the presence of friends and relatives. The bridegroom paid the father a sum of money, called a foster-fee, or payment for nourishing. At a later period the early custom of espousals was reduced to a regular system, and the lover was required to give a wed, or security, for the performance of his contract; hence our word wedding.

In England, until the time of Cromwell, which extended from the year 1650 to his death in 1658, marriage was a religious institution, having been so held since the earliest times of Christianity. Under the Roman empire it was simply a civil contract; hence we read of men "putting away" their wives, as if they were pieces of furniture whose old fashion or bad fashion did not exactly please the fancy. When the English Republic fell to pieces and the Stuarts were restored in 1660 marriage again was legally regarded as a religious ordinance. Fifty years ago it was enacted that, at the will of the participant parties, it might be a civil contract or a religious rite. The Roman Catholics, considering it as a sacrament, do not recognize its merely civil character.

In the United States "the union of hand and the union of hearts" may be legally celebrated by a clergyman or a magistrate—in most cases the clergyman's good offices are preferred. According to the laws of Scotland, if a lady should call herself "Mrs. Charles Burns" in the presence of Mr. Burns, without his challenging the inference, the local laws consider them husband and wife. Of course, if the male party addresses or introduces the lady as Mrs. Charles Burns, she is as much his wife as if they had been married with full choral service in Westminster Abbey, by the Archbishop of Canterbury, with the assistance of half a dozen of the inferior clergy. In a word, if a man in Scotland allows it to be understood by word or deed that such a lady, young or old, is his wife, she is that by the strong law of the land.

An old adage thus lays down the proper days for wedlock: "On Monday for wealth, Tuesday for health, Wednesday the best day of all; Thursday for crosses, Friday for losses, Saturday no luck at all." A polite champion of the fair sex accounted for their superiority by saying that Adam was created outside of Paradise, while Eve was created within its sacred limits; no wonder, therefore, if a man retains something of the earth from which he came, while woman still exhibits the more refined elements among which she first drew the breath of life. "Poets have fancifully designated her 'the precious porcelain of human clay.'" Philadelphia Record.

# Little Bits of Philosophy.

Riches are never out of style; poverty is never in.  
 One man's charity for another's faults is sometimes a cloak for his own.  
 All men have peculiarities, but they are worse in some than in others.  
 Heaven is a place where a man gets credit for the good he intended to do.  
 As a man gets older he knows more, but he does not get any more attractive in learning it.  
 In finding one man who can be depended upon, you will become acquainted with a thousand that can not be.  
 Some men pay their debts only with the intention of deceiving their creditors into trusting them for larger ones.—Detroit Free Press.  
 —There is nobody living to-day, with possibly a few exceptions, who will see another year in which the figure "9" does not appear.—Arkansas Traveler.

# THE ROCK ISLAND'S POSITION.

**General Manager St. John's Reply to the Statement of Alton Officials.**  
 (From the Chicago Times.)  
 General Manager St. John, of the Chicago, Rock Island & Pacific road, authorizes the following statement in reply to assertions recently made by Vice-President J. C. McMullin of the Chicago & Alton in a published interview:

"Mr. McMullin, in a recent published interview, has clearly defined the present position and policy of the Alton road. It is to 'cut out' the freight rates being made on a basis that will give to it a fair share of the traffic which goes to and comes from points west of Kansas City. He illustrates this meaning by citing a shipment of live stock from Topeka on the Rock Island road through Kansas City to Chicago. Upon such a shipment the tariffs of all the lines as heretofore adjusted provided for a through rate somewhat less than the sum of two local rates. This practice was in accordance with well recognized principles of rate-making as universally practiced by carriers, and has been approved by the interstate commerce commission, which in a recent case used the following language: 'As through rates are made by the American system of roads, agreed percentages of the total rate, considerably less than the local rates, are usually a leading feature, and it is eminently proper as a general rule that this should be so.'"

"My health was poor, as I had frequent sick headaches, could not sleep well, did not have much appetite, and had no ambition to work. I have taken less than a bottle of Hood's Sarsaparilla and feel like a new person. Mrs. W. A. FERRIS, West Haven, Mass.  
 N. B. If you do not take Hood's Sarsaparilla, do not be induced to buy any other.  
 There is a grave-diggers' assembly of the Knights of Labor.  
**Summer Weakness**  
 Is quickly overcome by the tonic, reviving, and blood purifying qualities of Hood's Sarsaparilla. This popular medicine drives off that tired feeling and cures sick headaches, dizziness, neuralgia, and all humors. Thousands testify that Hood's Sarsaparilla 'makes the weak strong.'
