What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchin,
Quincy, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Archer, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

A Profound Enigma.

(Written for THE CHIEF.)
"I see them on their winding way,"
About the streets they run and play.
In many a fight and fuss are seen,
Because they are so dogged men.

When dog-days come and pools abound,
The peevish critters will be found,
To cool their skins and wet their hair,
Dogmatically wallowing there.

Then out they go upon the street,
And run between my twelve inch feet,
They soil my shoes in such away,
Dog on it! I could almost say.

At night about my house they prow,
And snarl, and snarl, and bark, and howl;
I fling at them, with might and main,
My walking-stick, my dogwood cane.

I scatter them with white and yelp,
And I ain't would ask my neighbor's help,
Dear reader can you guess and tell
The subject of this doggerel?

The names of teachers in the districts having spring terms will be given some time in the future.

Mr. L. W. Smith of Thayer county, has entered upon his duties as Principal of the Guide Rock schools. He has taken the place of Mr. Probasco who lately accepted a position in the Lincoln schools.

Mr. Smith, comes to our county well recommended. While we welcome him, we regret the removal of one who we know has done good work in the schools and in our teachers' meetings.

The Reading Circle near Bole is a credit to the teachers in that part of the country. It proves that the Reading circle can be made interesting and profitable, if sufficient energy is used by the teachers to make it a success. All that is needed is a desire on the part of teachers to improve professionally.

Low salaries will not obtain good teachers. Teachers who will not try to improve should not expect to receive high salaries.

Arbor Day is coming, let us prepare to observe it.

On last Saturday evening, the schools of districts number 7 and 49 united in giving an entertainment under the direction of the teachers, Jno. M. Earner, and F. S. King. Although the weather was disagreeable, the house was crowded with spectators. The exercises were good, and all returned to their homes well pleased.

On Saturday evening, March 12th, the Bole Reading circle met at the school-house in district number 36.

In addition to the regular work in reading, there was quite an interesting discussion of the subject, Civil Government. Why it should be taught in the Public schools, opened by J. M. Earner. Another subject of much importance to all patrons was discussed; "Obligations of Parents to the Public School." Mr. J. L. Springer led in this discussion. After some talk on penmanship the meeting adjourned.

At the next meeting of the Bole circle to be held on the evening of March 26th, the principal subject for discussion will be, Needs of a Practical Education and means of obtaining it. This is a real live subject for consideration and no doubt these hearing the discussion and taking part in it will profit thereby.

School officers, teachers, and others interested in education are always welcome at the office of the County Superintendent.

Items of school news are acceptable for this department at any time.

The Webster county, Teachers' Institute will be held at Red Cloud, commencing June 27th, and continuing in session three weeks.

Blanks for teachers monthly report to the County Superintendent will soon be sent to teachers to be used during the spring term.

The public generally will regret to learn of the recent death of Rev. C. W. Springer, an account of which will be found in another column of this paper. Those associated with him in his work as County Superintendent, and an earnest and faithful educational worker, in the past, extend their sympathy to his bereaved family and friends.

BAKING POWDER

In the New York Legislature.

The following taken from "The Oil Paint and Drug Reporter," refers to a new bill just introduced in the legislature of New York State:

"The latest development in the baking powder war, is the introduction of a bill in the Legislature of this State, requiring all packages of baking powder which contain ammonia to be branded with a statement of that fact in large type on the label.

Now while the ammonia contention is on, why cannot the law give the public the benefit of the doubt? Wholly unprejudiced people are certainly not willing to be dosed with the substance acknowledged as a poison, simply because scientists, some of whom are not even physiologists, disagree as to its potency."

A similar bill was introduced last April but it is shrewdly surmised that the influence of interested parties prevented its passage. The provisions of the present bill are so just that it probably will soon become a law.

This will be welcome news to the manufacturers of pure Cream of Tartar baking powders, the most prominent of whom is the Price Baking Powder Company, of Chicago and St. Louis, makers of Dr. Price's Cream Baking Powder, who have always made a strictly pure Cream of Tartar powder, notwithstanding the temptations of adulteration suggested by the enormous profits realized by a large New York concern which uses ammonia, and advertises its powder as strictly pure, by means of garbled official reports and certificates signed by its employees dubbed professor, doctor or government chemist, as fancy may dictate.

A bill compelling alum powders to be conspicuously labelled as such, already exists in Minnesota and it is hoped in the interest of the consumer that similar laws will soon be enacted in other states, for ammonia as well as alum.

The following powders known to be contain either ammonia or alum or both, will be affected by the proposed legislation:

Royal, Pearl, Calumet, Chicago Yeast Forest City, One Spoon (Taylor's), Bon Bon, Kenton, Echo, Snow Puff, Unrivaled, Yarnall's One Spoon Shephard's Economical, Crown, Clymax, Hercules, Monarch, New Era, Snow Ball.
