# FARMERS' PLATFORM.

### Resolutions of the Farmers' Congress-Meeting Next Year in Iowa.

MONTGOMERY, Ala., Nov. 17 .-Among the resolutions passed by the farmers' congress was one favoring schemes for improving the Mississippi and Missouri rivers and for a ship canal across Illinois connecting the past history of the Clan-na-Gael. Mississippi and Lake Michigan. The farmers' institute was indorsed and national aid recommended and a National Board of Agriculture demanded. Chicago was indorsed over St. Louis at a place for the World's Fair. R. F. Kolb, of Alabama, was re-elected president and a vice-president from each State was chosen. B. F. Clayton. of Illinois, was elected secretary and Mr. Lawrence, of Ohio, treasurer. The next meeting will be held in Iowa.

A resolution favoring the repeal of the tobacco tax was defeated; also a resolution that the revenue from the whisky and tobacco tax should be distributed among the States to relieve local taxation; also a resolution favoring Government and to steamship lines to build up trade with Central and South America; also a resolution favoring unlimited coinage of silver; also a resolution favoring bounties to sugar growers. A resolution favoring Congressional investigation of accidents to railroad employes, caused by imperfect brakes and couplings, was adopted; also the following resolutions, which were prepared by Hon. William E. Lawrence, of Ohio, and reported favorably from the committee:

Resolved, That while Congress maintains the policy of a protective tariff we demand that all farm product shall be as fully protected as the most favored of the manufacturing industries.

Resolved, That while as now, a protective policy is maintained which substantially protocts importations of foreign carpets and many other articles of manufactured goods, we demand that the duties on mutton, sheep and wool of all kinds shall be so increased as to equally prohibit the importation of mutton, sheep and wool of every kind which can, ander protection, be sufficiently produced at fairly remunerative prices in the United States to supply all American wants, including the better class of carpet wools, especially as carpets as luxuries are entitled to less favor than farm and ranch products.

Resolved, That the tariff on wool imported to make carpets should at least be as high as that imported to make coats.

11

.

.

Resolved, That if protection to this extent be denied we will call upon the farmers of the United States to assert their power at the ballot box and otherwise to right the wrong and injury of discrimination against them. If they fail in this the wool and mutton pro- The Pan-Americans Close Their Junket- iron framework of which only remained, ducing industries will be so seriously crippled that they will be in a large measure destroyed and the farmers will two days after the morning of October no longer have any interest in protec- 3, when the special train bearing the than is accorded to the wool industry, including any kind of wool. # NEARING THE CLOSE.

#### A Raling By the Court in the Cronin Trial Causes the Prosecuting Attorney to Rest His Case.

CHICAGO, Nov. 14 .- At the opening of the Cronin trial yesterday morning, Judge McConnell announced his decision on the question of going into the

The last witness on the stand the previous afternoon was Expressman Brown. He is an ex-member of the Clan-na-Gael. He was asked whether or not he preferred charges against Dr. Cronin in 1885, the State's Attorney explaining that he proposed to show by the witness that this was a fact; that Daniel Coughlin was a member of the

trial committee, and that Dr. Cronin was expelled from the organization. The logical consequence of the admission of this testimony was a com-

plete investigation of the Clan-na-Gael, at least so far as it could be made, to show causes for animosity against Dr. Cronin on the part of any one of the prisoners at the bar.

This offer led to the most earnest and protracted argument between counsel for the State and counsel for the defense that has yet taken place during the trial. Nearly every lawyer engaged in the case on either side had something to say during its progress, and there was much plain speaking. The talk occupied the time till adjournment and Judge McConnell announced that he would hold the matter under advisement and would render his decision yesterday morning. In accordance with that arrangement when the court was called to order yesterday morning Judge McConnell announced his opinion to be that the evidence sought to be elicited from Expressman Brown on the points named was incompetent and ruled it out.

This decision, of course, rendered any further attempt to examine Expressman Brown futile, and Officer McKinnon, of Winnipeg, who was on the stand Tuesday, was recalled. He testified that Burke told him he had assumed the name of J. W. Cooper because two men were watching him.

At the opening of the trial in the afternoon State's Attorney Longenecker said that in view of the court's ruling in the matter of evidence as to past doings of the Clan-na-Gael, the State would only put one more witness on the stand-a man named Chancey, from New York, who, he said, was not now in the city.

It was suggested, in view of this announcement, that the court adjourn until Monday to give the defense time to prepare its case, but it was finally decided to adjourn' until Saturday morning, which was accordingly done. ----

# THE TRIP ENDED.

# DR. CRONIN'S EFFECTS.

#### The Finding of Dr. Cronin's Clothes, Surgical Case, and Other Articles in a Sewer Catch-Basin Lends Fresh Interests to the Celebrated Murder Trial.

CHICAGO, Nov. 9.-The sensation in connection with the all-absorbing Cronin case still centers in the finding of the surgical case and clothes of the murdered physician, and the forging of another link in the chain of circumstantial evidence that clanks ominously around

the conspirators. For som time complaints have been made to the sewer department of the Lake View station that the sewer at the intersection of Evanston avenue and Buena avenue was flush and running over. Two or three sewer cleaners were detailed to investigate the cause of this trouble. Michael Gilbert was foreman of the cleaning gang. Mike Reeson was one of his assistants, and W. W. McMillan had charge of a flushing wagon that was taken along to expedite their operations. The three men raised the cover of the man-hole and Reeson was lowered into the hole. He had scarcely reached the bottom when he shouted back that he had found a box. A moment later an oblong box twelve inches long and nearly as broad was

hauled out of the filth. Although greatly befouled the box showed evidences of having been varnished and polished, and a brass handle in its center showed that it had been carried like a sachel. Gilbert and McMillan opened the box. One glance at the contents convinced the men that they had at last found the clothing and instruments which Dr. Cronin had carried with him to his death. There was an assortment of extension splints with which Dr. Cronin equaled. had provided himself in anticipation of having to set a fractured leg when he reached O'Sullivan's ice-house. Then came a sachel and a bundle of clothing.

ing. A case of surgical instruments,

the steel of which was heavily coated

with rust, was drawn from the clothing.

One of the men summoned the officers

of the Sheffield Avenue station and

twenty minutes later a patrol wagon,

manned by six officers, dashed over the

Evanston road. The bundle of cloth-
