Strange, But True!

Fishes are weighed in their scales
And an elephant packs his own trunk;
But rats never tell their own tales,
And one seldom gets chink in a chunk.

Dogs seldom wear their own pants,
Which fact lays them open to scorn;
No nephew or niece fancies ants,
And a cow never blows her own horn.

A cat cannot parse its own claws,
No porcupine nibs his own quill;
Though orphan bears still have their paws,
A bird will not pay its own bill.

Sick ducks never go to a quack,
A horse cannot plough his own mane;
A ship is not hurt by a tack,
And a window never suffers with pane.

And so we might continue, but what we wanted to say, was, The Greatest Stock of Substantial Goods for the Holidays will be found at Cotting's Drug and Book store. The Largest stock in the city, and same prices on these goods will make you think we stole them (but we didn't.) Bought them awfully low, though. When you get ready to buy, come and see. and if you have time before you want to buy just come in and look around. We want to knock our stock down by the first of the year, and prices on anything in the store will be about right.

A large assortment of Christmas Goods, and Useful Articles Suitable for presents.

COME AND SEE US.

Our state senators have made good use of their time during the adjournment of congress. They have introduced several valuable bills for the consideration of congress.

Daniel F. Brewer, of Kansas, has been appointed associate justice of the supreme court of the United States, to fill the vacancy caused by the death of Justice Mathews.

The presidents message to congress is said to be one of the most state-manlike documents ever issued by any of our illustrious presidents. It contained about 20,000 words.

Lloyd Crabill now has full possession of the street railway. We believe that if Mr. Crabill will run the cars every 30 minutes that he would build up a good trade. The fare should be put down to a nickle, and the cars run for the accomodation of the people as much as possible. If the cars could be run at stated periods so that people could depend on them the traffic would be much greater. THE CHIEF wants to see Mr. Crabill succeed and believes that if he will make an effort to accomodate the traveling public, that the public in turn will appreciate it and help him out.

Congress has convened and it is to be hoped that they will do something to relieve the stringency of the money markets. The cry comes up from all over the country that money is scarce and hard to get hold of. If congress would put its foot upon some of the "Lords of creation" who are hoarding millions upon millions of dollars in their vaults of ill gotten gains, it will have done a great good. Then again these monstrous monopolies should be crushed out of existence as they are the means of making the poor poorer. What legislation there has been made for the benefit of the poor has been made by the republican party, and THE CHIEF hopes that it will not be slow in bringing about the necessary relief that is demanded. It is all right for men to gain riches, but no one man or set of men should be allowed to fence in the earth to the great detriment to the majority.

Mrs. A. G. Titus and Mrs. W. F. Kellogg received a telegram Monday Morning that their father had died at Westport New York, and both ladies left Monday evening for that state to be present at the funeral obsequies. The aged gentleman was in his 88th year.

All goods are sold at the New York Store at the lowest cash prices.

Joe Warren has moved his second hand store into the Moon block.

The water mains are being extended on South Seward street one half block.

Mayor Holland and G. W. Lindsey have gone to the Black Hills for a few days recreation.

THE CHIEF is indebted to Senator Paddock for a number of agricultural reports.

Mr. Dubois called this week and gladdened the heart of our reporter adding his name to the Great Family Weekly for a few months.

A. H. Brown, our enterprising marble yard man came in this week and made us smile with a big round dollar for the Great Family weekly.

Hacker & Parker are now wholesale jobbers in confectionary, etc. having sold a large amount of such goods in the last year. They are certainly one of our most enterprising firms.

Those people who have not been in to look at the immense stock of clothing, at the Golden Eagle will be astonished to find such an assortment and the low prices marked on them in plain English.

Howard Daggett came in this week and made the editor extremely happy by renewing his subscription for another year, besides sending a copy of the Great Family Weekly one year to friends in Canada. Thanks.

Mr. E. E. Green who has been managing the Y. M. C. A. rooms in this city has a good offer in Oregon open to which he expects to accept soon. Mr. G. is a worthy young man and we wish him success. He will sever his connection with the Y. M. C. A. and start for Oregon soon.

Howard Daggett who was recently injured on the B. & M. while coupling cars was on the streets this week much improved. He made THE CHIEF a pleasant call and informed our reporter that he expected to make a visit some time soon to his friends in Canada.

The Red Cloud Helmet is now one of the invincibles of the past. The gigantic laminary, G. M. Plumb having sought fields of wider toil. 'Tis well. Plumb was a kind of a side-show business anyhow.—Blue Hill Leader.

Business is picking up in Red Cloud, as is evidenced by the liberal patronage of the advertising columns of THE CHIEF. We have been compelled to print supplements for the last sixty days in order to give our usual quota of news. Our circulation is rapidly growing and advertisers find that it pays to invest their money where it does them the most good.

The grand ball given by the railroad boys last Thursday evening was a grand affair, and is reported as being one of the finest and most social entertainments that has ever taken place in the city. Much has been said about railroad boys, but when you find a class of men that have bigger hearts, more liberal, and enjoy life better than they do, we want to see them. We are pleased to be able to report the success of the entertainment. The boys richly deserve it.

The county press is discussing the commissioner system at some length for several weeks. For various reasons not here necessary to mention, the present system is decidedly the most popular not to say the best. A supervisor from each township can much better attend the needs of the county and their constituency than can three men. While the present system is a little more expensive its workings will be much more satisfactory.—Blue Hill Leader.

All Inequalities Of The Eyes.

Whether young or old, heretofore pronounced by others as an impossible to equalize the eyesight and furnish glasses, will now find their success by calling without delay on Professor Strassman, the expert optician of National fame, now in our city. Consultation Free.

The Mistakes of Others Corrected.

In the difficult application of combination glasses; and all kinds of cylindrical and prismatic lenses manufactured to order in the various meridians to meet all requirements of optical defects.

Our universal low prices are what catch the large buyers from outer towns. The last ten weeks they have been quite numerous with us.
