T. DeWitt Talmage gave a glowing de-scription of the melodies of the celestial land. His text was from Revelations v. 9: "And they sang a new song." Fol-

lowing is the sermon: Nearly all the cities of Europe and America have conservatories of music and associations whose object it is, by voice and instrument, to advance the art of sweet sounds. On Thursday nights Exeter Hall of London used to resound with the music of first-class performers, who gave their services gratuitously to the masses, who came in with free tickets and huzzaed at the entertainment. At Berlin at eleven o'clock daily, the military band, with sixty or one hundred instruments, discourses at the Royal Opera House for the people. On Easter Sunday, in Dresden, the boom of cannon and the ringing of bells bring multitudes to the churches to listen to the organ peals, and the exciting sounds of trumpet and drum. When the great fair day of Leipsic comes the bands of music, from far and near, gather in the street and bewilder the ear with incessant playing of flute, and horn, violin and bassoon. At Dusseldorf, once a year, the lovers of music assemble and for three or four days wait upon the great singing festivals, and shout at the close of the choruses and greet the successful competitors as the prizes are distributed-cups and vases of silver and gold. All our American cities at times resound with orches-

landed by excited admirers. There are many whose most ecstatic delight is to be found in melodies, and all the splendor of celestial gates, and all the lusciousness of twelve manner of fruits, and all the rush of floods from under the throne of God would not make and transporting harmonies.

We've heard of a woman who said she'd walk five miles to get a bottle of Dr. Pierce's Favorite Prescription if she couldn't get it without. That woman had tried it. And it's a medicine which makes itself felt in toning up the system and correcting irregularities as soon as its use is begun.

Go to your drug store, pay a dollar, get a bottle and try it-try a second, a third i necessary. Before the third one's been taken you'll know that there's a remedy to help you. Then you'll keep on and a cure 'll come.

But if you shouldn't feel the help, should be disappointed in the results-you'll find a guarantee printed on the bottle-wrapper that'll get your money back for you.

How many women are there who'd rather have the money than health? And "Favorite Prescription" produces health. Wonder is that there's a woman willing to suffer when there's a guaranteed remedy in the nearest drug store
