SUBURBAN NEWS

As Furnished by Our County Correspondents.

Garfield.

Says the whitepock to the crane, what will we do if we don't get rain.

We will not mention about the frost last week which killed our vines, pumpkins, melons, etc.

Born to Mr. and Mrs. Chas. Amack, September 11th, a boy of usual weight. Chas. is doing well himself. We'll take Port wine on this occasion Charles.

If we have a good word for any candidate on either side this fall we will mention it, and if not we will not try by any personal ill feeling, to injure any one of the men whose names are before the people as candidates for office, let them stand on their own feet and be elected on their merits.

The weather continues hot and dry. Haying is the order of the day, and large stacks can be seen in all directions.

Mr. S. Heaton has imported a large herd of steers from Colorado. He intends to feed them this winter. They are fine large ones.

Mr. Rosenerans shipped two car load of hogs from Inavale this week, and the price of hogs was 5c at that thriving little burg. Verily opposition is the life of business.

Mr. Cotrell has finished cutting his broom corn. He has a good crop.

Mr. Duran, with his nephew from Thayer county, are haying on Dry creek.

Mr. Osborn's team got away from him while he was haying and broke the hay rack and the wagon pole, the horses were uninjured. Mr. Osborn and Al Fern were both on the ground when the horses started, but received no greater injuries than a fright.

Mr. Fogle and Miss Downs were pleasant callers at Mr. Points last week.

THE RAMBLER.

State Creek.

We are rather dry, and haying is the order of the day. Many tons are dotting our prairies at present and Mr. Grewell expects to commence baling soon.

Mrs. Slabby died a few days ago after a long spell of sickness. Her daughter died about three weeks ago.

Mr. Shannon's little boy that was so badly hurt by the kick of a horse, is slowly recovering.

Mr. Shanon will commence a school 40 miles south-west, at \$50 per month. He goes well recommended and is a good teacher. He taught an 8 months term in Mt. Hope last winter.

Miss Edith Scrivner is teaching at Pleasant Dale, and Miss Ann Wilson at Johnson school house.

Miss Dolly Davis has gone to Red Cloud to go to school this winter.

There was preaching at the Red school house last Sunday, and Quarterly meeting at the M. E. church.

Mr. Rosenerans shipped his hogs last week to Kansas City and did well. Uncle Tom Ryan shipped about 125 head of very large ones to Omaha and received a good price.

Threshing was finished up our way last week. Grain yielded very poor, though some have enough for seed and will sow more than last year.

Some few of our people have talked Oklahoma for quite a while and have come to the conclusion that this country is good enough for them and will let well enough alone.

Mr. Guthrie will thresh broom corn and Al Scrivner and Wm. Dollings will shell corn.

OCCASIONAL.

We sell Parks' Cough Syrup on a positive guarantee to cure all throat and lung troubles. It has stood the test for many years and to-day is the leading remedy for the cure of colds, consumption and all diseases of the throat and lungs. Price 50c and \$1.00. Sold by C. L. Cotting.

Inavale.

If I were a quail
And wanted some fun,
I'd surely sail
Near Bill Iron's gun.
But if I do die
Should want to some day,
I'd certainly fly
Quite the other way.

Capt. and Mrs. Knight attended the old settlers reunion at Amboy last week. They reported an excellent time.

A. R. Davis finished stacking 200 tons of hay for Chas. Hunter last week. And Thomas Jones finished 800 tons for W. N. Richards.

The Red Cloud base ball boys are able they say, to stand defeat from the Blue Hill club, but the poetry of Joe Nau is what knocks them silly. If Joe doesn't stop it he will drive them to strong drink.

There is a rumor that Inavale is to have a brass band. If there is anything on earth that Inavale needs it is a brass band. Let it come.

Mr. and Mrs. Thos Hunter arrived home last Sunday from a visit of several weeks to the world's fair and to points in Wisconsin near the scene of Charles's birth. They express themselves well pleased with their trip.

The corn growers' ball at Mr. Don's grove last Friday evening was a grand success; several couples were up from Red Cloud and several down from Riverton. There were about thirty couples in attendance.

Prof. Geo. R. McCrary returned last Saturday evening from an extended trip of over two months in the east, during which time he visited the world's fair, friends in Indiana, Illinois and Iowa. Prof. McCrary is the nominee of the populists for county superintendent and is without a doubt the strongest man on the ticket.

Republican politicians are warning up some; people are somewhat conservative in speaking their views in regards to candidates. Porter Hedge will however no doubt have the end of the county back of him for sheriff, and no better nomination could be made.

Miss Ella Fonchu niece of Mr. and Mrs. Irons left last week for her home in Iowa. During her three months visit here she made many friends who were sorry to see her leave.

The father of Wm. Irons from Iowa is visiting in Inavale this week. He is a hale and hearty old gentleman and resembling his son very much.

As a general rule it is best not to correct coarseness by the use of saline or other drastic medicines. When a purgative is needed, the most prompt, effective, and beneficial is Ayer's Pills. Their tendency is to restore, and not weaken, the normal action of the bowels.

Trunk Delivery.

I will attend to all calls, left at Stoffer's barber shop, for the delivery of trunks or other baggage with promptness and despatch. C. E. FEARN.

A Great Convention.

The Inter-State Irrigation Convention at Salina, Kansas, to be one of the most important Conventions ever held in the West. Addresses will be made by the representatives from seven states. Every phase of the irrigation question will be considered. A permanent organization formed.

The Inter-State Irrigation Convention that will meet in Salina, Kansas, Sept. 28th, is attracting wide attention throughout the west. Seven western states will send delegates and addresses will be made by the most practical irrigators of the United States. Mr. J. B. Merry, of Los Angeles, California, will address the convention on the results of irrigation in the west and the various methods employed in securing artificial water for irrigation. Prof. Hay, the geologist, will discuss the water supply on the plains and its utility for irrigation. The duties of the general government to the irrigation movement will be discussed by representatives from South Dakota, Texas and Nebraska. Every phase of the question will be discussed by practical and experienced men. A permanent organization will be formed to push the movement in behalf of the settlers of the great west. Webster county should be well represented at this convention. Every one interested either directly or indirectly, is invited to attend.

Trade should send a representative and every farmer's society should not fail to send a delegate to this convention. Every citizen in the west is interested in this movement. Let this be a movement by the masses of the people. Special Rates are given over all the railroads. For particulars address J. L. Bristow, Sec., Salina Kansas.

McKeighan's Speech.

According to the announcement that Congressman W. A. McKeighan would deliver a non-partisan speech at the opera house on Tuesday night, September 19th, the house was well filled, and the speaker was introduced by the Hon. Jas. Gilham, who, in a few sententious remarks, denounced the reckless legislation and showed the importance of a union of the people to prevent it. He also said that Cong. McKeighan and he had differed as to who should be county sheriff and similar officers, but were virtually the same on greater issues. He said that our people had been fairly represented in congress, and that, in intellectual merit, McKeighan's speech would compare with any made in congress this year. Congressman McKeighan then proceeded in his usual graceful manner and, with the exception of frequent interruptions by an ignorant and obstreperous man in front, there was no pause till the close.

His speech was logical and instructive, and he treated his subject with ability and fairness. Lack of space and a failure to procure the speech verbatim precludes us from giving it the publicity it deserves. Below, however, will be found a synopsis and extracts of the address:

"Calamity howling is the cause of the great financial depression. News spreads quick and people are quick to take alarm. Wall street attempted to teach the west an object lesson. At the time the Sherman law passed, reports show that we had \$240,000,000 in gold, and the panic is not due to the Sherman law; it would have occurred anyhow. Wall street was bound to force a bond issue. When the panic came on, people went to the banks for their money and then hoarded it up. I am unable to see that the Sherman law has any connection with the condition of the country. There is no intelligent man who would dispute but that it would be as easy to take gold out of the country with the Sherman law as with it. How will the repeal of the silver law have anything to do with keeping gold in this country? All over the south, darkies are paid in silver—they do not think it is depreciated.

When I was in Washington, I received letters from friends, asking me to enclose a small remittance and thereby restore confidence, and they did not object to silver. I have a friend in New Orleans who said that, because of the newspaper cry, the people made a rush on the banks and drew out their money and hoarded it up. There is no object in running a bank when you are compelled to keep money on hand to pay deposits. Many men have agreed that this panic was caused with an object of scaring the people.

Thos. B. Reed of Maine is an acknowledged leader of the republican party; Burke Cochrane of New York is the democratic leader. I want a double standard, because if one metal should be called abroad, the other could remain.

There is no human law that can regulate the value of dollars; it is regulated by supply and demand. Before this congress is over, I predict that the panic will be over, and before this session is over, the question of American banks will become uppermost. The question is, how can you keep the two great coins on a parity? You can take any stated amount of silver and gold and buy more goods than you could in 1873, as the people have to make the laws of this country and Cleveland has to execute them. We have been on a gold standard since 1884. Only 11 republicans voted for free coinage. In congress, it was proposed to vote at a ratio of 16 to 1, then 18 to 1, then 19 to 1, then 20 to 1, and the 20 to 1 got the least vote.

It is a popular error that America is in debt, and for that reason, do doubt, won't prosper. There is no country on earth with as good credit as America. She has a grand variety, and in point of resource, the richest country on earth. I think, as I always have thought, that we might regulate our taxation. I think there is danger in the near future, and let us all cease to be partisans and be patriots. Sectional feeling is advancing in this country and congress must be wise and careful in its legislation. I have never changed my
