TAHLEQUAH, I. T., Nov. 5 .- Ned Christie, the notorious outlaw who killed Dan Maples, a United States officer, is dead. He was surrounded, about daylight by sixteen of the bravest men uuder Col. Yoe's command, who were led by Dick Bruno and A. G. White.

The presence of the officers was entirely unknown to Christie until about sunrise, when Arch Wolf, one of Christie's companions, came out of the cabin. He was ordered to surrender, but the only reply he gave was a shower of bullets, none of which, however, took effect. The fire was returned and several bullets crushed through him. He managed to get back into the house, and then began an all-day's battle, in which neither side suffered any damage.

Later in the evening the officers resorted to dynamite, and succeeded in blowing down part of the house and setting fire to the ruins. While the blaze was at its fiercest, Christie was seen to emerge from under the floor and he started to run, but was ordered to halt. He did not stop and was riddled with bullets, mutilating him terribly and knocking him down. He tried to regain his feet, but another volley settled him, and the officers turned their attention to the burning building and discovered Charite Hare trying to escape. He was arrested. The body of Wolf, who had been wounded early in the morning, was burned to a crisp in the building.

The fight was an extremely tough one and lasted twenty-four hours. The females of the Christie family were allowed to retreat at the beginning of the fight, during which a young son of Christie was intercepted while he was trying to take to his father two boxes of cartridges. The body of Christie was taken to Fort Smith. There is some doubt about the rewards for Christie being paid, as they were offered for him alive, though the friends of Maples will probably reward the brave men for the risks they have taken. One month ago the officers attempted to make a prisoner of Christie, but were obliged to abandon the attempt, not being acquainted with the place, but not until Officer Fields was seriously wounded and another officer crippled for life.

During Christie's career of lawlessness he has killed one deputy marshal, three Cherokee Indians, and has wounded three other deputies and over a dozen law-abiding citizens. For the last six years he has remained at his fortified cabin, where he met his death, defing all attempts to capture him. He was about 45 years of age and was a perfect specimen of physical manhood. He possessed more than the ordinary amount of intelli-gence, and before becoming an ontiaw was an experienced gunsmith.

BUSINESS ACTIVE.

Notwithstanding the Presidential Election
- Batrome Low Price of Wheat. NEW YORK, Nov. 5 .- R. G. Dun & Co.'s weekly review of trade says: Even in the last week before a presidential election business has continued very active; indeed, the volume is far be youd any precedent for a similar period. The coming election has plainly diminished business in two ways: multitudes have been diverted from trade to political activity, and many more have chosen to postpone transactions until the political uncertainty has been removed. The fact that even under such circumstances trade has been of enormous volume shows how powerful is the impetus toward activ ty and expansion. The people are clearly buying more goods than ever before, and in some branches manufacturers are realizing a sharp advance in prices. Money is closer at some western points,

prehension as to the immediate future. Wheat has touched the lowest point ever known in this market, 731/4 cents, receipts at western points being still enormous, though this week averag-ing a little less than 1,500,000 bushels daily. Exports have much increased and a recovery in price to 74% cents has resulted, but the decline for the week is still 1% cents. Corn has fallen a cent with moderate movement.

NEW ORLEANS, Nov. 5.-At midnight the amalgamated council of the American Federation of Labor called a general strike of all the unions represented by that body. It will be put in opera-tion at midday. The recommendation for the action was signed by forty-six unions. Almost every branch of trade will be tied up, including the street cars. It is said the Typographical union will reconsider its action and join in the strike. There are grave fears of violence, as there will be between 60,000 and 70,000 idle men on the

Utes in Colorado May Recome Trouble-some After Troops are Removed Nava-Joes Bestive.

GRAND JUNCTION, Col., Nov. 2 .- That the settlers near the Uncompangee Uto reservation are alarmed over the removal of the troops from Fort Duchesne is evident from the following letter received by a gentleman in this city:

'On November 15 the remaining troops now stationed at the fort will be removed to Fort Logan and then about 3,000 people in Ashley valley will be at the mercy of at least 5,000 bloodthirsty, pilfering Utes. The settlers are alarmed and do not understand just why this move was made, but the Indians are already gotting stubborn and only a few days age two bucks stopped broadside in the road and forced a ranchman to drive around them. It is getting a little late in the season for them to don the war in the spring. The Meeker and Thorn-burg affairs will be repeated."

NAVAJOES RESTIVE ALBUQUERQUE, N. M., Nov. 2 .- A report reached this city from authority considered reliable that a very serious outbreak is threatened among the Navajoes. Black Horse, a well known chief who controls a large number of young bucks in the tribe and has always sought opportunity to create disturbance, is said to have put himself at the head of his faction occupying the Carrezino mountains and they have sworn war and extermination upon any people attempting to enter those mountains. If trouble is precipitated it will bring the peacoful and warlike element of the Navajo tribe into bloody collision. No details can be ascertained at this hour, but it is certain that all the cavalry stationed at Fort Wingsto left early yesterday morning on a forced march for Camp Defiance. Trouble of a serious nature is manifestly antici-

BANK ROBBERY.

Robbers Clean Out the Spearwille, Kan., Bank-A Crippled Cuabler Held Up. Donge City, Kan., Nov. 2 -About o'clock yesterday afternoon three masked men rode slowly into Speareviile, a little town seventeen miles east of here, and haited in front of the only bank in town. Two of them want in-nide and, placing a Wineheater under the nose of Cashier Baird, who is a cripple, compelled him to hand over all the cash on hand, about \$10,000. They then went out, mounted their horses fired several shots in the air and galloped out of town, going south.

Another report sent out by a citizen of Speareville says the robbers took but \$1,700, in their haste overlooking another large sum in the vault. A confederate held their horses outside, on which the robbers escaped. What was going on was not discovered by eitizen till the men ran out of the bank, when several citizens who had just come in from hunting opened fire on the robbers and about fifteen shots were exchanged, but no one was hurt. The men rode south and, according to this report, were soon overtaken by a mounted posse, with whom many shots were exchanged, but the robbers finally got

The Jury Addressed on Behalf of Col. Streater, the Defendant.

PITTSBURGH, Pa., Nov. 2.—In the Iams case ex-Senator Robbins, quartermaster of the Tenth regiment, addressed the jury. He said they had nothing to conceal, nothing to deny and were accused of nothing. Col. Hawkins was made commander of the Third provisional brigade and was for the time being a general and had nothing to do with the Tenth regiment. The defense would prove that Iams made himself sick while hanging by the thumbs by swallowing tobacco. Not-withstanding that Col. Streator had pointed out with father-ly solicitude the enormity of the crime, Iams was defiant and was defiant still. No injury was inflicted by the punishment, which was a common one in the army. If an officer could be convicted for punishment that was reasonable and without malice the national guard would be disorganized

Doesn't Believe in Miracles. CANTON, Minn., Nov. & .- The Church of the Assumption, where the miraculous window has effected so many cures, has been closed by order of a church committee. No reason is as-signed save that Bishop Cotter, of Winona, in whose diocese the church is, has ordered the pastor to absent him-self and to do his best to keep cripples away. The window has been a godsend to the merchants of this city, who have experienced a great revival in trade, but this will now be lost. FUNNY LITTLE ROMANCE.

A Funny Little Wridegroom Locked Up By NEW YORK, Nov. 4 .- A romantic little story was developed in the Essex market police court when Hymen Schachner, a youthful German, was taken before Justice Hogan and charged with the thaft of \$38 worth of jewelry from his sister, Mrs. Hymen Hamer, of 68 Lewis street.

Young Schachner, it was developed, had long loved a pretty young German girl named Sarah. Sarah was a cripple, and on that account Hymen's sister and her husband bitterly opposed the ides of a marriage between the young people. In spits of their opposition, however, they were married about three weeks ago and began housekeeping in a cozy West aide flat. On one of his visits to his sister, Hymen said, he was accused by her and her husband's family of stealing some jewelry, and be-cause he denied it was locked up in a dark room and kept on bread and water for two days and a night. Finally he grew desperate and at the thought of his lonely bride whom he pictured in want and despair and confessed that he had taken the jewelry in order to gain his liberty. He denied to the justice that he had done so and said that he had been deprived of his liberty merely because he had married against the wishes of his family.

Justice Hogan promptly dismissed the bridegroom and lectured his rela-

SWALLOWED A DOOR KEY. An Undestrable Tenant in Possession of the

KANSAS CITY, Mo., Nov. 4.—Miel Dean, deputy under Coroner Langsdale, accidentally swallowed a door key about 12:30 o'clock this morning. Dean sleeps in the coroner's office, 407 and 408 Rialto building, so as to be on hand to answer calla. About the hour named he was dozing, when suddenly the telephone bell rang. He jumped out of bed to answer the call and just then the key slipped down his throat He had had it in his hand when he retired and remembers putting it in his mouth while still awake, not thinking of the

danger he was incurring. Immediately after the accident Dean went to the office of Dr. Burke on the third floor of the Rialto. The doctor gave him medicine which produced vomiting, but the key did not appear. It was lodged in his stomach and could not be moved. At 1 o'clock this treatment was abandoned. Dr. Burke sent Dean to his room and ordered him to lie quiet until this morning when another effort will be made to dis-lodge the kep. The doctor said that it was likely that an incision will have to be made in the stomach to get it out. This operation is attended with great danger.

CHURCH EXTENSION.

General Committee of the Methodist Epis-PHILADELPHIA, Nov. 4.—The first day's session of the general committee of church extension of the Methodist Episcopal church convened here this afternoon, Bishop Fose presiding. The meetings of this committee, which occur yearly, bring together the representative men of the denomination, composed as it is of the bishops and a delegate from the bishops and a delegate from each general conference district and fourteen members of the board of church extension. The topics discussed PORK—New 12 50 612 70 CHICAGO. and the business transacted are always of the most vital importance to the scope principally and primarily the extension of the cause of the Methodists into new fields and doing thereby a grand missionary work. The conven-

tion will continue over Saturday. The secretary's report shows that the gross receipts during the year ending October 31, were \$319,980. Since the beginning receipts have been \$4.629,772. In 1893 603 churches were added, the total since the beginning being 8,540. The figures for the past year show an encouraging gain.

Railway Employes Organizing. St. Louis, Nov. 4.—Grand Chief W. F. Missimer, of the Brotherhood of Carmen, while in this city, in conversation about the recent trouble between railroad employes and employers, said: "We have a little surprise in store for them in the shape of an international organization of railway employes, to include every railway employe from the truck man up. This organization will be in shape before January and meetings in regard to it are being held all over the United States. We have our plans ready and all we want to do now is to issue the final call. The organization will take in all the railway brotherhoods now in existence and will have something like 104,000 members leave to-morrow for Chicago to confer with some of the leaders and will probably be able to give the press more about the organization then."

More Land For settlement. SALEM, Ore., Nov. 4 - Judge R. II. Boise has just returned from the Siletz reservation, where he had been as one of the commissioners of the purchase of lands from the Indians. The commission effected a contract for the purchase of 180,000 acres for \$143,600, or about 80c per acre. This is fine timber land, the farming lands already having been allotted. The government pays for this land \$75,000 cash, and the balance will draw interest for the benefit of the Indians. When the allotment of land on this reservation was made, each Indian was given eighty acres, and there were 321 of them.

He gave up his practice in order to obtain a regular diploma from a recognized medical college.
