The committee on credentials not being ready to report several speakers entertained the delegates with short addresses.

PERMANENT ORGANIZATION. At 12:15 o'clock in the afternoon the

convention was ready for permanent organization. The report of the com-

named William L. named William L. Wilson, of West Vir-ginia, as permanent chairman, S. P. Sheerin as permanent secretary and a list of assistants and . vice presidents and secretaries by states. On motion of Don

M. Dickinson a com-W. L. WILSON. mittee of five was delegated (himself being named by the chair as the head of the committee) to notify the permanent officers of their election and escort them to the platform.

Upon taking the chair Mr. Wilson spoke at length, in which he reviewed the work to be accomplished by the party in the interest of reform, and severely criticised the McKinley tariff bill and all tariff laws except what are necessary to furnish revenue to support the government economically adminis-

declare it to be a fundamental principle of the democratic party that the federal government has no constitutional power to impose and collect tariff duties, except for the purpose of rev-enue only and we demand that the collection of such taxes shall be limited to the necessities of the government when honestly and economically administered.

We denounce the McKinley tariff law enacted by the Fifty-first congress as the culminating atrocity of class legislation; we indorse the efforts made by the democrats of the pres-ent congress to modify its most oppres-sive features in the direction of free raw materials and cheaper manufactured goods that enter into general consumption: and we promise its repeal as one of the beneficent results that will follow the action of the people in entrusting power to the democratic party. Since the McKinley tariff went into operation there have been ten reductions of the wages of laboring men to one increase. We deny that there has been any increase of prosperity to the country

since that tarif went into operation; third, we point to the duliness and dis-tress with wage reductions and strikes in the iron trade as the best possible evidence that no such prosperity has resulted from the McKinley act. We call the attention of thoughtful Americans to the fact that after thirty years of restrictive tariff against the importation of foreign wealth in exchang naricultural surplus the homes and farms of the country have become burdened with a real estate mortgage debt of over \$2,500,-600,000, exclusive of all other forms of indebtedness: that in one of the chief agricultural states of the west there appears a real estate mortgage debt averaging \$165 per capita of the total population, and that similar conditions and tendencies are shown to exist in the other agricultural exporting states. denounce a policy which fosters no industry so much as it does that of the sheriff. See 4. Trade interchange on the basis of re-

etprocal advantages to the countries participat-ing is a time honored doctrine of the democratic faith, but we denounce the sham reciprocity which juggles with the people's desire for en-larged foreign markets and freer exchange by pretending to establish closer trade relations for country whose articles of export are almost exclusively agricultural products with other coun-tries that are also agricultural, while erecting a custom house barrier of prohibitive tariff taxes against the richest countries of the world, that stand ready to take our entire surplus of products and to exchange therefor com modities which are necessaries and comforts of

life among our own people. Sec. 5. We recognize in the trusts and combinations which are designed to combinations which are designed to enable capital to secure more than its just share of the joint product of capi-tal and labor a natural consequence of the prohibility taxes which prevent the free

competition which is the life of honest trade: but we believe their worst evils can be abated by law and we demand the rigid enforcement of the laws made to prevent and control them, to-gether with such further legislation in restraint of the abuses as experience may show to be nee

ssary. Sec. 6. The republican party, while professing policy of reserving the public land for small boldings by actual settlers has given away the people's heritage till now a few railroad and non-resident aliens, individual and cor-porate, possess a larger area than that of all our farms between the two sens. The last democratic administration reversed the improvident and unwise policy of the republican party touching the public do main, and reclaimed from corporations and syndicates, alien and domestic, and restored to the people nearly 100,000,000 acres of valuable and to be sacredly held as homesteads for our

citizens, and we pledge ourselves to continue this policy until every acre of land so unlaw fully held shall be reclaimed and restored to Sec. 7. We denounce the republican legisla

tion known as the Sherman act of 1830 as a cow ardly makeshift, fraught with possibilities o danger in the future which should make all of its supporters as well as its author anxious for its speedy repeal. We hold to the use of both gold and silver as the standard money of the country and to the coinage of both gold and sil-ver without discriminating against either metal, or charge for mintage, but the dol-lar unit of coinage of both metals must be of equal intrinsic and exchangeable value, or be adjusted through international agreement or by such safeguards of legislation as shall in-sure the maintenance of the parity of the two metals and the equal power of every dollar at danger in she future which should make all of

metals and the equal power of every dollar at all times in the markets and in the payment of debts: and we demand that all paper currency

exposition as a national undertaking of vast im portance in which the general government has invited the co-peration of all the powers of the world and appreciating the acceptance by many of such powers of the invitation so extended and the broad and liberal efforts being made by them to contribute to the grandeur of the undertake ing we are of the opinion that congress should make such necessary financial provisions as should be requisite to the maintenance of the

national honor and public faith Sec 17. Popular education being the only safe basis of popular suffrage, we recommend to the several states most liberal appropriation for the public schools. Free common schools are the nursery of good government and they have always received the fostering care of the democratic party, which favors every method of increasing in-telligence, freedom of education being an essential of civil and religious liberty as well as a necessity for the development of intelli gence must not be interfered with under any pretext whatever. We are opposed to state in-ference with parental rights and rights of conscience in the education of children as an in-fringement of the fundamental democratic doctrine that the largest individual liberty consis-tent with the rights of others insures the highest type of American citizenship and the best government.

Sec. 19. We approve the action of the pres cut house of representatives in passing bills for the admission into the union as states of the territories of New Mexico and Arizona and we favor the early admission of all territories having the necessary population and resources to entitle them to statchood, and while they remain territories we hold that the officials ap-pointed to administer the government of any territory together with the Districts of Columbia and Alaska should be bona fide residents of the territory or districts in which their duties are to be performed. The democratic party be lieves in home rule and the control of their own

affairs by the people of the vicinage. See 19. We favor legislation by congress and state legislatures to protect the lives and limbs of railway employes and those of other hazard-ous transportation companies, and denounce the inactivity of the republican party and par-ticularly the republican senate for causing the defeat of measures beneficial and protective to this class of wageworkers. Sec. 20. We are in favor of the enactment by

Sec. 20. We are in haver of the enactment by the states of laws for abolishing the notorious sweating system, for abolishing contract con-vict labor and for prohibiting the employment in factories of children under 15 years of age. Sec. 21. We are opposed to all sumptuary laws as an interference with the individual richts of the children. ights of the citizens.

Sec. 22. Upon this statement of principles and policies the democratic party asis the in-telligent judgment of the American people.

Mr. Wilson closed at 12:45 and Wm. H. Engligh, of Indiana. presented the report of the committee on rules.

Delegate Phelps, of Missouri, then presented in behalf of the miners of Missouri a gavel of zine as a protest against the tariff upon the metal. As the shining hammer was held aloft by the chairman a great shout went up and a hearty clapping of hands.

The convention then took a recess to 5 o'clock.

At the evening session the platform was adopted as follows:

Section I. The representatives of the demo-cratic party of the United States in national convention assembled do reafium their allegiance to the principles of the party as formulated by Jefferson and exemplified by a long and it by states of his successors in democratic leadership from Madison to Cleveland: we be-lieve the public welfare demands that these principles be applied to the conduct of the fed-eral government through the accession to power eral government through the accession to power of the party that advocates them; and we sol-emnly declare that the need of a return to those fundamental principles of a free popular gov-erament, based on home rule and individual liberty, was never more urgent than now, when the tendency to centralize all power at the fed-eral capital has become a menace of the reserved rights of the states that strikes at the very roots of our government under the constitution as framed by the republic.

Sec. 2. We warn the people of our common country, jcalous for the preservation of their free institutions that the policy of federal con-trol of elections to which the republican party has committed itself, is fraught with the gravest dangers scarcely less momentous than would result from a revolution practically eswould result from a revolution practically es-tablishing monarchy on the ruins of the repub-lic. It strikes at the north as well as the south, and injures the colored citizens even more than the white it means a horde of dep-uty marshals at every polifag place armed with federal power, returning boards appointed and controlled by a federal authority, the outrage controlled by a federal authority, the outrage of the electoral rights of the people in the sev-eral states, the subjugation of the colored peo-ple to the control of the party in power and the reviving of race antagonisms now happily abated of the utmost peril to the safety and happiness of all: a measure deliberately and justly described by a leading republican sen-ator as "the most infamous bill that ever crossed the threshold of the senate." Such policy, if sanctioned by law, would mean the dominance of a self perpetuating oligarchy of crossed the threshold of the senate." Such policy, if sanctioned by law, would mean the dominance of a self perpetuating eligarchy of effice-holders, and the party first entrusted with its machinery could be dialodged from power only by an appeal to the reserved right of the people to resist oppression, which is inherent in all self governing communities. Two years ago this rev-olutionary policy was emphatically condemned by the people at the polis, but in contempt of that verdict the republican party has defiantly declared in its latest authoritative utterance that its success in the coming elections in all the states. Believing that the preservation of republican government in the United States is dependent upon the defeat of this policy of legalized force and fraud. we invite the sup-port of all citizens who desire to see the consti-tution maintained in its integrity with the laws pursuant thereto, which have given our country 100 years of unexampled prosperity: and we pledge the democratic party. if it be control over any for only to the defeat of the force bill, but also to releations expenditure which, in the short space of two years, has squandered an enormous surplus and emptied an overflowing treasury, after piling now burdens of taxation upon the already overtaxed labor of the country. piling new burdens of taxation upon the already

fluctuating currency. Sec. 8. We recommend that the prohibitory 10 per cent tax on state bank issues be re-

pealed. Soc 9. Public office is a public trust. We reaffirm the declaration of the democratic na-tional convention of 1876 for the reform of the civil service and we call for the honest enforcecivil service and we call for the honest enforce-ment of all laws regulating the same. The nom-ination of a president, as in the recent repub-lican convention by delegates composed large-ly of his appointees, holding office at his pleas ure, is a scandalous satire upon free popular institutions and a striking illustration of the methods by which a president may gratify his ambition. We denounce a policy under which federal officeholders usurp control of party conventions in the states, and we pledge the democratic party to the reform of these and all

democratic party to the reform of these and all other abuses which throaten liberty and local elf-government. Sec. 10. The democratic party is the only party that has ever given the country a foreign

While avoiding entangling alliances, it has almed to cultivate friendly relations with other nations, and especially with our neighbors on the American continent, whose destiny is closely linked with our own, and we view with alarm the ten-dency to a policy of irritation and bluster which is liable at any time to confront us with the alternative of humiliation or war. We favor the maintenance of a navy strong enough for all purposes of defense and to properly main-tain the honor and dignity of the country abroad
