CHAS. SCHAFFNIT.
Moon Block, Red Cloud.

It is to be hoped that on January 1 1890, that every citizen of Red Cloud will appoint himself a committee of one to help build up Red Cloud. Now is the time to commence work on a sugar beet factory.

The subscription list of the Republican, still maintains that his circulation is the largest. A newspaper that has to force its subscriptions on the people whether they want it or not does not amount to much and the "Jersey Lilly" knows it. The Republican's list, free ones and all is not far from 500, while THE CHIEF'S list is 1000 and growing ever day. When the people want a good paper, they subscribe for the Great Family Weekly. Subscription \$1.00 per year. THE CHIEF'S city list is as large or larger than the "Jersey Lillies" whole number of papers.

A Happy New Year.

THE CHIEF wishes its thousands of readers a Happy New Year. On next Tuesday evening at 12 o'clock p. m. the old year will have taken its flight and 1890 will be ushered in with all the pomp and glory that its birth is entitled to. With the beginning of 1890 it will be in order to form new resolutions, and new determinations. In doing so it will be wise to make such resolutions as can be easily kept, and then you will be sure to keep them inviolate. We hope that with the commencement of 1890 that many new resolutions will be formed and that the year will be a prolific one for good deeds, bountiful crops and great prosperity to our people. THE CHIEF hopes that 1890 will be one of great happiness and prosperity for Red Cloud and Webster county.

The Farmer's Alliance.

We do not know much of the inside working of the Farmers Alliance, but if it is for the advancement of the farming class we would say that it should be propagated by all means, for if there is anything needed by the farmers it is an institution that will bind them more closely together in their business and social interests. There has always been a lack of unification among farmers and as a consequence they have been overridden by nearly all the other classes and made to take any price that the middle men saw fit to give them. Let them join forces and demand their rights, and if the Alliance will bring about the desired end, we should say "All Hail the Alliance." Give the farmers a chance and they will come out all right. It has been a lack of co-operation that has kept them down so long. It is time anyhow, for them to organize and protect themselves against the oppressive heel of monopolies which have banded together to crush the farmers and every laboring man.

The fearless editor may offend and lose a subscriber, but if he is right, in the end he will gain five. He may lose an advertiser, but if he is right he will gain two thereby. If he labors not to displease anyone he will please no one. If he tries to ride all the horses in the field he will be unhorsed by each one of them. The editor should follow his honest, well considered convictions, and the man he should labor to please is himself. If he does this with ability and without fear or favor, he will have a greater following and better support though he be wrong half of the time, than he who trims his sails to every change of the breeze, and without chart or compass, principles or purposes, drifts aimlessly about with every shifting tide.

There was quite an accident at Hastings this week. The freight train on the Grand Island and St. Joseph road ran into the B. & M. wrecking both engines and mortally injuring one or two men. If there is no law on the statute book compelling trains to stop at junctions, there should be. We have noticed a great many times in riding over the state that trains pay very little attention to crossings and rarely ever stop.

It is a fact that newspaper readers do not slight the advertisements. They have come to realize that the advertisements in the newspaper represents that which the merchants have for sale, and they take pains to familiarize themselves with what the storekeepers have to offer. Moreover the constituency of a paper are apt to be governed by what they see in their own paper. If the paper is accepted in its political, moral, and intellectual tone, as our home paper is, advertisers share the respect and the confidence bestowed upon the paper itself. This is an important fact for advertisers to remember, at the same time it calls for exercise on the part of the newspaper publishers of year care in the admission of advertisements.

Save Your Hair

BY a timely use of Ayer's Hair Vigor. This preparation has no equal as a dressing. It keeps the scalp clean, cool, and healthy, and preserves the color, fullness, and beauty of the hair.

It was indeed a happy thought to print an entire novel in each number.

Not a short novelette, but a long story such as you are used to get in book form and pay from one dollar to one dollar and a half for.

Not only that, but with each number you get an abundance of other contributions, which give you a good magazine besides the novel.

The ringing news which have been struck on the gateway of popular favor, have resounded throughout the entire land, and to-day Lippincott's Magazine stands in the front rank of monthly publications, and is the most widely-read and talked-of publication of its kind in the world. For full descriptive circular, address LIPPINCOTT'S MAGAZINE, Philadelphia \$3.00 per year. 25 cts. single number.
