HOTEL HORROR.

of the Leland Hotel at Syraouse, N. Y.

Personal Personal Reported on Hov Perithed - Goosts Jamp From Windows and Are Dashed to Please-thesh-

STRACUEL N. Y., Oct. 16.-What roved to be the most disastrous fire that has visited Syracuse for many years was discovered in the Leland Hotel at 12:30 o'clock this morning. An eye witnes to the fire says it is positive that at least twenty-five perone have lost their lives and many nore have been more or less injured.

One woman was being lowered from a window by the aid of a rope. She had reached a point opposite the third story when the rope became ignited from a burning sill, the rope parted, and the woman fell to the pavement, her brains being dashed out and her body flattened into a shapeless mass.

Frank Carrick, of Glenns Falls, N. Y., has been identified as one of those that were burned to death.

Many people crazed with fright lost their lives by jumping from windows. One man says he saw six people jump from different windows on the Favette street side of the building within a space of four minutes and the sight sickened him with its borror and he was compelled to leave the spot.

The buffding was provided with both ron fire escapes on the outside and ropes on the inside, which were the neans of saving many lives. Among those injured is Cora Tanner, the actress who was severely burned about the head and feet. She was playing an engagement at the Grand Opera House, and had a room in the hotel. Most of those killed were on the fourth and fifth stories. Frank Casey, of Glenns Falls, N. Y., and Emil Forbes, a prominent brewer

of Syracuse, are among the dead. The building will be a total loss. was built two years ago at a cost of \$150,000 and the total loss must be \$500,-000. It was six stories high and contained 400 rooms. The fire, which started in the kitchen,

TRADE REVIEW.

Dur's Weskly Review thous Trade to Me

New Your, Oct. 18.-R. G. Dun . Co.'s weekly review of trade says: In all directions business improves and the volume of trade is so increased that, notwithstanding the recent enormous increase of circulation, the money markets are growing stringent. Exports have become remarkably large, and the domestic trade is such that exchanges outside of New York exceed last year's by 15 per cent. But while New York and Boston money markets are fairly supplied and steady at from 5 to 6 per cent, the market is tight at Chicago and stringent at Philadelphia, only part of the commercial paper offered being taken at from 6 to 7 per cent St Louis notes an active market at 7 to 8 per cent. Milwaukee a close market at 7 and Savannah a tight market. But at Cleveland and Detroit the markets are rather easier, at Kansas City firm, at Deaver a good demand is well sustained, at Omaha the market is easy and at Pittsburgh there is a good demand without stringency.

Trade is strong everywhere. At Boston wool is rising and goods in better demand, while cottons are selling well and firm. At Philadelphia wool is more active and slightly higher, the output of cotton is increasing, there is an increased demand for paper with tendency towards advance in some grades, and the liquor trade is stimulated by new duties. Chicago reports smaller receipts of green and cured meats and dressed beef, cheese and butter than a year ago, but a slight increase in lard and double the receipts of wool and larger transactions in dry goods and merchandise generally, with satisfactory payments St Louis merchants are adjusting themselves to new tariff conditions and trade is strong. At Cleveland and Milwaukee bad weather has retarded trade, which is nevertheless of fair volume, At St. Paul, Omaha, Denver and Kansas City trade is good. At Minneapolis the flour output declines to 166,000 barrels, but wheat receipts were 1,800,000 bushels. At Pittsburgh the iron and glass trades are active, with a prospect of an advance in window glass,

and at Savannah trade is brisk. The new tariff has caused an advance in prices of some kinds of goods, which together with the rise resulting from partial failure of crops has moved up the general level of prices materially, though less than one per cent on all commodities since October 2. But the was first discovered the entire building higher range of prices accounts in part was wrapped in flames. It was impos- for the quick absorption of a circulation

DEATH OF BELKNAP.

General Grant's Disgraced Secretary of War Found Dead in His Room. WASHINGTON, Oct. 13. - General William Worth Belknap, President Grant's grace, was found dead this morning in a room adjoining his office at No. 1420 New York avenue. It is thought that death was due to paralysis. It is believed he died between midnight Saturday morning and eight o'clock Sunday morning. General Belknap was born in Newburg, N. Y., September 22, 1829. His father was Colone! William G. Belknap, who fought with distinction in the war of 1812, and later, in 1829, founded Fort Leavenworth. The younger Belknap studied law in Georgetown, D. C., and jumped from the upper stories onto a church had the appearance as if some after being admitted to the bar removed to Keokuk, Iowa, where he practiced his profession with more or less success.
