The democratic party openly pronounces itself for free whisky.

Red Cloud has too many "Jack the Kickers," for the good of the city.

Will our people come to the front and take their lots in the watch factory addition. Fix up for your lots boys, and leave the factory, "Red Cloud" must get to the front in some manner.

To depend solely on agricultural products will never build up Red Cloud. Now is the time to get there. If the watch factory goes other factories will come, and in time we will be another Pittsburg if we rustle. Will you do it?

The people of the 2d congressional district, and especially the republicans, are beginning to find out that they have one of the cleanest and most pure men in the front of Mr. Harlan, that has ever been nominated for congress.

He is anti-monopolist, pure and unadulterated, and a man that if elected the people will not be ashamed of. The alliance people and all others should investigate these statements, and they will find them to be correct.

THE CHIEF is for Harlan, a man whose public and private record is unassailable.

The alliance cause is one that should thoroughly interest every farmer in the country (outside of prairie) if kept up to a degree of excellence that it was intended to be.

The farmer needs society that will do him good, where the question of farming in all its branches can be thoroughly discussed.

Any mutual benefit association of this kind will help the farmer to rise to a higher plane. Nothing worthy of note has been accomplished in the agricultural world that would materially benefit the farmer that has not been known for 50 years, and therefore, advancement in that direction has not been as rapid as it should have been.

Let the alliance of kindred associations if carried on right should do much towards gaining that all important end. Let the good work go forward.

Walnut Creek. Geo. Beedy has sold his cattle, Sam Heaton getting part and Chas. Hunter the rest.

The latest "gag" in henville is "you make me think of a nigger."

Dennis was at a loss to know what it meant and was told to ask Hall and had a hammer thrown at his head in reply.

There's a phonograph in Inavate which in nasal tones remarks each time you give the crank a turn, "I nominate Mr. Parkes."

The Phenix Insurance Co. is to be congratulated. The school house in District 10 was insured with this company and in the young tornado which was had early in the summer was badly wrecked and twisted to the extent of \$200 as reported by one of the most competent builders in Red Cloud.

The company was notified and through their Red Cloud agent refused to pay any damage claiming that the house was not injured and the school board were told that if they wanted anything to see for it, insurance (in some cases) is a good deal like matrimony.

Dennis learns with surprise and pleasure that there is a man in Inavate whose mission in life is to lift up the fallen and bind up the wounds of the bleeding. As they say in Pinarof, "It is greatly to his credit, for he himself has said it."

G. W. Knight is doing the "wild west" act in Boston, the town where you have to get down to get a drink.

School in District 3 has been postponed until September 1st, owing to the "funny work" of certain parties whose voice is always for war, between battles, sort of guerrillas as it were.

Jimmy Hale is preparing to shake the dust of Nebraska from off his feet. Evidently Jimmy has yet to learn that "the rolling stone never acts fat."

Bill Irons is busily engaged in circulating prohibition literature. William doesn't get \$100 a night, in fact doesn't get anything but he rustles just the same.

John Robinson has just finished a new bridge on Buffalo creek at the Downs crossing. It is a daisy and didn't cost more than the assessed valuation of the township either.

All McCall is up to his eyes in work. This is hay season and you can ride on a moving machine.

Bill Rinkle went to Kansas City last week and saw one of the new river park-its which he took for a schooner, anyway he is always talking about those big schooners and it must be the parks he means.

John Zede says this is a campaign of principle and not boodle and refuses to be held up. Dennis would suggest that this will be a campaign of experience and judging by the start that has been made the farmers are going to get the experience.

If ever a leader was needed he is needed in Nebraska today. If the Alliance expects to win this fall, hush is the word.

As a starter, to succeed Dennis should do that which it took for a good idea to put men of influence and brains in the official positions of each subordinate alliance. Men moreover whose sympathy with the alliance is practical and not theoretical, who are going to vote as they talk and who haven't been delegates to conventions of the old parties.

Dennis knows of several alliances that might try this shoe on just for fun.

"If this is treason make the most of it."

Justice, Kans. The nice rains we have had in the past week have caused everything to begin to look green. The prospect for some more is much better than it was two weeks ago.

the church and prosperity all implore us to think and act wisely and rightly while we vote. Finance is the next supreme question and in vain so far have we voted for justice through the grand old parties. A letter financial system more justice to the laboring classes must be had at the next election through the grand old parties, or a new cast of political elements is inevitable. It is feared or hoped that they are incapable of reformation.
