Permers' Allence in Season at Omaha. OMAHA, Neb., Jan. 38.—When the Farmers' Alliance convention resumed its session yesterday the revision of the Constitution was begun.

An amendment proposed making all laboring men eligible to membership provoked a heated debate, during the course of which President Powers said that such an amendment would break up the organization. He said: want to carry the next election, and if we extend the qualifications beyond farmers the cities will take advantage of that point. New York City could send \$1,000,000 to Omaha to pay initiation fees, and in a few months designing politicians would hire enough men to join the order so that Nebraska would be in the mands of the ring. The same will be true in other States. It would result in the capture of the National Alliance, body and soul. This movement started among farmers and should be kept there." The amendment was tabled by a large vote.

In the afternoon the report of the committee on resolutions was presented and was considered by paragraphs. The following were adopted:
