**The New B. & M. Agent.**  
Some four weeks ago THE CHIEF suggested that Aaron Conover would make a proper person to fill the vacancy at the B. & M. depot as agent in the place of Mr. Harris whose death occurred some time since. Mr. Conover although a young man has made hosts of friends in this city during his career in the office as a clerk, which has been some four years, and it was no more than right that he should have the appointment. In view of the fact a few of his friends presented a very strong petition to that effect to Superintendent Campbell, signed by all of our citizens, and we are glad to know, that that gentleman seeing how highly Mr. Conover was esteemed by the business men of this city, made the appointment without any hesitancy. Aaron is a worthy young man who will do the B. & M. good service as agent. THE CHIEF was highly pleased over his appointment, believing that his fidelity and integrity will be the means of still bettering his condition as the years roll by, at least there is not one man in a hundred that rises from a clerk in the office to a responsible position as agent at Red Cloud without going through the regular routine of promotion. He will make a gentlemanly and courteous agent and we wish him success in his new position.

When a man feels decidedly mean, because he has done sneaking tricks, he generally gets on a fierce air and talks about lions and the like. Rats, docky, you wouldn't see anyone you know, we don't think. Peace be still.

The Democrat and Republican are now jumping on to R. D. Jones. It is barely possible if Dock McKeeby and the editors of the Democrat would attend to their own business as closely as does Mr. Jones, they would not have time to meddle with other people's business.

The case of the state of Nebraska against Van Benson was up for trial this week in the district court, and after the evidence had been given in the jury took the case, and after due deliberation they returned a verdict of assault, the penalty for which will be not more than ninety days. The case has already cost the county several hundred dollars, and it seems preposterous that justice should be so slow, especially in a case like the one mentioned. It is simply a farce. The fight was over a small, insignificant hog, valued all told at not more than ten dollars, and there is no doubt but what it will cost the county fully a thousand dollars before it is finished.

This perpetual warfare carried on by the Republican, Democrat and Helmet is becoming very distasteful to the people. Now that the election is over and the people have said let the war on our citizens stop for a time at least. If the big S have triumphed by underhanded tricks in electing a democrat over a republican, let that suffice, and don't become too vain-glorious, for a time may come it will be decidedly distasteful to have referred to the matter. Then again, it don't look well for the big S to crow over the success of a democrat, when they are alleged republicans. The facts are that the boys were a little g-d-derious over the matter not because they had downed the ring, as they term the republican party but because they secured the control of the county funds. Gentlemen the election is over, and we were in hopes the war had closed, and as far as this paper is concerned, it is over for the present, unless the handsome doctor and his tribe of Astees insist on becoming too bash.

Berg & Galusha don't let prices stand in the way of a sale, small profits suits them.

An attempt is being made on the part of a few of our citizens to get Marshal Shinkle removed, on the basis of economy, while really we think the influence being used is sinister, the facts being more properly based on spite work on the part of some who could not use the marshal. Now is the time that a marshal is needed, and while THE CHIEF is always in for economy, it is not in for discharging police officers just in the time when they are needed. We are like the Mexican greaser in that respect when he was upbraided by his pastor for carrying a revolver. The preacher thought that it had been fully demonstrated, in six months time, to his mind that there was no need of carrying weapons in Texas, to which the greaser replied "that he might live there forty years and not need a revolver, but when he did need it, he would need it d—d bad," and that is the way with our city marshal, we may not need him all the time but when we do need him we need him bad. There are plenty of other ways that the city can economize besides economizing to the injury of the people.

Little Daisy Stoddard, an eleven-year-old Nebraska girl, was awarded the diamond medal for the best prohibition address at the national meeting of the W. C. T. U. at Chicago. There were plenty of competitors for the prize, but the Nebraskan won the honor easily.—Lincoln Journal.

The "Big Injun" of this Great Family Weekly, after a couple of weeks absence from the reservation, has returned to the city satisfied that there is no place like Nebraska, and especially Webster county.

The Grand Master of the grand lodge of Oddfellows was in the city this week looking after the lodge in this city.

Charley Fentrick was in the city this week, looking up a note which he gave to Dr. Janss in lieu of treatment for his wife. There seems to be room for complaint in his case, as the doctor only gave her two doses of medicine which failed to cure, and failing to cure the doctor is not entitled to recover. Generally men who takes up with frauds of similar character are not entitled to sympathy because they are being continually warned by the press to desist, but on the other hand, a man is justified in doing all he can to ease the ills that flesh are heir to, and when Dr. Janss came here, well recommended by reputable citizens it is not to be wondered at that people bit and we do not blame them now for refusing to pay the notes when there was not value received as agreed upon by the contracting parties.

"Does advertising pay" was asked of one of our business men this week by a CHIEF reporter. Pay! well I should say so. Our firm did over six hundred dollars worth of business last week, what do you think of that. Our reporter thought it a small fortune and sighed and passed out in the embracing atmosphere to mingle with people who don't know what riches are. The facts are that the gentleman alluded to did not spend over \$25 all told in advertising to make the \$600. People who don't believe that advertising pays should see that merchant and ask for particulars.

The Red Cloud Republican some time since predicted that George Warren, editor of the Argus, would be appointed postmaster about one hundred years hence. Mr. Warren is an intelligent, reputable citizen, and has received the endorsement of nearly every editor in the Republican valley. The Guard predicts that he through the assistance of Congressman Laws, receive the appointment at an early day. He will make a faithful, accommodating and efficient officer.—Guard.
