GRAND ISLAND Business College

\$15,000 TO LOAN TO WORTHY STUDENTS.

No money required to receive an education at this college. The only conditions of admission are a good moral character and an ambition to secure an education. This college has set aside \$15,000 to be loaned during the present year to young people who wish to attend our school, but have not the ready funds. All the time needed will be given in which to pay the loan; and a student can take a full course to graduation without a dollar to begin with.

IT IS BEST TO PAY AS YOU GO; but if this is impossible you cannot afford to start in life without an education when you have an opportunity like this. Ten states represented in the attendance and fifty graduates last year. Board in private family \$2.00 per week.

We teach the Electric Short-Hand which can be learned in less time than other systems. After you have read the circulars of all other schools, send for our catalogue and we will leave it to your judgment which school in the west ranks first in standing. Address,
A. M. HARGIS, Pres., Grand Island, Neb.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osceola,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchener,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Archer, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Institute Notes.

Last Monday being the 4th of July according to announcement in this department last week, institute was not in session. Judging from the reports of many, the holiday was enjoyed by the teachers.

Tuesday is noted for a large increase in numbers. The number now enrolled being ninety-one.

Interest in the work of the institute is increasing as the days are passing.

As usual the number of ladies enrolled is larger than the number of gentlemen, there being sixty-eight ladies and twenty-three gentlemen.

Prof Beattie's lecture at the Methodist church on last Tuesday evening was well attended, interesting and instructive. A glee club composed of members of the institute sang two pieces of music.

On Friday morning, Prof Beattie, before leaving for his home in Lincoln gave an interesting talk to teachers in the institute.

We are pleased to see some visitors but should be better pleased if the number of visitors would increase.

The International Dictionary is in constant use. All find the study of orthography very interesting when directed by an able teacher. A "Chart of English Sounds" is given to each one in the class.

"The National School Singer" is the book used during the opening exercises. All are learning the songs in it and will use it in their schools next fall. The children of every school should sing.

The instructors are following to some extent, the excellent "Manual of Institute Work" prepared under the direction of our efficient State Superintendent. Each one enrolled has a copy of it.

Twenty-five schools of our county have school work on exhibition.

Mr. Miller, editor of the North-Western Journal of Education, was a pleasant visitor last Wednesday morning. In his usual forcible manner, he gave the teachers some good points in regard to teaching and school management.

Every teacher, and school board should subscribe for the North-Western Journal of Education. By a united effort in patronizing one educational journal in the state, Nebraska may have at least one permanent first-class state educational paper. Let us help the North-Western Journal to afford to be permanent, and to continue to be good and to improve.

The school work on exhibition from the Prescott school, Lincoln, Neb., is of much benefit to us. It shows how neatly work can be done by children. All children can do exact and neat work if properly taught. The proper study of drawing has a tendency to cause us to do all kinds of work in a systematic manner.

It seems that the weather should receive some attention even in an educational column. It has been cool and pleasant greatly to the advantage of students and teachers doing their work.

The janitor, Mr. Scammon, is an obliging and trusty as he always has been.

Annual and Census reports, coming to the office at this time of year, add somewhat to the work of the Superintendent during the institute.

Rev. J. D. Palis will lecture in the Baptist church on the subject, "Character and Spirit of Teaching," next Tuesday evening at 8 o'clock. All

interested in education are cordially invited to be present.

Principal Hart of Franklin Academy was an agreeable visitor last Thursday. His talk to the institute was much appreciated.
