FARM LOANS.

I have the agency for ten different loan companies, and can give you the benefit of any of their peculiar plans of making farm loans. Therefore can make a farm loan quicker and at lower rates than any other agent in 6, or 7 years, also on first class city property. Compare my terms before placing your farm loan, and save money and regrets. G. W. BARKER. Rear Red Cloud Nat'l Bank,

The ladies of the Congregational church wish to express their hearty thanks to all the friends who so generously assisted them in the carnival; to the business men who were at much trouble and expense in preparing their representatives; to the musicians for their faithful labors; and especially to Messrs Cowden and Heard for their indispensible aid in military drill.

Prohibitionists and Democrats.

If there were any doubt of the purpose and temper of the prohibitionists it has been removed by the election of last Tuesday. It is quite immaterial attitude of their party may be toward temperance legislation. The one end and ambition of the prohibitionists is Webster county. I make option to break up and destroy the Republiloans or straight loans for 1, 2, 3, 4, 5, can party. They keep this object in view first, last and all the time. They seem to think that such destruction would lead to the upbuilding and success of their own party much as the decline and demise of the Whig party prepared the way for and rendered inevitable the Repuplicanparty. The votes in New York, Ohio, and Iowa all point the same way, and give emphasis to the conclusion.

There have been several such parties since the war, the Greenback party being the most formidable of all, and more are to be expected. The Republicans must expect that sort of difficulpreparing the grand march and the ty to arise. Political vagaries will continue for many years to come to dream dreams and see visions of great success, mistaking the Whig ghost for their own shadows cast before. There is no escape from this. It is to be expected as a matter of course. When such a political disturbance, arises there is only to abide its naturally and has given good satisfaction to all subsidence in the patience of hope. Today the spectacle is presented of Governor Hill, the most extreme case of subserviency to the whiskey interest ever known in American politics on a State scale, persistently aided and abbeted by the prohibitionists. The same general fact, with less personality, is presented in Ohio and lows. The country at large can pot fail to take note of this close and abhorred alliance. It is inevitable that the sincere friends of Prohibition the nonpolitical masses, will become disgusted with this sort of thing, and prohibition as a distinct political organization will go the way of the

parties and kindred political toad-

stocls. This may come soon, or it

may be delayed somewhat, but, how-

A Good Suggestion.

An exchange is agitating the scheme to name all country roads, as streets are now named, and to number the houses along these roads. THE to them who the candidates may be or CHIEF thinks the plan is a good one what their attitude, or even what the | and should be adopted by county boards. At present the roads have no designation except as incidently fall to them, and it is often difficult for strangers to find their way with out frequent inquries. Name your roads and let the name appear on each corner. It will then be easy to find as any house in the city, where the street and number are given.
